

COVID-19 in Alaska

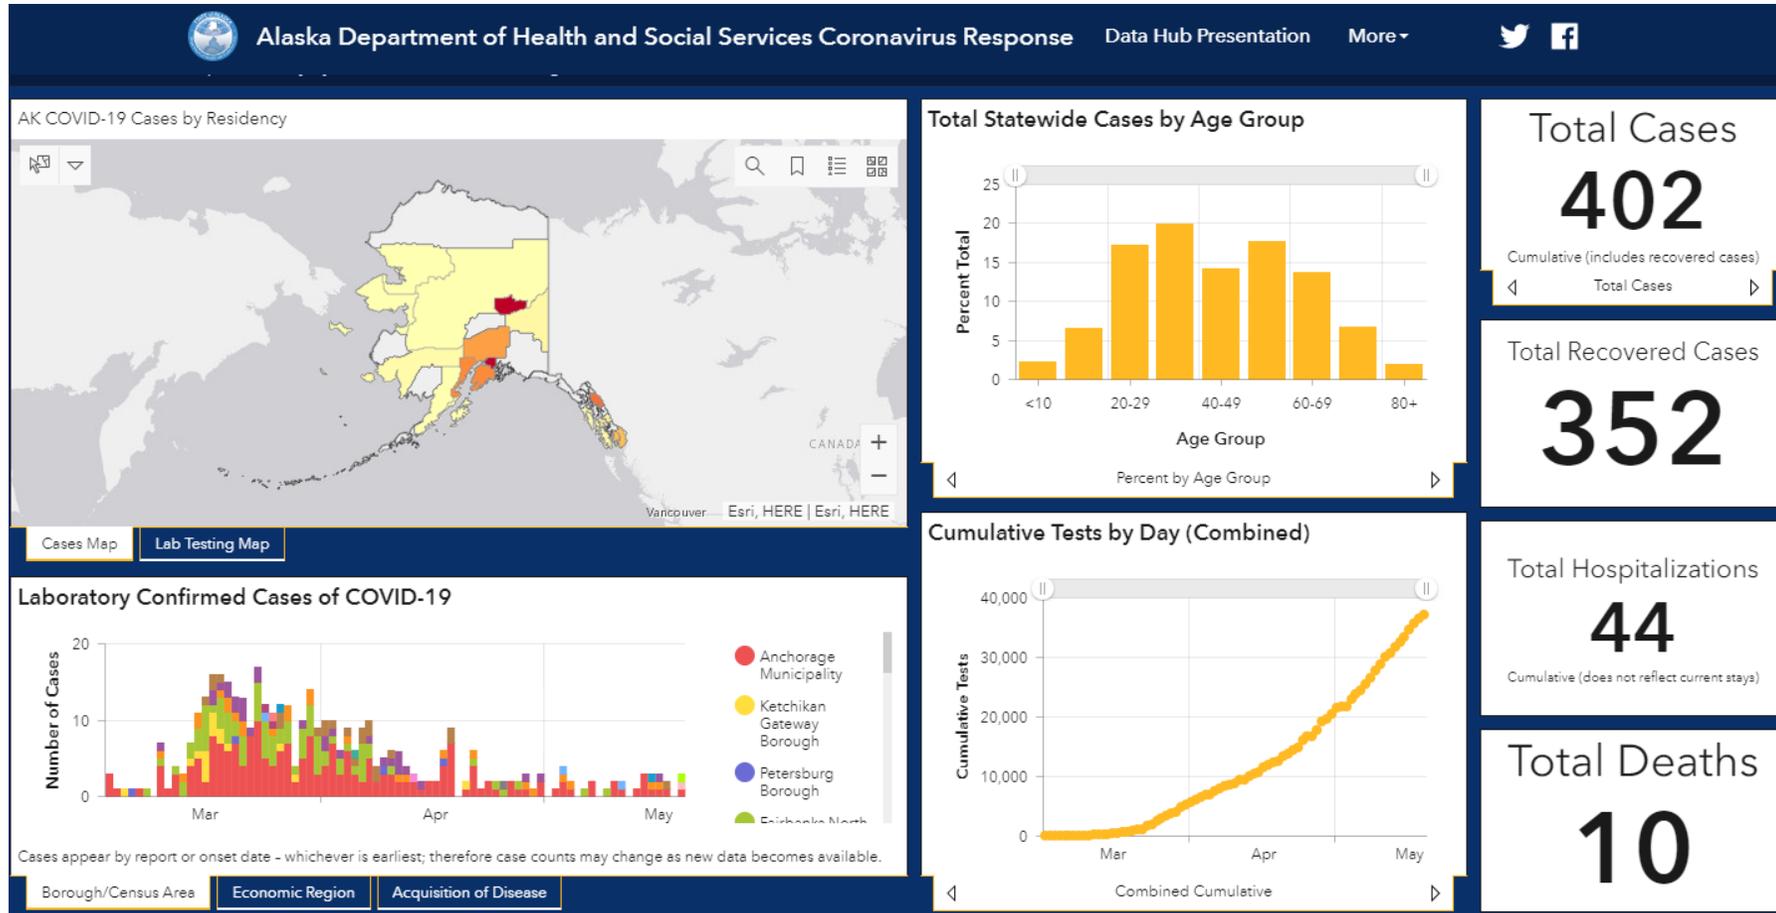

DHSS Updates and Metrics

Dr. Anne Zink, Alaska's Chief Medical Officer

May 18, 2020

Updates on the COVID-19 Dashboard: 5/20/20

- 3 new cases reported 5/19/2020 (402 total)
- 4 additional recovered case (352 total)
- No new additional deaths
- 1 new hospitalization
- 37,045 cumulative tests
- 1.1 % of tests were positive

Information on today's cases: 5/20/20

- 3 new cases reported 5/19/2020 (402 total)
- Anchorage (1):The Anchorage case is an inmate at the Anchorage Correctional Center, which was announced by the Alaska Department of Corrections yesterday.
- Northwest Arctic Borough (1):The Maniiliq Association also announced yesterday in a press release that the case in the Northwest Arctic Borough was an individual who tested positive in Kotzebue
- Combined Bristol Bay and Lake & Peninsula boroughs (1): Testing is occurring in the affected community.
- Two nonresident cases were identified yesterday in seafood workers in Anchorage. They were identified through testing during their quarantine period and both are now in isolation. They are listed separately from the total Alaska case count since they are not residents of Alaska. This brings the total nonresident cases to 12, seven of which are in the seafood industry.
- Of the new Alaska cases, two are male and one is female. One is aged 30-39 and two are aged 70-79.
- There have been a total of 44 hospitalizations and 10 deaths with one new hospitalization and no new deaths reported yesterday.
- Recovered cases now total 352, including four new recovered cases recorded yesterday. A total of 37,045 tests have been conducted.

EPIDEMIOLOGY – DISEASE ACTIVITY
