

## Alaska WIC Formula Composition, effective January, 2019

Contract Formula	CHO	Fat	Protein	Other characteristics	Indications
Similac Advance	43% of calories lactose, galacto- oligosaccharides	49% of calories Oleic, safflower, soy, coconut	8% calories Whey/casein	prebiotics	Contract milk based formula, suitable for most for term infants
Similac Soy Isomil	41.6% of calories Corn syrup solids	49.1% of calories High oleic safflower oil, coconut oil, soy oil	9.8% of calories soy protein	Lactose free, milk free	Contract soy based formula. Milk and lactose free. <b>Not recommended for premature infants with birth weights less than 1800 g</b>
Contract Medical Formulas					
Similac Sensitive Powder	43% of calories corn maltodextrin, sugar, galacto- oligosaccharides	49% of calories High oleic safflower, soy, and coconut oils	9% of calories, Milk protein isolate	Lactose reduced, prebiotics, nucleotides	Alternative to standard milk based formula- low calorie formulas not appropriate for preterm infants
Similac Total Comfort Powder	43% of calories Corn maltodextrin, sugar	49% of calories High oleic safflower, soy, and coconut oils	9% of calories Whey protein	100% whey protein, partially hydrolyzed	Alternative to standard milk based formula- low calorie formulas not appropriate for preterm infants
Similac for Spit up Powder	43% of calories Corn maltodextrin, sugar	49% of calories High oleic safflower, soy, and coconut oils	8% of calories Milk protein isolate	Added rice cereal	Marketed for mild spit up. Not appropriate for preterm infants
ENPR Therapeutic Formulas					
Alimentum	41% of calories Sucrose and modified tapioca starch	48% of calories Safflower, soy, 33% MCT	11% of calories Extensively hydrolyzed casein	Ready to feed form has no corn	severe food allergies, intact protein sensitivity, fat malabsorption
Nutramigen	41% of calories Corn syrup solids	48% of calories Palm olein, soy,	11% calories hydrolyzed	Amino acid based	cow milk protein allergy; suitable for gut impairment conditions

		coconut, sunflower	casein		
Neosure	40% of calories from Lactose corn syrup solids	49% of calories Soy, coconut, MCT	11% of protein Whey/Casein	Increased vitamins and minerals, higher calories	Post discharge feeding of preterm infants
Enfacare	42% of calories from Lactose and corn syrup solids	47% of calories Oleic sunflower/safflower, soy, coconut, MCT	11% of calories Whey/Casein	Increased Vitamins and minerals, higher in calories	Post discharge feeding of preterm infants
Elecare	42% of calories from Corn syrup solids	43% of calories Safflower, soy, MCT 33%	15% of calories	Amino acid based no lactose or fructose	severe food allergies, short bowel syndrome, GI impairment
Neocate	43% of calories from Corn syrup solids	46% of calories Canola oil, MCT 5%	11% of calories	Amino acid based no lactose or fructose	severe food allergies, short bowel syndrome, GI impairment
Child					
Neocate Jr	42% of calories from Corn syrup solids	45% of calories Coconut, canola, safflower	13% of calories	Amino acid based	severe food allergy to cow or soy milk, or multiple protein intolerances, short bowel syndrome, esophagitis
Pediasure	54% calories Sucrose, corn maltodextrose	34% of calories Oleic safflower, soy, MCT	12% of calories Milk and soy proteins	30 kcal/oz, prebiotics	For children over one year; formulated for oral feeding but can be tube fed
