FIRST TIME TRYING EDIBLES?

START LOW • GO SLOW

HERE'S SOME HELPFUL ADVICE:

- **Start Low!** If you are a first-time consumer, be aware that consuming a marijuana-infused product is usually more intense and very different than smoking. Always read the manufacturer's label for guidelines to a positive experience.
- **Go Slow!** Effects may take 45 minutes to 2 hours. Novice users should resist the urge to consume additional infused products during this window.
- **One THC or less is a safe way to start.** Although Colorado law considers a "serving" to be 10mg of THC, some novice users have found this to be too much.
- **Consume Responsibly!** Keep all marijuana-infused products away from children and pets! Don't drive or operate heavy machinery after ingesting, and avoid mixing with alcohol or prescription medications.
- **If you over ingest,** Drink plenty of water or tea, avoid fatty foods, and relax with a trusted friend.
