Healthy Alaskans 2020 Deliverables

Community Capacity Review

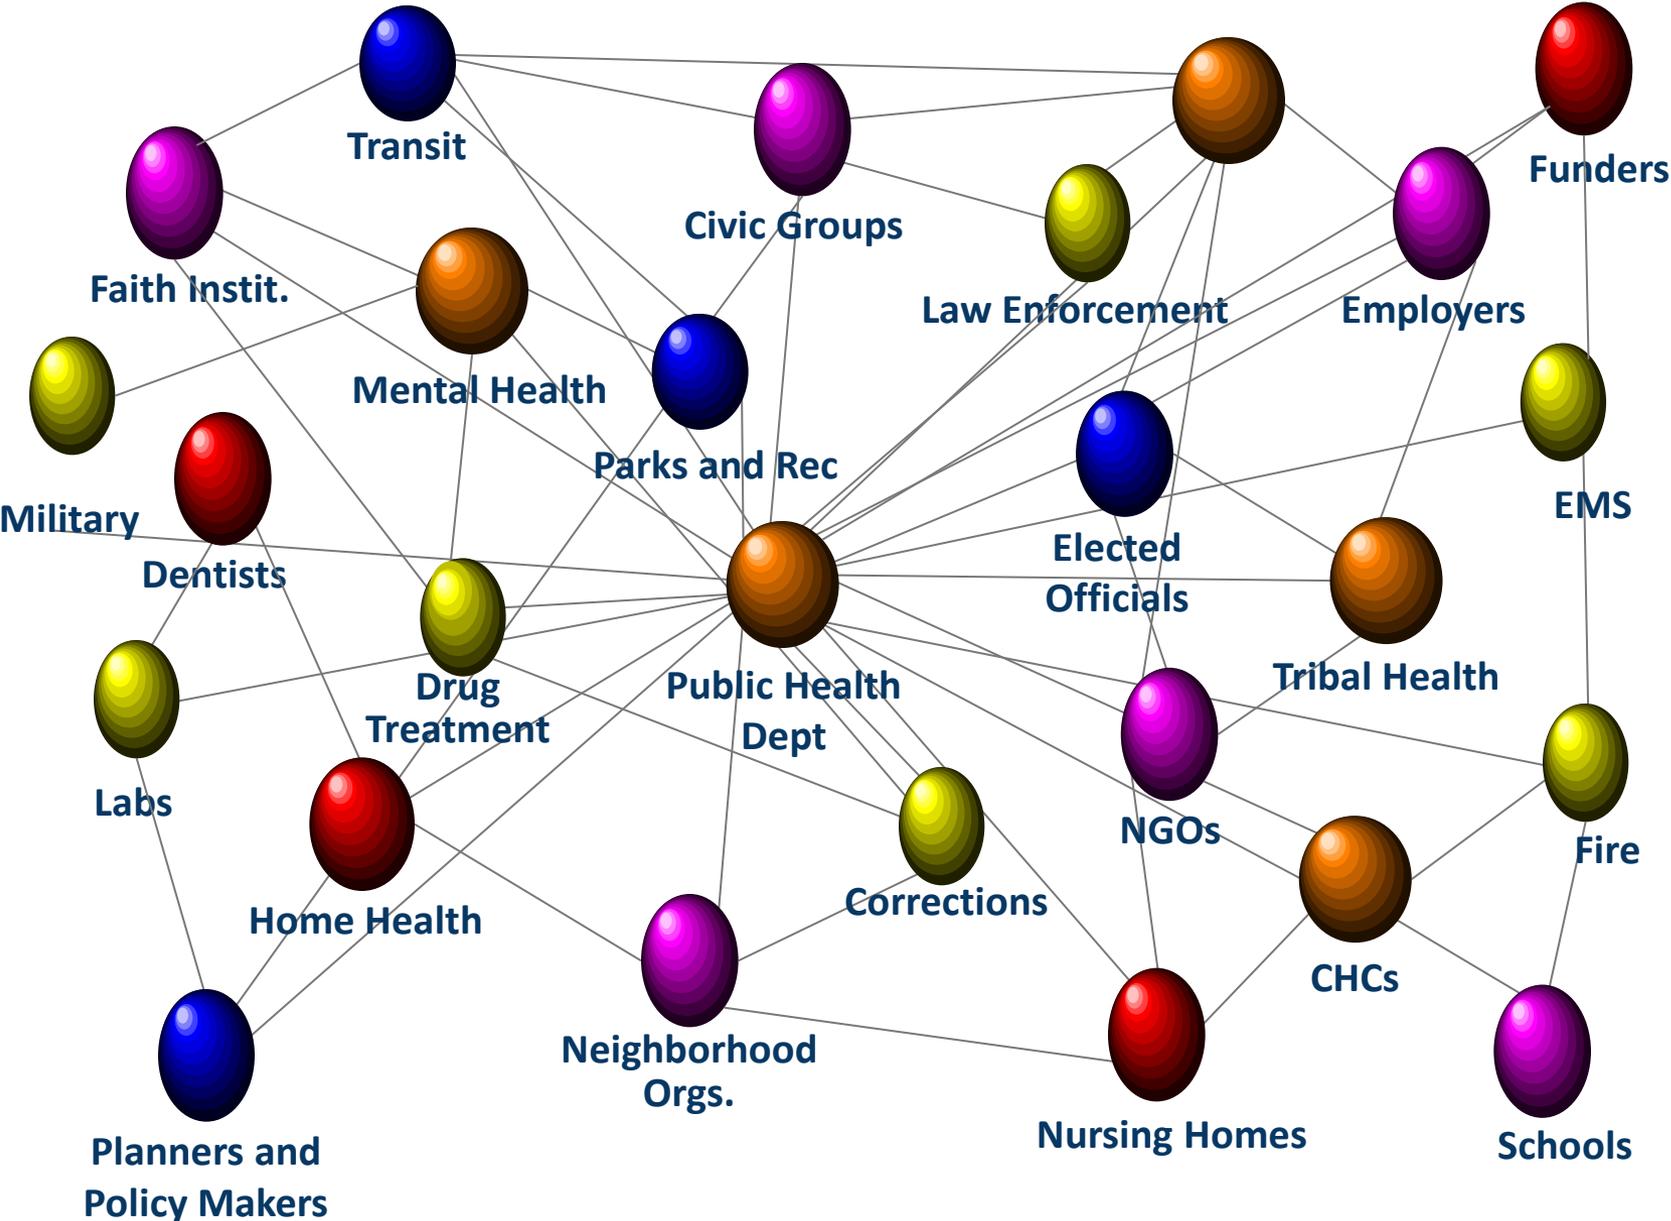

HEALTHY
ALASKANS
2020

- May 15, 2014
- An assessment of Alaska's public health system based on NPHPS state assessment tool.
- Purpose: Identify system strengths and gaps to inform the development of an improvement plan

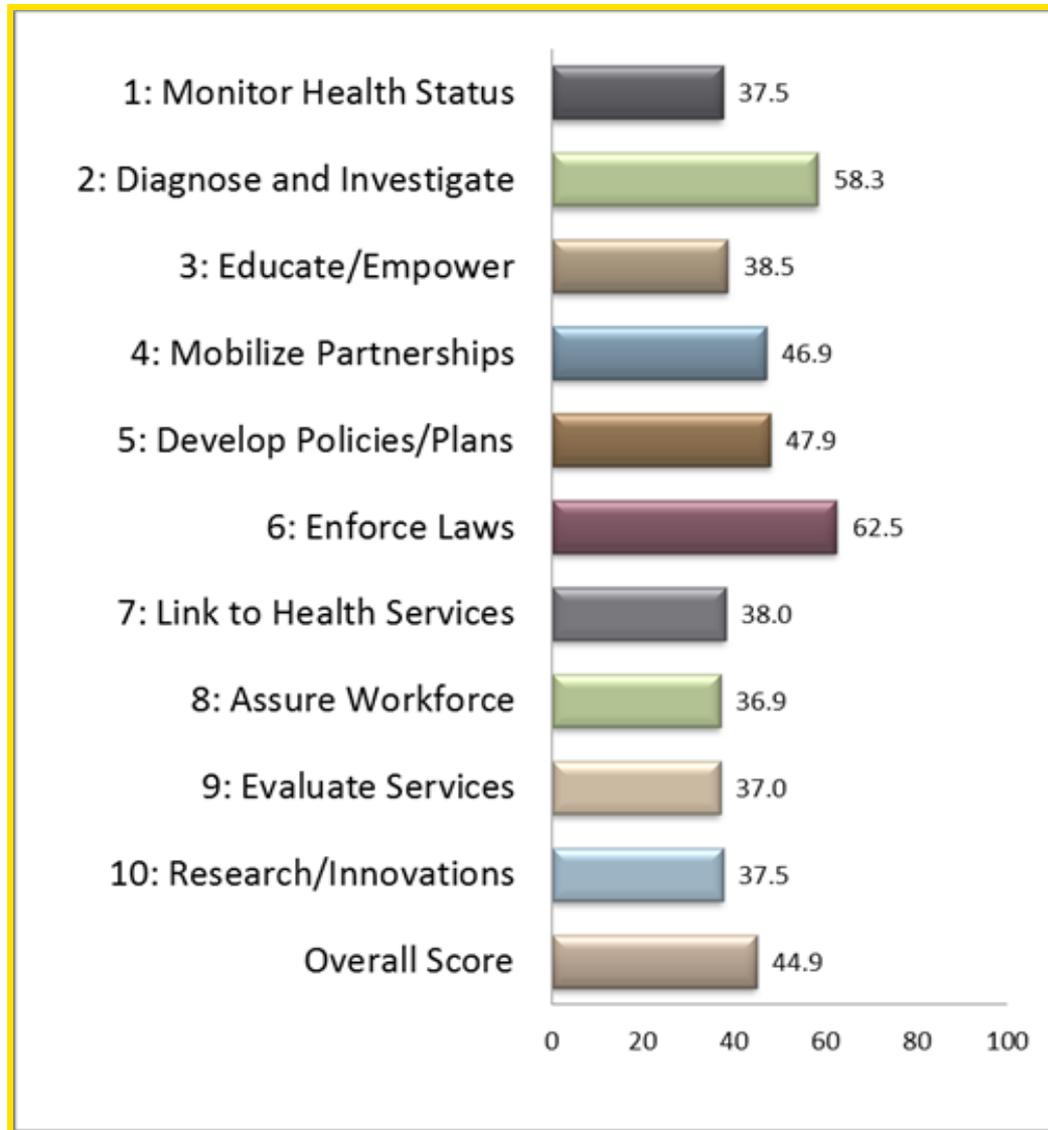

What is Alaska's Public Health System?

The Essential Public Health Services

- Essential Services 1 & 2
 - **Monitor** health status to identify community health problems
 - **Diagnose and investigate** health problems and health hazards in the community
- Essential Services 3 & 4
 - **Inform, educate, and empower** people about health issues
 - **Mobilize partnerships** to identify and solve health problems
- Essential Services 5 & 6
 - **Develop policies and plans** that support individual and community health efforts
 - **Enforce laws and regulations** that protect health and ensure safety
- Essential Services 7 & 9
 - **Link people** to needed personal and population health services
 - **Evaluate** effectiveness, accessibility and quality of personal and population-based health services
- Essential Services 8 & 10
 - **Assure** a competent public health workforce
 - **Research** for new insights and innovative solutions to health problems
