

MEDICAID REDESIGN: COORDINATED CARE DEMONSTRATION PROJECT

Change Agent Conference

November 16, 2016

Medicaid Redesign

Coordinated Care Demonstration Projects

Purpose:

“...assess the efficacy of a proposed health care delivery model with respect to cost for, access to, and quality of care for medical assistance recipients.”

SB 74

Medicaid Redesign

Key Features of CCDP from SB 74

Proposals must include 3 or more of the following:

1. Primary care-based management
2. Care coordination with primary care provider assignment
3. Health promotion
4. Transitional and follow-up care after inpatient treatment
5. Referral to community and social support services
6. Sustainability; Replicability
7. Integration and coordination of benefits, services, and utilization management
8. Local accountability for health and resource allocation
9. Innovative payment process

Medicaid Redesign

Key Features of CCDP from SB 74

- DHSS may contract with:
 - Provider-led entities
 - Accountable Care Organizations
 - Managed care organizations
 - Primary care case managers
 - Prepaid ambulatory health plans
- Fee structures may include:
 - Global payments
 - Bundled payments
 - Capitated payments
 - Shared savings and risk
 - Other payment structures

Other Key Features of CCDP

- No money for planning and development
 - Opportunity for new reimbursement structure
- Behavioral Health Reform Alignment
 - Community or regional integrated models welcome
 - Statewide BH models not accepted
 - Would preempt 1115 BH Waiver efforts
- Tribal entities not required to respond to RFP
 - Partnership between Tribal and non-Tribal entities welcome
 - Tribal entities may use Tribal Consultation process

Medicaid Redesign
