

The 2017 Alaska YRBS shows the health risks and strengths of Alaska high school students.

In an average classroom of 30 traditional high school students:

Risks

24 do not get 60 minutes of daily physical activity

10 think there is no risk of harm in using marijuana 1-2 times/week

7 are bullied on school property

7 have seriously considered suicide

Protective Factors

25 do not text or email while driving

20 have never tried smoking cigarettes

19 have never had sexual intercourse

18 agree that their teachers care about and encourage them
