To be a Safety Drummer
You'll need your family
To help you choose the safest way
I know they'll all agree

We're Alaska's Safety Drummers
Safe actions are a must
Read along and learn our song
Then drum along with us

To be a Safety Drummer
You'll need your family
To help you choose the safest way
I know they'll all agree
Things too hot can burn or scald
Testing is the key
Ask a grownup what to do
When from fire you must flee

Safety Drummers never play with matches.

Safety Drummers ask for help testing the water for a shower or bath.

Safety Drummers make a family plan to crawl out of their house if the smoke alarm makes a loud sound.
Color your own fire safety drum and tap out this part of the song.
Alaska’s Safety Drummers
Know the ocean, rivers, ponds
Wearing coats that float they fish and ride
For water, they grow fond

Safety Drummers always wear float coats or life jackets.

Safety Drummers always make sure a grown-up is near.
Color your own water safety drum and tap and sing this part of the song.
ATV’s, bikes and snowmachines can be harmful if you ride without the proper helmet or with someone riding on behind.

Safety Drummers always wear a helmet.
Color your own riding safety drum design and tap and sing this part of the song.
Safety Drummers call for help whenever they might see drugs or guns or things that cut. Smoke or fumes they never breathe.

Safety Drummers only take the medicine that their parents give them.

Safety Drummers know that even breathing a little smoke or fumes can hurt them. They crawl low under smoke.

Safety Drummers never touch firearms!
Color your own protection safety drum and tap and sing this part of the song.
Ask a grownup to help you take this safety test.
1. Before you take a bath or shower, what should a grownup help you do?
2. What should you do if you find a book of matches?
3. What should you do if you hear your smoke alarm?
4. What should you wear when you are in a boat or near water?
5. What should you wear when you ride a bike and ATV or snowmachine?
6. What should you do if something you want is out of reach?
7. What should you do if you find a sharp knife?
8. What should you do if you see a gun or rifle?
9. What should you do if someone tells you to smell gasoline or chemical fumes?
10. What should you do if you find medicine?
