SUBJECT: Food Package Updates

Food packages for formula name changes and newly developed 1 and 2 can powdered formula packages for infants have been added to the AKWIC system. You should be able to select the new food packages from the updated Food Package Viewer and from the drop down "Pkg No" box in AKWIC. Updates should be done in your AKWIC computer already.

Updated "cheat sheets" are attached.

## Package # MOV 1 and 2 Can Powdered Formula Packages

*These food packages are developed based on recommendations from the Alaska WIC Breastfeeding Committee to help provide the smallest amount of formula to a breastfed infant after a full breastfeeding assessment deems that formula is necessary. These packages will automatically generate through the first year of life and contain solids at the appropriate ages. Packages for one and two cans of formula listed in the tables below should be prescribed if a client will continue on a one or two can/month allowance for an indefinite period of time. The standard one can packages (for example Pick Up 5001, MOV 2023) should be prescribed if a mother is using this and will be adjusting her feeding method within the next month.*

**Formula Name Change**

Enfacare Lipil’s name changed to Enfacare; warrants now read Enfacare Lipil OR Enfacare.

**Other Changes**

- Full packages of Alimentum Ready to Use formula (Packages 9813, 9814 and 9815) have an increased number of warrants associated with these food packages due to client accessibility to available formula. This allows for clients to have more flexibility in picking up smaller amounts of the formula at more than one store.
- Warrant # 3234 with 2 cans of Alimentum Ready to Use is now available in AKWIC to help customize this food package easier.
- Enfamil Gentlease warrants now include the 12.4 oz. size.
- Food Package 6045 now shows up in the food package viewer with the correct description of a 4-5 month old IP package instead of a 1-3 month old IP package.
- As a reminder...
  - In lieu of infants foods (cereal, fruit and vegetables), infants greater than 6 months of age in Food Package III may receive exempt infant formula or WIC-eligible medical foods at the same maximum monthly allowance as infants ages 4 through 5 months of age of the same feeding option.

Please contact Dana Kent at 465-5322 if you have further questions.
