Hi Everyone,
Sorry, I forgot to send the update on Friday.

The robins have arrived in Juneau and it really looks like spring has sprung. I hope you can enjoy some spring-like weather this weekend.

1. Updated WIC Directory—see attached and thank-you to Christina for the update.
2. New printer deployment coming your way!—Please review to list below for the number of MICR printers being shipped to your clinics. We are not purchasing the portable printers at this time, so if you need more printers than what is listed below, please let Dana know asap.
3. Laptop Computers—As discussed in the LA Quarterly Teleconference on April 8, we have decided to only distribute WIC laptops to those LAs that currently use laptops. There are many factors involved with this decision, including the amount of IT staff-hours it would take to support all LAs using laptops with the current AKWIC system. IT staff availability is of course a big concern as we hope to start to transfer the SPIRIT system this fall. We will hold on to the laptops until the SPIRIT transfer is completed and then each LA will get a laptop. If you have questions or concerns, please call or email Dana.Kent@alaska.gov.

MICR printers currently being shipped to LAs:

- Barrow 1
- Eielson 1
- RCPC 4
- TCC 2
