Routine (hard copy only) -  
Urgent (fax and hard copy)-

SUBJECT: **Enteral Nutrition Prescription Request (ENPR) Excel Spreadsheet Revisions and the Alaska WIC State Approved Non-Contract Formula List**

The ENPR Excel spreadsheet revisions and the Alaska WIC State Approved Non-Contract Formula List are completed and enclosed. The purpose is to streamline the ENPR submissions, revisions and approval processes and increase efficiencies at the local and state levels.

The ENPR Excel spreadsheet format looks the same. The ENPR efficiencies and revisions are:

1. Ability to submit more than one request per spreadsheet
2. Description or clarification boxes for all cells
3. Columns for first and last names for client and parent
4. One diagnosis minimum is required
5. AK code was deleted
6. Drop down box to select %wt/length or %wt/height is available

### **Alaska WIC State Approved Non-contract Formula List**

There are approximately 343 USDA WIC approved formulas. Approximately 20 to 25 formula types are often requested by Alaska medical providers for WIC clients needing them because of documented serious medical diagnoses.

The **Alaska WIC State Approved Non-Contract Formula List** includes the most frequently requested infant formulas, exempt infant formulas and medical foods, based on our ENPR database. Formulas listed were also cross checked for accuracy and updates with the USDA WIC Works Formula Database <http://peaches.nal.usda.gov/formula/infant.asp>, an excellent reference any time you need more information on USDA WIC approved formulas.
