Subject: WIC Update January 8 2016
Date: Tuesday, January 12, 2016 2:35:43 PM

Hi Everyone,
Sorry, this is last Friday's WIC Update.
Kathleen

This week's [Success Story](#) is from Norton Sound Health Corporation:

We had a teen mother, who was also a Healthy Start client, that was very interested in breastfeeding. Unfortunately, she was not getting support at home from her family, especially her mother who was encouraging our client to formula feed. The WIC RD and the Healthy Start Educator/CPA were able to provide enough encouragement and education to the client for her to successfully breastfeed her baby at birth. Baby turns 3 month old on 10/23/15 and momma is still breastfeeding despite the lack of familial support and all of the other hurdles a teen mom faces. We are so very proud of her and continue to encourage and support her anyway that we can.

February Monthly Coordinator's teleconference: We'll resume our monthly teleconferences on February 4. At that time, we'll have training on the new updated ENPR and the formula changes coming to WIC. There will be no changes before there is training. I will also be doing pediatric grand rounds in Anchorage with Pam Phillimore to introduce doctors to the new ENPR. Please contact Jennifer Johnson with questions and suggestions 465-8104
