

# Life Safety Code 2012

## The Dawn of a New Age

**Better Together** | Alaska Nursing Homes Together (ANHT) Conference

**Matthew L. Thomas RN, CFI, FF, FIT**  
Health & Life Safety Code Surveyor  
Health Facilities Licensing & Certification

**January 9-10, 2017**

# Top LSC Citations (Alaska Only)

1. K62 (K353)- Inspection, Maintenance and Testing of Sprinkler Systems
2. K29 (K321)- Protection of Hazardous Areas (Laundry, Trash, Mechanical...)
3. K147 (K511)- Accordance with NFPA 70 & NFPA 54 (Fuel Gas Code)
4. K22 (K293)- Exit signs are displayed and illuminated in accordance to 7.10
5. K38 (K261)- Exit egress & discharged are marked, clear, level & accessible
6. K43 (K221/222)- Special locking arrangements
7. K106 & 146 (K914/918)- Testing & Maintenance of Generator Set

■ K62 ■ K29 ■ K147 ■ K22 ■ K38

# Other Common Observations/Findings

- Improper Use of Power Strips / Extension Cords
- Insufficient and/or Absence of Documentation (Report: Corrections)
- Obstructed or Partially Impeded Exit Egress
- Emergency/Disaster Preparedness
- Staffing Roles & Responsibilities in the Absence of Director/Manager
- Medical Gas Storage
- Combustible Storage (AHJ to Determine)

# Changes is Citation Labeling

The adoption of NFPA 101 (2012) has resulted in the revamping of the citation numbering system and the total amount of citations.

Many citations have been separated into several smaller and more specific tags.

Non-Accurate Numbers: Example Only

# Forms/Documents/Resources

- CMS-2786R – Contains all K-Tags with Description (Google: CMS2786R)
- HFL&C Website - <http://dhss.alaska.gov/dhcs/pages/hflc/default.aspx>
- DHSS - HFL&C for assistance with LSC requirements
- Facility Profile Form – Provides basic LSC demographics (construction type)

# Facility Map

- All Fire/Smoke Walls & Barriers
- Exit Locations
- Exit Egress
- Smoke Compartments & Sizes
- Hazardous Rooms & Sizes
- Suite Areas & Sizes
