

**Tribal Medicaid Activity Report
Federal Fiscal Year 2012**

BLANK PAGE

The FFY 2012 Tribal Medicaid Activity Report has been structured to show potential opportunities for refinancing of specific categories of service and areas of expansion. It provides an overview of total claims paid by the State of Alaska Medicaid program for services to American Indian/ Alaska Native beneficiaries. It also provides an overview of the total claims paid by the State of Alaska Medicaid program for services provided by Tribal Health Organizations. It is meant as a tool for use by the Tribal Health Organizations and providers to identify services that may be expanded upon to maximize Tribal Medicaid claiming opportunities. The data shows how Alaska's Medicaid population is changing by identifying who we are serving, where they are from and what services they receive from both Tribal and Non-Tribal providers.

The Federal Fiscal Year 2012 Report is organized similarly to last year's report. The Tribal Health Organizations and Recipient Reported Address List has been updated to reflect the most recent information received from the THOs. FFY 2012 includes the dates of service October 1, 2011 thru September 30, 2012; the annual report data includes all claims as of December 31, 2012. Also please note the data is pulled in various ways; the total do not necessarily match from chart to chart, however there is an explanation accompanying each chart showing how it was derived and organized.

If you have any questions, concerns, or comments that relate to this report, please contact Renee Gayhart at (907) 465-1619, or email Renee.Gayhart@alaska.gov.

The statistics reflect the unique count of recipients per each THO in FFY12. This means if Jane Doe was seen at ANTHC and at BBAHC, she is counted one time for each THO. Therefore a total of these demographics would include duplicates and thus is meaningless.
