Vaccinations View/Add Screen

The Vaccination View/Add screen allows you to document and view a patient's vaccination record. This Quick Reference Guide will walk you through the vaccine documentation process while explaining some additional features.

NOTE: Depending on your user access and permissions, you may not see or use all of the features described in this guide.

2. After selecting the patient, the system will automatically take you to the Patient Demographic page.
3. Using the navigation menu, click on the Vaccinations menu heading.
4. Click View/Add.
5. The Vaccination View/Add screen will appear (Diagram 1).

Diagram 1: Vaccination View/Add Screen

Add Administered Vaccinations

Administered Vaccines are all vaccinations administered within your clinic system (IRMS), regardless of the date. These vaccinations may only be modified, changed or deleted by staff within your clinic system.

1. On the Vaccination View/Add screen, enter the date the vaccine was given in the field next to the appropriate vaccine name/code.
2. Once all Administered Vaccination dates are entered, click Add Administered.
3. The Vaccination Detail Add screen will appear (Diagram 2).
4. If the lot numbers have been pre-loaded into VacTrAK, you may select the lot number, manufacturer, and lot facility by clicking on “Click to select.” Select the correct lot number by clicking on the arrow next to the appropriate lot.
5. If the vaccinator’s name has been pre-loaded into VacTrAK, you may enter his/her name by clicking on the dropdown box and selecting the appropriate name.
6. Enter the facility and anatomical site by clicking on the dropdown box and selecting the appropriate site name.
7. Enter the VIS publication date into the date field.
   NOTE: See the Personal Settings Quick Reference guide for steps on how to set the default vaccinator, facility, anatomical site, and VIS publication dates.
8. After all the details have been entered and verified, click Save at the bottom of the page. The system will go back to the Vaccination View/Add screen.

Add Historical Vaccinations

Historical Vaccines are vaccinations administered by other providers outside your clinic system (IRMS). Historical vaccines include vaccinations given out of state and country. All users with edit access to VacTrAK may modify, change or delete vaccinations marked as historical.

1. From the Vaccination View/Add Screen, enter the date the vaccine was given in the field next to the appropriate vaccine name/code.
2. After all of the historical dates have been entered, click Add Historicals.
3. The system will add the historical data and take you back to the Vaccination View/Add screen.

Helpful Tips

- Quickly Enter Vaccination Dates
  To automatically enter the default date (today’s date), double click in the date field. To change the default date, enter the date you want in the default date box on the top of Vaccination Date Grid (as circled in Diagram 1).

- Quickly View Vaccination Information
  To view additional vaccination information click on the vaccination date to go to the Vaccination Detail screen (see Diagram 3 on reverse).

- Enter Multiple Immunizations at One Time
  o Enter all of the dates for all of the administered vaccinations before clicking Add Administered.
  o Enter all of the dates for all historical records before clicking Add Historicals.
**Vaccination Detail**

The **Vaccination Detail** screen allows you to view the vaccine’s lot number, vaccinator’s name, facility where the vaccine was given, anatomical site and route, any reported adverse reaction, and the VIS publication date. You may also edit and/or delete a vaccination record via this screen (see next column for detailed instructions).

**Diagram 3: Vaccination Detail Screen**

1. **Add Adverse Reaction**

VacTrAK allows you to record an adverse reaction to a given vaccination with the **Add Adverse Reaction** button located on the **Vaccination Detail** screen.

1. From the **Vaccination View/Add** screen, click on the date of the vaccination for which an adverse reaction occurred.
2. From the **Vaccination Detail** screen, click the **Add Adverse Reaction** button (Diagram 3).
3. Select the adverse reaction from the list by clicking in the check box next to the appropriate adverse reaction.
4. Click the **Save** button to save your changes.
5. Click the **Back** button to return to the **Vaccination Detail** screen.

**Edit/Delete Vaccination Information**

- Administered vaccinations can only be edited or deleted by user within the IRMS that originally entered the vaccine record.
- Historical vaccinations may be edited or deleted by any user with edit privileges in VacTrAK.

**Steps to Edit Record:**

1. Click on the date of the vaccination you want to edit.
2. Click the **Edit Record** button (Diagram 3).
3. Make the appropriate changes in the fields and click **Submit Changes**.

**NOTE:** To edit the **Vaccination Code** or **Vaccination Date**, you must delete the vaccination and then re-enter it. (According to steps below.)

**Steps to Delete Record:**

1. Click on the date of the vaccination you want to delete.
2. Click the **Delete Record** button (Diagram 3).
3. Enter Deleting Facility.
4. Click **Delete Record**. The system will return to **Vaccination View/Add** screen.

**Contraindications, Exemptions, and Precautions**

In VacTrAK you can add a contraindication, exemptions, or precautions for a particular vaccine. Use this function to indicate if the patient has a history of chickenpox, or to document refusal to vaccinate for medical or religious reasons. A notification will appear in red at the top of the **Vaccination View/Add** screen for all patients who have a documented contraindication.

1. To view contraindications, exemptions or precautions expand the appropriate heading below the **Vaccination Date Grid** on the **Vaccination View/Add** screen.
2. To add the contraindications click on **Clinical Notes** button below the **Vaccination Date Grid** on the **Vaccination View/Add** screen.
3. Select the facility name from the **Facility Where Documented** dropdown menu.
4. Select the appropriate vaccine code from the **Vaccine** dropdown menu.
5. Click the **Add Clinical Notes** button.
6. Once all of the contraindications are entered, return to the **Vaccination View/Add** page by clicking **View/Add** under the **Vaccinations** menu heading on the navigation menu on the left-hand side.

**NOTE:** Only the users of the IRMS that entered the contraindication may delete that contraindication.

**Deferrals**

The deferral button may be used for vaccine shortages and other situations when deferring a vaccination is necessary.

1. From the **Vaccination View/Add** screen, click on the **Deferrals** button.
2. Select the appropriate vaccine code from the **Vaccine** dropdown menu.
3. Type in the deferred **Dose Number**.
4. Select the facility name from the **Facility Where Documented** dropdown menu.
5. Click the **Save** button.
