

Vaccine Eligibility for Adults 19+ Years of Age

Providers are required to screen patients for vaccine eligibility at each immunization visit to ensure accountability. Complete vaccine administration and eligibility data must be reported in VacTrAK within **14 days** per Alaska Administrative Code 7 AAC 27.650(a). If private vaccine stock is used, the correct eligibility category is always "Ineligible (V01)"; no further screening is required. Adults are eligible to receive select state-supplied vaccines (**Table 1**) with the below eligibility criteria (**Table 2**).

Table 1. Select state-supplied vaccines for adults 19+ years of age

Adult Vaccines	Brand Name®	Age Criteria (in years)
9vHPV (Human papillomavirus)	Gardasil 9	Females 19 through 26, males 19 through 21, high risk* males 22 through 26
Influenza	Varies each season	19+
MCV4 (Meningococcal conjugate) [†]	Menactra	19 through 20
MenB (Serogroup B Meningococcal) [‡]	Bexsero	19 through 20
PPSV23 (Pneumococcal polysaccharide)	Pneumovax 23	19+
Td (Tetanus/ Diphtheria)	Tenivac	19+
Tdap (Tetanus/ Diphtheria/ acellular Pertussis)	BOOSTRIX	19+
Zoster (shingles)	Shingrix	50 through 64

The following payers **are not** participating:

1. Medicaid
2. Medicare
3. Insurance that does not cover vaccines

*High risk males include either men who have sex with men (MSM) or who have an immunocompromising condition.

[†]Limited availability for high risk groups, which include those with HIV infection, persistent complement component deficiencies, anatomic or functional asplenia, microbiologist routinely exposed to isolates of *Neisseria meningitidis*, and populations at risk because of a vaccine serogroup outbreak.

[‡]Limited availability for high risk groups, which include those with persistent complement component deficiencies, anatomic or functional asplenia, microbiologist routinely exposed to isolates of *Neisseria meningitidis*, and populations at risk because of a vaccine serogroup outbreak.

Table 2. Adult eligibility categories and billing information

VacTrAK Eligibility Category	Adult Insurance Status	Insurance or Provider Status with AVAP	HL7 Eligibility Mapping Code	HL7 Funding Source Code	Administration Fee Bill To	Vaccine Administration Fee Cap	Vaccine Cost Bill To
State Vaccine*	Insured[†]	Private insurance is participating in AVAP	V07	VXC 50 Public or VXC 52 Public Non-VFC	Insurance	Determined by insurance	Do <u>not</u> bill (State-supplied)
	Uninsured	Health care provider opts in for their uninsured adult population			Patient	Determined by provider	Do <u>not</u> bill (State-supplied)
Ineligible (Private Vaccine)	Uninsured	Health care provider does NOT opt in for their uninsured adult population	V01	PHC 70 Private	Patient	Determined by provider	Determined by provider
	Non-participating Payer (Medicaid or Medicare)	Not eligible for AVAP			Medicare or Medicaid	Determined by Medicare or Medicaid	Determined by Medicare or Medicaid

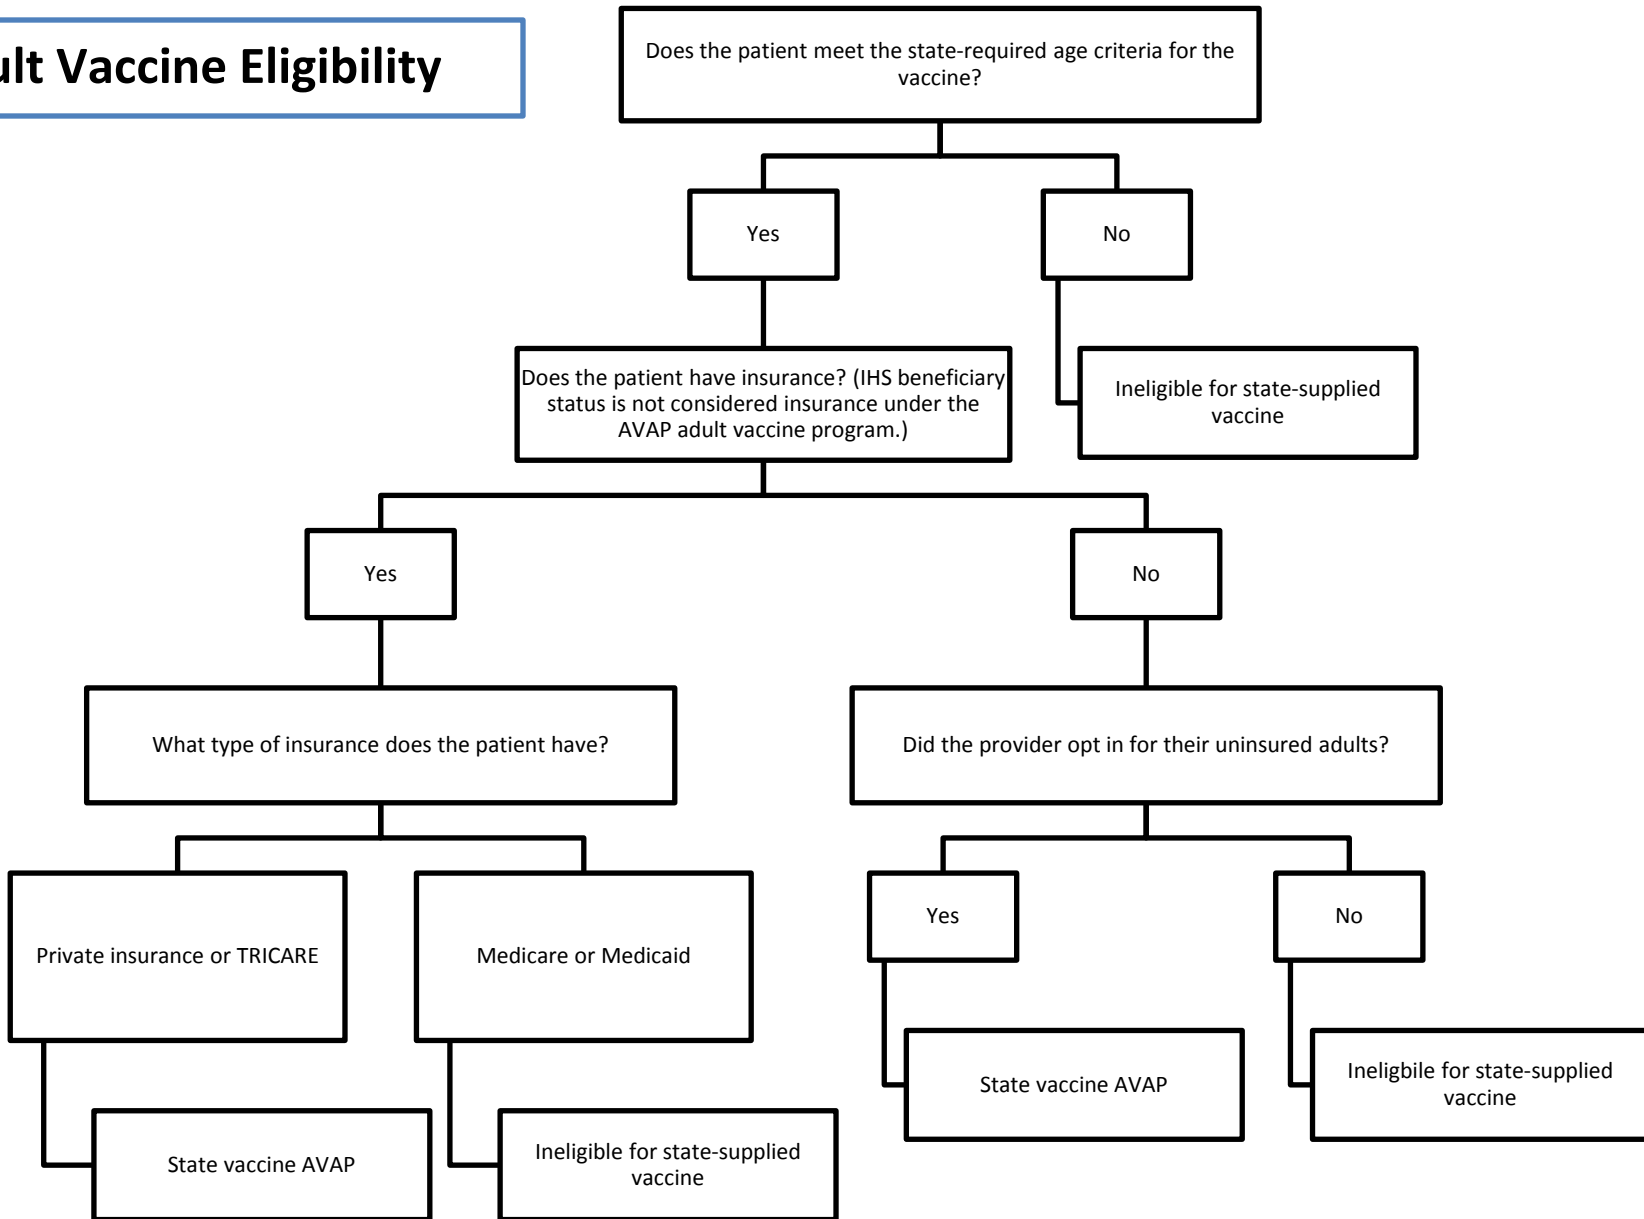

*May appear as "state specific" or "local specific" eligibility in Electronic Health Records (EHR).

[†]IHS beneficiary status is not considered insurance under the AVAP adult vaccine program.
