RFP #170007291
Medicaid Coordinated Care Demonstration Project

Amendment #3

Amendment Issue Date: February 27, 2017

IMPORTANT NOTE TO OFFERORS: This amendment serves to provide an update on the Medicaid Data Book and answer questions submitted by interested parties. A copy of the amendment is available on the State's Vendor Self Service website.

- **Medicaid Data Book Announcement**

The Medicaid Data Book, originally scheduled to be available on February 28th, is now anticipated to be released on March 7th. The deadline for receipt of proposals will be extended to accommodate for this delay once the data book has been made available.

- **Vendor Questions have been answered as follows:**

Q1: To better understand cost details and more accurately project savings to the state, will the data book please include claim level detail that includes the name of the physician or facility that provided the service and the physical location the service was provided?

The data book will be similar to the Medicaid managed care data books other states provide with their Medicaid managed care RFPs. It will include per member per month costs by population, region and service category, and other pertinent information such as prevalence data for certain health conditions. Unfortunately claims level data cannot be easily published in book form. There are also confidentiality restrictions that would prevent the Department making this level of data publicly available.
