

## What's New in VacTrAK as of 10/23/15

VacTrAK implemented forecast updates on October 23, 2015 as follows:

**Pneumococcal Forecast (PPSV23 and PCV13) for adults  $\geq 65$  years** now follows ACIP recommendations for adults. ([MMWR September 4, 2015](#)) All adults age  $\geq 65$  years who have not previously received pneumococcal vaccine are recommended for one dose of PCV13 followed by a dose of PPSV23  $\geq 1$  year later.

**Influenza Forecast for children age 6 months to 8 years** now follows ACIP recommendations for 2 doses of influenza vaccine (administered  $\geq 4$  weeks apart) during the first season of vaccination to optimize response. ([MMWR August 7, 2015](#))
