WIC Success Story

From Kodiak:

Our receptionist is exceptionally bilingual with Spanish and English and has been able to help with several appointments in order for us to communicate more effectively with clients who speak Spanish and understand very little English. They communicate and share more with the educators through our receptionist.
She has also been able to communicate more with many of our daycare providers who are Spanish speaking as well, but are clients of children or foster children.
We are able to share education to them for their family/child but also for the daycare as a whole for better nutrition.
