

EMSC

Alaska Emergency Medical
Services for Children

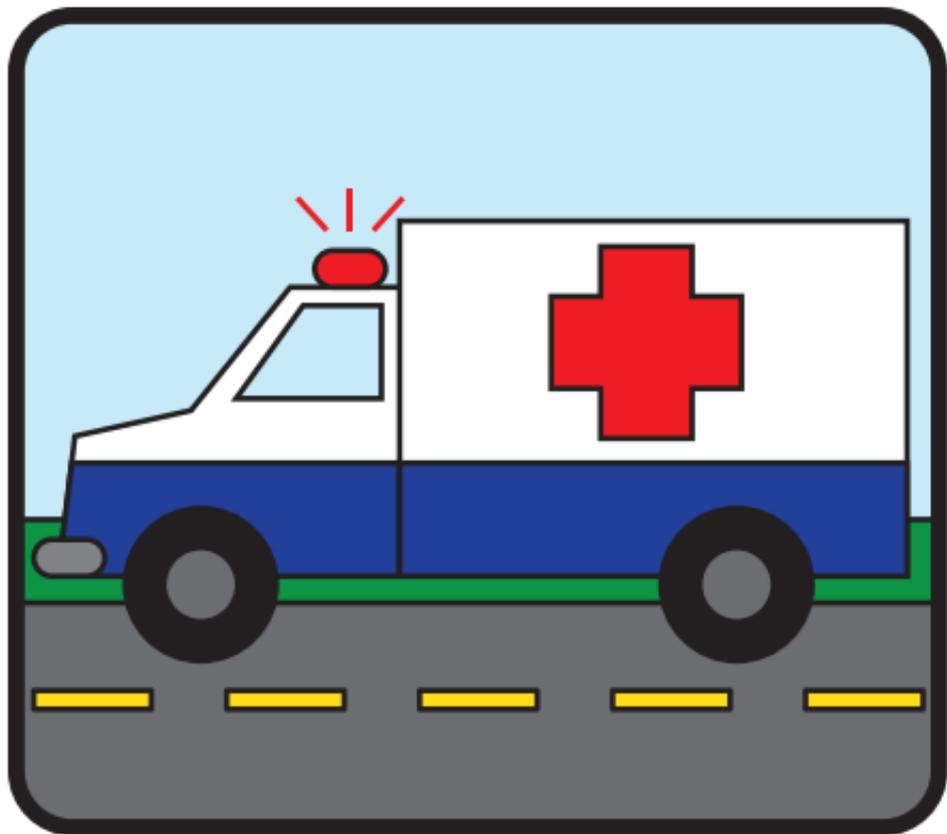

This resource is a communication tool for pre-hospital emergency care providers and their patients (designed with young children, non-verbal children and children with special needs in mind).

This document was created by Nye and Associates Smarter Marketing for Kansas Emergency Medical Services for Children (EMSC), Kansas Department of Health and Environment and permissions were granted to Alaska EMSC to reproduce and distribute.

A HUGE thank you to Minnesota EMSC, where this tool concept originated and permission for concept use was granted by Kjelsey Polzin, program Manager/ Coordinator.

Funded by a grant from the Health Resources and Services Administration (HRSA) Maternal and Child Health Bureau H33MC06688 this publication was produced by the Alaska Department of Health and Social Services. It was printed at a cost of \$3 per copy in Juneau, Alaska. This cost block is required by AS 44.99.210
