

673d Medical Group JBER Alaska

One Team-One Fight!

The 673d Medical Group (673 MDG) is a 52-bed military treatment facility (MTF) providing primary and subspecialty, outpatient and inpatient care to 166K DoD, USCG, and VA beneficiaries. This Joint Venture hospital is a primary referral center for Alaska. It supports global engagement through multiple Expeditionary Medical Support elements, Critical Care Air Transport Teams, and casualty reception with mission capability of expanding to 138 beds, and a 100-bed En-Route Patient Staging System. As a Joint Venture facility, 673 MDG is recognized throughout the nation for our partnership with the Alaska Department of Veteran Affairs. We continually explore ways in which we can collaborate and integrate services to provide more effective and efficient healthcare.

The vision of the 673d Medical Group:

Be the premier Joint Venture Healthcare system; optimize services through creative solutions... "We create solutions!"

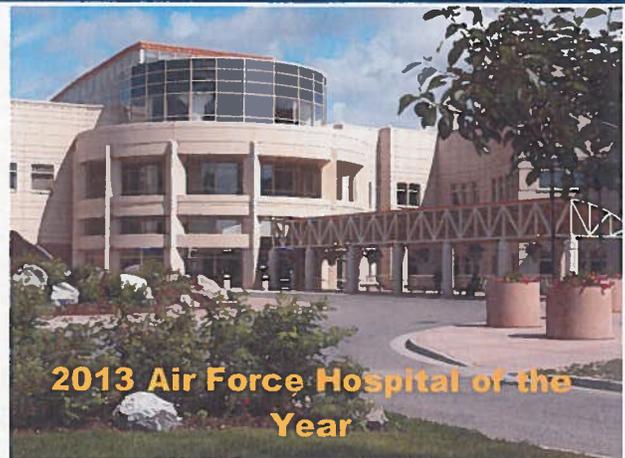

The mission of the 673d Medical Group:

"Arctic Medics committed to readiness and seamless health service."

673 MDG Strategic Plan

Support JBER Mission	Enhance Staff Currency & Proficiency	Maximize Specialty Care	Enhance Patient Experience
<ul style="list-style-type: none"> Exercise/Evaluate Execution of Installation Deployment Requirements Identify, validate and address Individual Medical Requirements per Customer Timeline 	<ul style="list-style-type: none"> Improve ED Throughput Provide Care in Appropriate Setting Establish Robust Referral Management Recapture Fully Optimize Training Affiliations Increase Surgical Admissions 	<ul style="list-style-type: none"> Maximize Cardiology Services Establish Telemetry on MSU Increase Pain Clinic Return On Investment Achieve Surgical Currency Fully Implement Joint Venture MRI Integration 	<ul style="list-style-type: none"> Enhance Patient Satisfaction and Customer Service Needs Sustain Effective Marketing to Beneficiaries Implement Facility-wide Sterilization Standards Decrease Reportable Harm Events
