

Division of Behavioral Health

Requirements for Program Staff

Program Staff

- Program Staff are professionals who render behavioral health services directly to a recipient.
- Required staff qualifications depend on the service category.
- Service Categories are
 - Clinic
 - Rehabilitation
 - Residential
 - Detoxification
 - Day Treatment

Staff Titles

There are four main program staff titles used throughout the regulations.

- Substance Use Disorder Counselor
- Behavioral Health Clinical Associate
- Mental Health Professional Clinician
- Directing Clinician

Behavioral Health Clinical Associate

- May have less than a master's degree in psychology, social work, counseling, or a related field with specialization or experience in providing rehabilitation services to recipients with severe behavioral health conditions.
- Responsibilities may include a provision of psychosocial evaluation, education related to a recipient's behavioral health condition, encouraging and coaching, counseling, and teaching of needed life skills.
- Works within the scope of their training, experience, and education.

Substance Use Disorder Counselor

- Is subject to the limits of their education, training, and experience. They may provide behavioral health rehabilitation services with a focus on the treatment of substance use disorders, while working for a community behavioral health services provider.

Psychologist or Psychological Associate	<ul style="list-style-type: none">○ have an active license to practice as a psychologist or psychological associate under AS 08.86; and○ are working in your field of expertise;

Directing Clinician

- A substance use disorder counselor or mental health professional clinician working within the scope of their education, training, and experience who, with respect to the recipient's *treatment plan*:
 - Develops or oversees the development of the plan
 - Periodically reviews and revises the plan as needed
 - Signs the plan each time a change is made to the plan
 - Monitors and supervises the delivery of all services identified in the plan
- By signing a treatment plan, a directing clinician attests that in their professional judgment the services prescribed in the plan are appropriate to the recipient's needs, delivered at an adequate skill level, and are achieving the treatment goals.

Directing Clinician

- Directing Clinicians are responsible for monitoring recipients care across all programs within an agency that are identified on a treatment plan.

Directing Clinician & Billing

- A recipient may have a Directing Clinician at each agency they receive services at.
 - Example- A recipient receives outpatient Substance Use treatment at agency A and psychotherapy at Agency B. Both Agency A&B may have directing clinicians. Collaboration between the two directing clinicians is highly beneficial to the recipient.

Directing Clinician & Billing

- A Directing Clinician may bill Medicaid for 1hr per week/per recipient of case management services for the monitoring by direct observation the delivery of services as those services are provided to the recipient.
- Directing Clinicians cannot directly observe themselves providing a service.
- Clinical supervisor may also act in the role of a directing clinician for the recipients on their respective case-load, they cannot mix roles of these two separate positions.
