

If there is a suspect Ebola case at your facility, please contact the State of Alaska Epidemiology at 907-269-8000 for investigation and determination of testing.

All diagnostic specimens should be shipped the State of Alaska Public Health Laboratory at Category B level at this time. For Category B shipping see diagram below. Please do not label the box with Ebola, as this may cause unnecessary rejection by the carrier.

If you have questions about Ebola testing, please contact the State of Alaska Public Health Laboratory at 907-334-2100 for assistance, please request to speak to the Special Pathogens Microbiologists.
