Subject WIC Friday Update August 12

Hi Everyone,

Please join us in wishing Christy Eriksen at the Juneau Program Office a happy birthday tomorrow, August 13th. One thing you may not know about Christy is that she is a published poet.

I'm out of the office on Friday, so I'm sending the Friday Update today. Just one thing to share on YouSendIt.

Have a great weekend.

Kathleen

YouSendIt-- the Department of Health and Social Services, (DHSS) DHSS has instituted a platform for secure file transfer called "YouSendIt". YouSendIt enhances ongoing DHSS efforts through the Grantee Partnership Project, by providing a secure mechanism to submit DHSS grant reports. YouSendIt will expedite the delivery of reports that may have been typically mailed to DHSS and ensures confidentiality for those reports that were originally emailed through an unsecure method. The YouSendIt secure file transfer service is free and easy-to-use. DHSS has created the YouSendIt training video to assist our grantee partners utilize the YouSendIt encrypted software. You may access the video at <http://www.hss.state.ak.us/grantees/ysi.htm> by clicking on the slide show button on the bottom right of the presentation.

Please note to not put anything confidential in the email, only as an attachment.

Sending an email

Once your account has been established, you will receive a Yousendit link. Click on the link, sign in and create your email from the Yousendit site. An email will be sent to your recipient, but your confidential attachment will remain at the Yousendit sight. Your recipient will receive the email notice, and when they click on it, they will be directed to Yousendit. At that point they can open and save your attachment.

Edwell John Edwell.John@alaska.gov is the State trainer, should staff have specific information that cannot be easily explained at the Yousendit website.
