WORKSHOP OBJECTIVES

- ▶ Review principles of immunization to prevent disease.
 - ▶ Describe current ACIP immunization recommendations.
 - ▶ Implement CDC evidence-based standards for administering immunizations to prevent disease.
 - ▶ Use CDC best practices for vaccine inventory control and storage and handling.
 - ▶ Apply three tools in VacTrAK, Alaska's Immunization Information System, to improve patient protection from vaccine-preventable disease and manage vaccine supply.
 - ▶ Classify patient eligibility for public and private supplies of vaccine.
- 

MISSION OF THE IMMUNIZATION PROGRAM

- ▶ The mission of the Immunization Program is to prevent and control vaccine preventable disease in Alaska by:
 - ▶ Providing vaccines to health care providers at no charge;
 - ▶ Providing an immunization information system for use by health care providers and schools to maintain consolidated immunization records for Alaskans of all ages;
 - ▶ Ensuring school and childcare compliance with immunization regulations;
 - ▶ Providing immunization education and training for health care providers and the general public;
 - ▶ Coordinating surveillance and control efforts for vaccine preventable diseases; and,
 - ▶ Supporting efforts to increase vaccinations for all Alaskans
