FY2014 CBHTR Funding Allocation Process

FY2014 CBHTR Funding Allocation Process: Summary

The FY2014 CBHTR grant awards were based on a competitive process that reflected grantee performance during the first three quarters of FY2013 and, where applicable, the Proposal Evaluation Committee (PEC) score assigned to the grantee’s FY2014 application. There were no new funds to distribute to grantees, so existing CBHTR funds were allocated based on a redistribution process reflecting grantee performance. This process was accomplished through a funding allocation model that incorporated grantee FY2013 funding, FY2013 performance, and FY2014 PEC score.

The funding allocation model aligned performance measures with five competitive funding groups reflecting specific populations and services. The competitive funding groups, and the performance measures that are applied to each group, are listed in Table 1 below. In addition, for those grantees with a PEC score, if the PEC recommended to fund services, then the grantee’s PEC Summary Score was aligned with a competitive funding group (based on the program service type) and incorporated into the funding model.

Grantees with FY2013 funding in a specific competitive funding group competed with one another (based on performance and PEC score) for the available FY2014 CBHTR funds for that specific group. In the model, grantees started out with their FY2013 CBHTR final award amount for each competitive funding group (i.e., where applicable). Performance points and PEC points were applied as adjustments to grantee funding that resulted in a new proportional distribution of funds within each competitive funding group. For each group, the total CBHTR funding remained the same, but each grantee’s proportion of the total changed – thus reflecting the competitive aspect of this process. Each grantee’s change in their proportion of the total funds for the funding group reflects how well they did in comparison to other grantees. For some grant funds, performance-based funding (PBF) was not applicable, and in these instances, the grant funds were fixed and not adjusted in the model.

Table 1. Competitive Funding Groups and Performance Measures Applied.

FY2014 Performance Based Funding (PBF) Measures and PBF Points

The FY2014 CBHTR funding allocation process included evaluating grantee FY2013 performance (through the 3rd quarter) for the eight performance measures listed in Table 1 above. Performance thresholds and corresponding performance points were established for each measure. Descriptions of the PBF measures and assignment of PBF points are provided below.

1. **Grant Review and Progress Report - DBH Staff Score.** DBH staff scored grantees on the following activities to determine an overall Staff Score for each grantee:

- a. Did grantee participate in community planning on a quarterly basis?
- b. Did grantee spend funds as approved in the grant agreement?
- c. Did grantee submit all required reports (including narrative, AKAIMS, and cumulative fiscal reports) in a timely manner?
- d. Did grantee submit complete quarterly reports?
- e. Did the grantee use the Logic Model to make program improvements?

Possible PBF Points = -0.75, -0.50, 0.00, +0.25, +0.50, +0.75, +1.00

Threshold Ranges: Staff Score	PBF Points
<= 64%	-0.75
>= 65% and <= 74%	-0.50
>= 75% and <= 84%	0.00
>= 85% and <= 89%	+0.25
>= 90% and <= 94%	+0.50
>= 95% and <= 99%	+0.75
= 100%	+1.00

2. **Average Number of Days from Screening (AST) to First Treatment Service.** This measure reports the elapsed period of time from the completion of the Alaska Screening Tool (AST) to the date of the first treatment service. This measure is a proxy for the performance of the treatment system relative to timely access and engagement into treatment services.

Possible PBF Points = -0.25, 0.00, +0.25, +0.50, +0.75, +1.00

Threshold Ranges: Avg # of Days	PBF Points
>= 36	-0.25
>= 29 and <= 35	0.00
>= 22 and <= 28	+0.25
>= 15 and <= 21	+0.50
>= 8 and <= 14	+0.75
<= 0 and <= 7	+1.00

3. **Percent of Clients Served within 30 Days of Program Enrollment.** This measure reports the percentage of an agency's clients who received a treatment service within 30 days of being enrolled into a program for treatment services. This measure is a proxy for the performance of the treatment system relative to timely access and engagement into treatment services.

Possible PBF Points = -0.25, 0.00, +0.25, +0.50, +0.75, +1.00

Threshold Ranges: % Served within 30 Days	PBF Points
>= 0% and <= 49%	-0.25
>= 50% and <= 59%	0.00
>= 60% and <= 69%	+0.25
>= 70% and <= 79%	+0.50
>= 80% and <= 89%	+0.75
>= 90%	+1.00

4. **Percent of Enrolled Clients Not Served within 135 Days.** This measure identifies those clients enrolled into treatment services who have not received any services within 135 days or greater. This measure is a proxy for the performance of the treatment system relative to engagement and retention of clients in services and "capacity management" of treatment services.

Possible PBF Points = -0.75, -0.50, -0.25, 0.00, +0.50, +1.00

Threshold Ranges: % Not Served in 135 Days	PBF Points
>= 51%	-0.75
>= 31% and <= 50%	-0.50
>= 21% and <= 30%	-0.25
>= 11% and <= 20%	0.00
>= 6% and <= 10%	+0.50
>= 0% and <= 5%	+1.00

5. **Percent of Clients with Improvement (or No Change) in Health Domain.** This measure looks at the percentage of clients who self-reported improvement (or no change) over time in the CSR health domain question(s). This measure is based on a comparison of the first follow-up CSR to the initial CSR, where the first follow-up CSR occurred during the reporting period.

- a. For the SMI and SED populations, this measure is based on client response to:
 - CSR Question #2: How many days in the past 30 days was your mental health (including depression and/or problems with emotions, behavior, or thinking) not good?

- b. For the SA populations (adult & youth), this measure is based on client responses to:
 - CSR Question #5: How many days during the past 30 days have you used alcohol?
 - CSR Question #6: How many days during the past 30 days have you used illegal drugs (including medications not as prescribed/ directed)?

Possible PBF Points = -0.25, 0.00, +0.50, +1.00

Threshold Ranges: Health Domain - % Improved or Same	PBF Points
>= 0% and <= 49%	-0.25
>= 50% and <= 69%	0.00
>= 70% and <= 79%	+0.50
>= 80%	+1.00

6. Percent of Clients with Improvement (or No Change) in Quality of Life Domains. This measure looks at the percentage of clients who self-reported improvement (or no change) over time in the CSR quality of life domain questions. This measure is based on a comparison of the first follow-up CSR to the initial CSR, where the first follow-up CSR occurred during the reporting period.

For each of the four target populations (SMI, SED, SA Adult, and SA Youth), this measure is based on client responses to the nine quality of life questions under CSR Question #16: "How do you feel about.. "

- Your housing?
- Your ability to support your basic needs of food, housing, etc.?
- Your safety in your home or where you sleep?
- Your safety outside your home?
- How much people in your life support you?
- Your friendships?
- Your family situation?
- Your sense of spirituality, relationship with a higher power, or meaningfulness of life?
- Your life in general?

Possible PBF Points = -0.25, 0.00, +0.50, +1.00

Threshold Ranges: Quality of Life Domains - % Improved or Same	PBF Points
>= 0% and <= 49%	-0.25
>= 50% and <= 69%	0.00
>= 70% and <= 79%	+0.50
>= 80%	+1.00

7. **Percent of Clients Satisfied with Quality of Services.** This measure looks at the percentage of clients who reported satisfaction with the quality of services received. This measure is based on the client’s first follow-up CSR, where the first follow-up CSR occurred during the reporting period.

For each of the four target populations (SMI, SED, SA Adult, and SA Youth), this measure is based on client responses to the following two questions under CSR Question #18: "How do you feel about the services you received?"

- I was treated with respect.
- I was able to get all the services I needed.

Possible PBF Points = -0.25, 0.00, +0.50, +1.00

Threshold Ranges: Quality of Services - % Satisfied	PBF Points
>= 0% and <= 49%	-0.25
>= 50% and <= 69%	0.00
>= 70% and <= 79%	+0.50
>= 80%	+1.00

8. **Percent of Clients Satisfied with Services: Improved Quality of Life.** This measure looks at the percentage of clients who reported satisfaction regarding an improved quality of life resulting from services received. This measure is based on the client’s first follow-up CSR, where the first follow-up CSR occurred during the reporting period.

For each of the four target populations (SMI, SED, SA Adult, and SA Youth), this measure is based on client response to the following question under CSR Question #18: "How do you feel about the services you received?"

- The services improved the quality of my life.

Possible PBF Points = -0.25, 0.00, +0.50, +1.00

Threshold Ranges: Improved Quality of Life - % Satisfied	PBF Points
>= 0% and <= 49%	-0.25
>= 50% and <= 69%	0.00
>= 70% and <= 79%	+0.50
>= 80%	+1.00

FY2014 Proposal Evaluation Committee (PEC) Summary Score and PEC Points

For grantees who had a PEC Summary Score incorporated into the funding model for one or more specific competitive funding groups, the grantee’s PEC Summary Score was compared to the average score for the funding group. PEC points were assigned based on the degree of variation from the average score (i.e., standard deviation (StdDev) from the mean). Thresholds and corresponding PEC points are provided below.

Threshold Ranges: PEC Summary Score	PEC Points
Below the mean by more than 1 StdDev	-1.00
Below the mean by more than ½ StdDev, but within 1 StdDev	-0.50
Below the mean, but within ½ StdDev	-0.25
Above the mean, but within ½ StdDev	+0.25
Above the mean by more than ½ StdDev, but within 1 StdDev	+0.50
Above the mean by more than 1 StdDev	+1.00

FY2014 Grant Awards: Overall Impact of Performance on Redistribution of Grant Funds

Table 2 below provides an overall summary of the impact of grantee performance (including PBF measures and the PEC summary score (i.e., where applicable)) on the redistribution of grant funds. There were 61 grantees with funding included in this competitive process; of these, 30 (49%) had an increase in funding and 31 (51%) had a decrease in funding.

Table 2. FY2014 Grant Awards: Overall Impact of Performance

FY2014 Grant Awards: Overall Impact of Performance on Redistribution of Grant Funds (Summary of Change Due to PBF Measures and PEC Summary Score)		
	Increased Funding (30 of 61 Grantees = 49%)	Decreased Funding (31 of 61 Grantees = 51%)

* If the PEC recommended to fund services, then the PEC Score was aligned with a PBF Competitive Funding Group and incorporated into the funding model. If an agency had a FY13 grant with more than one Average PEC Score for the Competitive Funding Group, then an average of the scores was used for the PEC Summary Score. Within the funding model, agencies competed with one another based on their PEC Summary Score within the specific Competitive Funding Groups. In some cases, based on the program service type and project location, it was determined that applying this additional layer of competition (i.e., based on PEC Summary Score) was not warranted and the PEC Score was not incorporated into the funding model (see yellow highlighted rows). In addition, the PEC recommended to fund two new agencies (see green highlighted rows); funding for these agencies was determined outside of the funding model.

FY2013 CBHTR Grantee Performance (through 3rd quarter) - Summary by PBF Measure

Attachment C.1: Grant Review and Progress Report: DBH Staff Score

Measure Description: DBH staff scored grantees on the following activities to determine an overall Staff Score for each grantee:

- Did grantee participate in community planning on a quarterly basis?
- Did grantee spend funds as approved in the grant agreement?
- Did grantee submit all required reports (including narrative, AKAIMS, and cumulative fiscal reports) in a timely manner?
- Did grantee submit complete quarterly reports?
- Did the grantee use the Logic Model to make program improvements?

Attachment C.5: Percent of Clients with Improvement (or No Change) in Mental Health Domain - SMI Population

Measure Description: This measure looks at the percentage of clients who self-reported improvement (or no change) over time in the CSR mental health domain question. This measure is based on a comparison of the first follow-up CSR to the initial CSR, where the first follow-up CSR occurred during the reporting period.

For the SMI population, this measure is based on client response to CSR Question #2: How many days in the past 30 days was your mental health (including depression and/or problems with emotions, behavior, or thinking) not good?

Range	Low	High	PBF Points
1	>= 0%	<= 29.00%	(0.25)

For agencies with \$ subject to PBF but no CSR outcome data:

- a) if the agency did not have clients that were expected to have a follow-up CSR, then the agency was assigned a "PBF Point" that corresponds to the statewide average performance score;
- b) if the agency had clients that were expected to have a follow-up CSR, but there was no CSR outcome data reported, then the agency was assigned a "PBF Point" of (-.50).

Attachment C.9: Percent of Clients with Improvement (or No Change) in Quality of Life Domains - SMI Population

Measure Description: This measure looks at the percentage of clients who self-reported improvement (or no change) over time in the CSR quality of life domain questions. This measure is based on a comparison of the first follow-up CSR to the initial CSR, where the first follow-up CSR occurred during the reporting period. This measure is based on client responses to the nine quality of life questions under CSR Question #16: "How do you feel about.. "

- Your housing? • Your ability to support your basic needs of food, housing, etc.?
- Your safety in your home or where you sleep? • Your safety outside your home?
- How much people in your life support you? • Your friendships? • Your family situation?
- Your sense of spirituality, relationship with a higher power, or meaningfulness of life?
- Your life in general?

Attachment C.14: Percent of Clients Satisfied with Quality of Services - SED Population

Measure Description: This measure looks at the percentage of clients who reported satisfaction with the quality of services received. This measure is based on the client’s first follow-up CSR, where the first follow-up CSR occurred during the reporting period. This measure is based on client responses to the following two questions under CSR Question #18: "How do you feel about the services you received?"

- I was treated with respect
- I was able to get all the services I needed.

Range	Low	High	PBF Points
1	>= 0%	<= 29%	(0.25)

FY2013 CBHTR Grant Review and Progress Report (through 3rd quarter)

Section I:**Fidelity**

Please score each of the categories in this section. Anchor points for each score are listed below the question. Each question is weighted according to level of importance and impact on the agency's overall performance outcomes.

1. Grantee participated in community planning for the purpose of improving services through interagency coordination? Grantee described the changes implemented that improved services. "Consistently participated" wording would allow for missing a

Factor Weight: 6 x Score Weighted Score: 18

Anchor Points:

1 = Grantee consistently participated in community planning.

2 = Grantee consistently participated and planning group documented specific efforts to accomplish proposed projects.

3 = Grantee consistently participated and planning group accomplished projects which improved services.

Comments:

Access Alaska consistently attended and participated in the community planning group, which accomplished projects that improved services.

2. Did grantee spend their grant funds to provide the services described in the FY10 - FY13 RFP that they committed to provide when they accepted their Notice of Grant Award and subsequent amendments (if any)?

Factor Weight: 3 x Score Weighted Score: 9

0 = No

1 = Partial (comment required)

3 = Yes

Comments:

Access Alaska spent their grant funds to provide the services described in their RFP.

Section II: Agency Performance

Please score each of the questions in this section on a scale of 1 to 3. Anchor points for each score are listed below the question. Each question is weighted according to level of importance and impact on the agencies overall performance outcomes.

1. Have all required reports been submitted timely? Required items are: T & R Quarterly Report, any required speciality reports, Logic Model and Cumulative Fiscal Report. *Timely is defined in the DHSS Grant Agreement on page 4 under section 10 General Administration (b) and (c), “the grantee will submit a report to reach the grantor within 30 days after each quarter ending...” Timeliness is measured by the date stamp from G&C.*

Factor Weight: 3 x Score Weighted Score: 9

Anchor Points:

- 1 = All 4 required reports of 1 quarter has been submitted to Grants and Contracts by deadline.
- 2 = All 4 required reports of 2 quarters reports have been submitted to Grants and Contracts by deadline.
- 3 = All 4 required reports of 3 quarters reports have been submitted to Grants and Contracts by deadline.

Denali Family Services was in compliance with the requirements noted in this report with the exception of failure to submit their second quarter CFR to Grants and Contracts by deadline. In the third quarter of this fiscal year, DBH learned that DFS was out of compliance with their grant agreement by not carrying the necessary amount of insurance per their signed grant agreement, which put their clients and the organization at significant risk. DFS was given a corrective action plan by the Department, filed bankruptcy and began working with the Foraker group to reorganize. As of this date, DFS has complied with Division requests and appears committed to remaining in business to continue serving clients.

Factor Weight: 6 **x Score** **Weighted Score:** 18

Anchor Points:

- 1 = Grantee reported quarterly on their logic model.
- 2 = Grantee reported effort on logic model process (output accomplished or revision of the plan).
- 3 = Grantee reported progress on proposed or revised outcome indicators.

Comments:

LCCC has effectively used their logic model to increase referral from primary care providers, developed a managed care model for emotionally disturbed clients and developed a peer review process as part of their quality assurance program. In terms of better tracking client outcomes, the agency agreed to participate in DBH's CSR client follow up and re-engagement pilot project.

The Providence Crisis Recovery Center (PCRC) provides crisis respite and intervention beds for 8 adults and 8 adolescents. This grant (602-13-055) pays for the 8 adult beds and is known as the "Compass" Program. This program accepts referrals primarily from the Anchorage Region, but they have expanded their admission base this year to include referrals from most Southcentral Alaska communities. This grant is listed in the "Other" Program Type category because DBH has not presently developed a "program type" description for the provision of 24/7 crisis respite services. The Division expects to have a published a description of these services prior to the outset of FY2014.

Please score each of the categories in this section. Anchor points for each score are listed below the question. Each question is weighted according to level of importance and impact on the agency's overall performance outcomes.

1. Grantee participated in community planning for the purpose of improving services through interagency coordination? Grantee described the changes implemented that improved services. "Consistently participated" wording would allow for missing a

Factor Weight: 6 x Score Weighted Score: 18

Anchor Points:

1 = Grantee consistently participated in community planning.

2 = Grantee consistently participated and planning group documented specific efforts to accomplish proposed projects.

3 = Grantee consistently participated and planning group accomplished projects which improved services.

Comments:

The PCRC staff are active participants in the Anchorage Region's community planning process. This year the PCRC has worked closely with Southcentral BH providers to assist in dealing with a serious problem for the region: adolescent access to acute care beds. To counter the very limited number of inpatient treatment beds for adolescents, providers, including the PCRC, have worked successfully together to find appropriate treatment for adolescents when it appears most adolescent inpatient services are tapped out and alternative placements are necessary. The PCRC has clearly responded to this need this year, providing both step down beds and by broadening its usual adolescent admission criteria. In addition, given the capacity concerns at API for adult acute beds, the PCRC has also worked with API social workers to take step downs from API's two adult acute units so that inpatient beds are freed up at API.

2. Did grantee spend their grant funds to provide the services described in the FY10 - FY13 RFP that they committed to provide when they accepted their Notice of Grant Award and subsequent amendments (if any)?

Factor Weight: 3 x Score Weighted Score: 9

0 = No

1 = Partial (comment required)

3 = Yes

Comments:

The PCRC expends its grant funds to provide crisis treatment beds for adult services, as contracted. As mentioned above, we have asked the PCRC to work to take step downs from the adult acute units at API in order to keep their adult CRC numbers up. The 8 adolescent beds are almost always full, but the 8 adult bed usage could be increased.

Anchor Points:

- 1 = Quarterly Summaries were timely
- 2 = Quarterly Summaries were timely and complete.
- 3 = Quarterly Summaries were timely, complete, and accurate.

Comments:

The PCRC's quarterly AKAIMS summaries were timely and complete.

4. Grantee used Logic Model to make program improvements? (An output is the work being done and the indicator is the evaluation of those outputs)

Factor Weight: 6 **x Score** **Weighted Score:** 12

Anchor Points:

- 1 = Grantee reported quarterly on their logic model.
- 2 = Grantee reported effort on logic model process (output accomplished or revision of the plan).
- 3 = Grantee reported progress on proposed or revised outcome indicators.

Comments:

The PCRC uses their Logic Model to make program improvements, and they have reported accomplishing some of their outputs and have suggested revisions to their plan, as necessary. The progress on their outcomes requires revision and additional data.

Please score each of the questions in this section on a scale of 1 to 3. Anchor points for each score are listed below the question. Each question is weighted according to level of importance and impact on the agencies overall performance outcomes.

1. Have all required reports been submitted timely? Required items are: T & R Quarterly Report, any required speciality reports, Logic Model and Cumulative Fiscal Report. *Timely is defined in the DHSS Grant Agreement on page 4 under section 10 General Administration (b) and (c), “the grantee will submit a report to reach the grantor within 30 days after each quarter ending...” Timeliness is measured by the date stamp from G&C.*

Factor Weight: 3 x Score Weighted Score: 9

Anchor Points:

- 1 = All 4 required reports of 1 quarter has been submitted to Grants and Contracts by deadline.
- 2 = All 4 required reports of 2 quarters reports have been submitted to Grants and Contracts by deadline.
- 3 = All 4 required reports of 3 quarters reports have been submitted to Grants and Contracts by deadline.

Comments:

All four of the required reports were filed by the deadline in each of the first three quarters of FY13.

2. Were the T & R Quarterly Report, any required speciality reports, Logic Model and Cumulative Fiscal Report accurate and complete? (“Complete” means that all questions are answered in sufficient detail to judge activity / progress and filled out

Factor Weight: 4 x Score Weighted Score: 12

Anchor Points:

- 1 = 1 quarter’s reports were submitted accurate and complete.
- 2 = 2 quarter’s reports were submitted accurate and complete.
- 3 = 3 quarter’s reports were submitted accurate and complete.

Comments:

The required T&R report, the Logic Model, and the CFRs were accurate and complete for each of the first three quarters of FY13.

3. Are the AKAIMS Quarterly Summaries timely, accurate and complete? (“Complete” means that all required data elements have been reported in sufficient detail to judge activity / progress and filled out correctly.)

Factor Weight: 2 **x Score** **Weighted Score:** 4

Anchor Points:

- 1 = Quarterly Summaries were timely
- 2 = Quarterly Summaries were timely and complete.
- 3 = Quarterly Summaries were timely, complete, and accurate.

Comments:

The PCRC's quarterly AKAIMS summaries were timely and complete.

4. Grantee used Logic Model to make program improvements? (An output is the work being done and the indicator is the evaluation of those outputs)

Factor Weight: 6 **x Score** **Weighted Score:** 12

Anchor Points:

- 1 = Grantee reported quarterly on their logic model.
- 2 = Grantee reported effort on logic model process (output accomplished or revision of the plan).
- 3 = Grantee reported progress on proposed or revised outcome indicators.

Comments:

The PCRC uses their Logic Model to make program improvements, and they have reported accomplishing some of their outputs and have suggested revisions to their plan, as necessary. The progress on their outcomes requires revision and additional data.

Comments:

Only three (3) pregnant women were admitted to the Pregnant Women's IOP during the 1st three quarters (7/1/12-3/31/13). During the 2nd quarter RRC began admitting patients who were not the grant's intended target population; these patients were later transferred into the appropriate component of service.

Anchor Points:

- 1 = 1 quarter’s reports were submitted accurate and complete.
 2 = 2 quarter’s reports were submitted accurate and complete.
 3 = 3 quarter’s reports were submitted accurate and complete.

Comments:

RRC submitted their Logic Model Reports quarterly, however they were not of good quality making it difficult to judge activities and determine progress. DBH provided technical assistance each quarter, however RRC staff did not fully utilize the TA to make the required improvements and Logic Model reports continued to be of poor quality. The 3rd Quarter (revised) reports demonstrated improvement.

3. Are the AKAIMS Quarterly Summaries timely, accurate and complete? (“Complete” means that all required data elements have been reported in sufficient detail to judge activity / progress and filled out correctly.)

Anchor Points:

- 1 = Grantee reported quarterly on their logic model.
- 2 = Grantee reported effort on logic model process (output accomplished or revision of the plan).
- 3 = Grantee reported progress on proposed or revised outcome indicators.

Comments:

The Logic Model was well developed and progress was reported during the first two quarters. The 3rd quarter Logic Model report does not accurately report progress on proposed outcomes indicators, due to changes in staff, resulting in a staff member completing the report prior to having received Logic Model Training. (This person will be attending Logic Model Training next month).

- 2 = Quarterly Summaries were timely and complete.
- 3 = Quarterly Summaries were timely, complete, and accurate.

Comments:

JYS is and EDI agency. Reports were complete and agency worked well to explore data related issues.

4. Grantee used Logic Model to make program improvements? (An output is the work being done and the indicator is the evaluation of those outputs)

Factor Weight: 6 **x Score** **Weighted Score:** 12

Anchor Points:

- 1 = Grantee reported quarterly on their logic model.
- 2 = Grantee reported effort on logic model process (output accomplished or revision of the plan).
- 3 = Grantee reported progress on proposed or revised outcome indicators.

Comments:

Data was reported, but it was difficult to ascertain whether progress was made. The agency did seem to improve in the area of family engagement and treatment of youth who have an FASD. Lack of pre / post data makes ascertaining progress difficult. Some measures did not clearly relate to the proposed outcome.
