
FW: Friday Update 10-25-13
IZ Flyer 10-21-2013.pdf; IZ Flyer 10-21-2013.pdf; PSDR 52218 7-19-13.pdf

Hello,

There are a few items for this Friday's update:

1. Disposal of Old WIC Computer Equipment:

The first step is to fill out the Property Salvage/Destruction Request form. Provide all the information on the property as requested on the form. Your agency needs 10 pieces of equipment minimally for Dell to do the recovery. If you have less than 10 pieces, the equipment will need to be shipped somewhere where Dell is doing a recovery already. Please let us know if you have less than 10 pieces so we can discuss the details.

Attached are two versions of the form. One is a sample and the other is for you to complete. Please send the completed form to Becky Carrillo and cc Dana Kent in case Becky is out of the office. You do not need to sign the form. Just fill in the applicable information. Attach a copy of this form to your inventory. Please let Becky or Dana know if you have any questions.

2. Congratulations to YKHC WIC for meeting all the Health People 2020 goals for breastfeeding initiation and duration. Khadija and her staff can be proud of themselves for having outstanding rates; during the SFY 13 they were the only agency that met all three HP 2020 goals for breastfeeding. What are you doing up there to have initiation at 83%, 6 month duration at 61% and 12 month duration at 57%? Inquiring minds want to know!

3. For FU: The Policy and Procedure manual has been updated on the website. If you have questions please direct them to Dana Kent at 465-5322 or Becky Carrillo at 465-8629. Emails: dana.kent@alaska.gov and Rebecca.carrillo@alaska.gov.

4. When sending items to Britten Burkhouse of Grants and Contracts, please use the following subject line format of: GRANT AWARD #, PROGRAM NAME & AGENCY NAME. Britten has over 60 grants to administer in 7 different programs and it would help keep her better organized if you can comply with her requested format. Thank you! (from Britten)

5. a. Participants have now been using the Food List / Participant ID Booklets for a year. Please reinforce that they must list the names of all participants in the household on their booklet, along with the names of anyone who will be shopping for them. The booklets must also be signed by anyone who will be signing their WIC checks. Since the new SPIRIT checks are printed with only the name of the person receiving the benefits, several stores have refused to accept WIC checks from participants who haven't signed their booklets, or where the name of an infant or child is on

the check, but not in the booklet. We're working on educating vendors about the changes, but participants need to have their complete booklets with them when they shop.

b. Price sheets were sent to all vendors on October 4 and are due on November 18. They must be submitted electronically, if the vendor has the capacity to do so, or mailed. We no longer accept faxed price sheets.

c. USDA's Western Regional Office (WRO) completed a management evaluation of our Vendor Management in May 2013. We have submitted revised procedures to USDA for several vendor functions, and will provide training to clinic staff on the items that affect you all after the changes are approved by WRO. There will be several adjustments to the routine monitoring review procedures and forms.

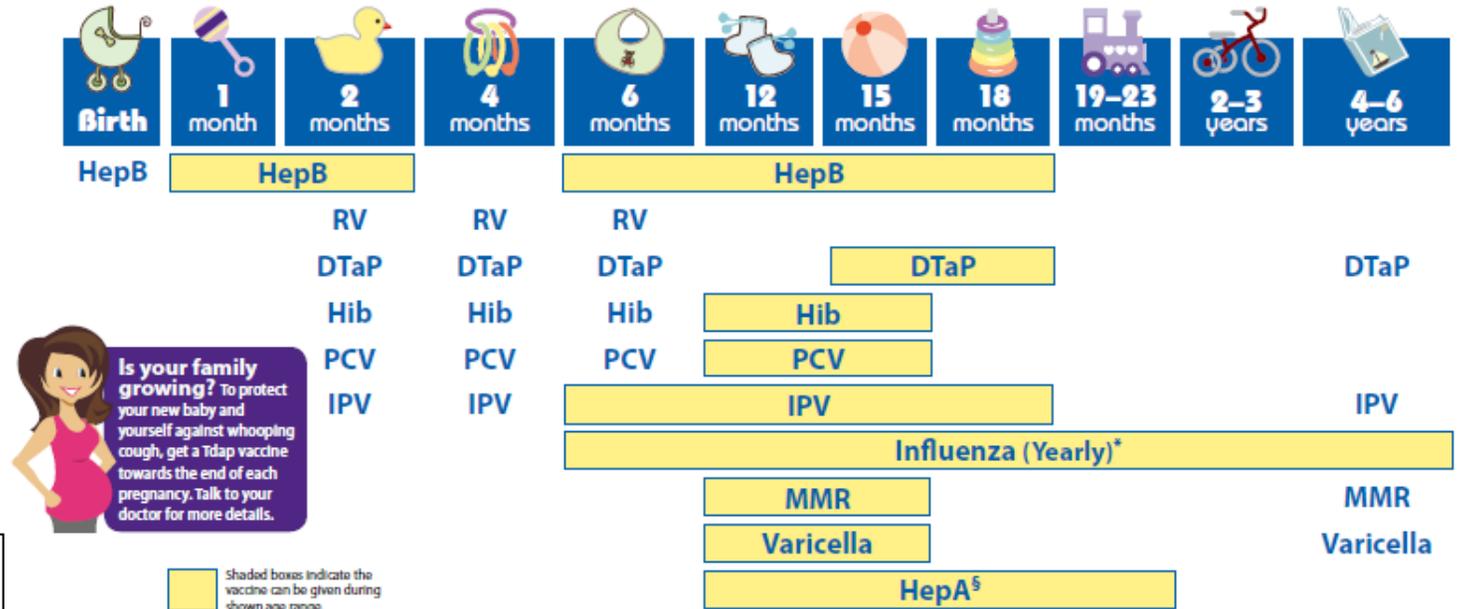

Have HavbHhave
Have a great weekend!

Becky

Alaska WIC Program

2013 Recommended Immunizations for Children from Birth Through 6 Years Old

As you admire the colors of fall and store your garden produce ready for the winter, remember too, that it is time for flu shots and to make sure that your child's immunizations are current!

The table to the right shows you which immunization is due for your child's age.

NOTE: If your child misses a shot, you don't need to start over, just go back to your child's doctor for the next shot. Talk with your child's doctor if you have questions about vaccines.

FOOTNOTES:

- * Two doses given at least four weeks apart are recommended for children aged 6 months through 8 years of age who are getting a flu vaccine for the first time and for some other children in this age group.
- § Two doses of HepA vaccine are needed for lasting protection. The first dose of HepA vaccine should be given between 12 months and 23 months of age. The second dose should be given 6 to 18 months later. HepA vaccination may be given to any child 12 months and older to protect against HepA. Children and adolescents who did not receive the HepA vaccine and are at high-risk, should be vaccinated against HepA.

If your child has any Medical Conditions that put him at risk for infection or is traveling outside the United States, talk to your child's doctor about additional vaccines that he may need.
