

## FFY 2018 State Performance Plan/Annual Performance Report (SPP/APR) Public Reporting

### How quickly will your child get into services?

Indicator 7: 45-Day Timeline

Early intervention services are designed to enroll qualifying children within 45 days from the day you or your provider first contacts the agency. The statewide goal is to enroll 100% of all qualified children within 45 days from the initial referral. Here are the monitoring results for the EI/ILP program in your area this past year:

Indicator 7 45 Day Timeline FFY 2018 (July 2018 June 2019)		
Agency	Community	Percent Compliance
Alaska Center for Children and Adults	Fairbanks / Barrow / Copper River	100%
Bristol Bay Area Health Corporation	Dillingham	100%
Center for Community	Sitka	100%
Community Connections	Ketchikan	100%
Family Outreach Center for Understanding Special Needs	Eagle River / Chugiak / Cordova	100%
Frontier Community Services	Kenai / Soldotna	100%
Homer Community Services	Homer	100%
Kodiak Area Native Association	Kodiak	100%
Mat-Su Services for Children and Adults	Palmer / Wasilla	100%
Northwest Arctic Borough School District	Kotzebue	100%
Norton Sound Health Corporation	Nome	100%
Programs for Infants & Children	Anchorage	100%
REACH Inc.	Juneau / Haines	100%
SeaView Community Services	Seward	100%
Tanana Chiefs Conference	Interior Alaska	100%
Yukon Kuskokwim Health Corporation	Bethel	96.4%

*NaN (no available number) - used for agencies with no new enrollments. Source: Alaska Part C Data System.*

The Alaska Part C system identified compliance in FFY 2004-2007 through cyclical on-site monitoring. For FFY 2008 and beyond, Alaska Part C reports on findings identified through analysis of annual census data collected by its Part C database. Alaska Part C statewide annual progress is noted here:

Indicator 7 45 Day Timeline Statewide Progress Table													
Measurable and Rigorous Target	Baseline FFY04 (2004-2005)	FFY07 (2007-2008)	FFY08 (2008-2009)	FFY09 (2009-2010)	FFY10 (2010-2011)	FFY11 (2011-2012)	FFY12 (2012-2013)	FFY13 (2013-2014)	FFY14 (2014-2015)	FFY15 (2015-2016)	FFY16 (2016-2017)	FFY17 (2017 - 2018)	FFY18 (2018 - 2019)

## How well are Early Intervention/Infant Learning Program (EI/ILP) agencies doing at starting services on time and providing services as planned?

### Indicator 1: Timely Service Provision

Early intervention services include developmental screening and evaluation of your child to determine if your child qualifies for the program. An Individual Family Service's Plan (IFSP) is developed by an early childhood developmental team, which includes you and your family. Once this plan is completed, services can start for you and your child. The statewide goal is to provide each IFSP service by the planned start date for 100% of all IFSP services. Here are the monitoring results for the EI/ILP program in your area this past year:

Indicator 1 Timely Service Provision FFY 2016 (July 2016 - June 2017)		
Agency	Community	Percent Compliance
Alaska Center for Children and Adults	Fairbanks / Barrow / Copper River	99.2%
Bristol Bay Area Health Corporation	Dillingham	90.3%
Center for Community	Sitka	100%
Community Connections	Ketchikan	100%

Source: Alaska's 619 Child Count Data reported to OSEP (as of December 1st each year). <http://www.ideadata.org>

## Where do Early Intervention/Infant Learning Program (EI/ILP) services take place?

### Indicator 2: Natural Environments

EI/ILP provides services in inclusive settings and natural environments. Federal Law (Individuals with Disabilities Education Act) "states that services must be provided in a location where infants and toddlers of the same age without disabilities would typically be found. This could be in the home, a childcare center, a family childcare location, Early Head Start, a story hour, or other community-based program" (National Early Childhood Technical Assistance Center, Family Corner Definitions Page, 2007).

Our statewide goal is to serve 95% of our enrolled children in the natural environment. This allows flexibility for the IFSP team to choose locations other than the natural environment when a child's needs require another setting. Here are the monitoring results for the EI/ILP program in your area this past year:

Indicator 2 Natural Environments FFY 2016 (July 2016 June 2017)		
Agency	Community	Percent Compliance
Alaska Center for Children and Adults	Fairbanks / Barrow / Copper River	100%
Bristol Bay Area Health Corporation	Dillingham	100%
Center for Community	Sitka	100%
Community Connections	Ketchikan	100%

## How are children doing as the result of early intervention service?

### Indicator 3: Child Outcomes

Alaska Part C programs are working to ensure that all enrolled children have the best possible chance of succeeding in future years. Children who have achieved the following outcomes at a level comparable to their same age peers have a higher probability of being successful in kindergarten and later school years. The three outcome areas include developing positive social relationships (Emotional), acquiring new skills (Knowledge), and learning to get needs met (Action).

**Indicator 3 Statewide Child Outcome Summary Statements for Part C Children**  
 FFY18: 7/1/2018 - 6/30/2019

<b>Summary Statement 1</b> Of those children who entered the program below age expectations in the Outcome Area, the percent who substantially increased their rate of growth by the time they exited the program.	<b>Emotional</b>	<b>Knowledge</b>	<b>Action</b>
Target	65.2%	79%	75%
Actual	50.00%	56.02%	55.60%

**How are families doing as the result of early intervention service?**

**Indicator 4: Family Outcomes**

Families enrolled during the 2018 calendar year with children eligible for Part C and enrolled for at least 6 months comprised the eligible population for the 2019 Family Outcomes Survey (N = 707). The survey utilized a randomly selected 20% target group of families, stratified geographically by EI/ILP grantee service area and by race of children.

It was comprised of 142 families with 147 children. Survey packets were mailed to target families, inviting them to complete the survey by mail, online, or over the phone. Follow-up was conducted with phone calls and postcard reminders.

There were 73 completed surveys rendering a 51.4% response rate. Characteristics of children in responding families were fairly similar to those in both the target group (stratified random selection) and the total eligible population.

Early intervention is a family centered program. Your family needs are very important to the planning process. Each EI/ILP agency will assist you in assessing and meeting your needs related to the care and development of your child. Alaska Part C uses an annual Family Outcomes Survey to see if EI/ILP programs are helping you in meeting these needs. The following information was reported by families in Alaska who received EI/ILP services between January 1 and December 31, 2016, and relates specifically to how early intervention services have helped them: A. Know their rights; B. Effectively communicate their children's needs; and C. Help their children develop and learn. This survey was approved for slight modification last year. The full survey report can be found at: <http://dhss.alaska.gov/dsds/Documents/InfantLearning/pdf/2016-FOS.pdf>

- A. Know their rights:** 91.78% of families responded that Alaska's early intervention services helped their family know their rights (indicated by a rating of 3 or higher). Alaska's FFY18 goal is 100% for this indicator.

Percent of Families Reporting Early Intervention Has Done an Excellent Job Helping Them Know Their Rights Statewide Progress Table										
FFY08	FFY09	FFY10	FFY11	FFY12	FFY13	FFY14	FFY15	FFY16	FFY17	FFY18
88.7%	90.80%	91.80%	75.30%	95.35%	92.59%	94.44%	94.03%	89.86%	91.57%	91.78%

- B. Communicate child's needs:** 90.41% of families responded that Early Intervention has done an excellent job helping them effectively communicate their child's needs most to all of the time. Alaska's FFY18 goal is 98.00% for this indicator.

Percent of Families Reporting Early Intervention has Done an Excellent Job Helping Them Effectively Communicate Their Child's Needs Statewide Progress Table										
FFY08	FFY09	FFY10	FFY11	FFY12	FFY13	FFY14	FFY15	FFY16	FFY17	FFY18
88.7%	90.80%	91.80%	78.80%	96.51%	95.00%	98.61%	92.54%	94.20%	92.77%	90.41%

- C. Help child develop and learn:** 90.41% of families report Early Intervention services have helped them to help their children develop and learn. Alaska's FFY18 goal is 96.25% for this indicator.

Percent of Families Reporting Early Intervention Has Done an Excellent Job Helping Them Learn How to Help Their Child Develop and Learn Statewide Progress Table										
FFY08	FFY09	FFY10	FFY11	FFY12	FFY13	FFY14	FFY15	FFY16	FFY17	FFY18
88.7%	92.30%	93.10%	82.40%	94.19%	96.20%	97.18%	92.54%	95.65%	95.18%	90.41%

Due to small numbers of respondents in some communities, the smaller agency data is combined into larger regions to ensure confidentiality. The following table shows the percent of families that stated ILP did an excellent job most or all of the time helping them: know their rights; effectively communicate their children's needs; and help their child learn and develop.

The number of responses in the following table varies by grantee agency and by region because the size of the service population varies proportionately. The target group was stratified by ILP service areas to be more representative of the statewide service population. The key words used to refer to each of the three satisfaction items in subsequent tables are capped and bolded:

- Our ILP provider has done an excellent job...
- helping us know our **RIGHTS**.
  - helping us effectively communicate our child's **NEEDS**.
  - helping us help our child develop and **LEARN**.

Mean satisfaction responses by EI/ILP region (Scale 1-4)					
EI/ILP Region	Grantees	RIGHTS	NEED	LEARN	n
Northern	ACC, NWA, NSH, TCC	87	87	87	15
Anchorage	PIC, FOC	93	93	97	29
Southcentral	BBA, KAN, MSU, YKH	93	86	79	14
Southeast	CFC, CCK, FCS, REA, SFS, SVC	93	93	93	15
Statewide		92	90	90	73

Note: All reported means are rounded up. An overall item mean is figured on the total number of responses, thus it may not equal an average of the other rounded means reported in the table.

### What percent of Alaska infants and toddlers (birth to one and under three years of age) are enrolled throughout the state?

Indicators 5 & 6: Percent of Infant & Toddlers Enrolled

Alaska Part C (EI/ILP) provides services to all infants and toddlers with developmental delays and or disabilities who qualify for services. Alaska defines Part C eligible children as those children who experience a significant developmental delay (at or greater than 50% in one or more developmental domains: cognitive, physical, communication, social/emotional, or adaptive) or those children who have an identified condition that would result in a significant delays. The data for indicators 5 & 6 is gathered from a point in time each year (December 1). This data represents the percent of the infant and toddler population enrolled on that day.

**Indicator 5** - Percent of infants and toddlers enrolled birth to 1 with IFSPs compared to National data.

1.71% of Alaska infants under the age of one were enrolled on December 1, 2018. Alaska is above the FFY18 National average of 1.24%. Alaska's FFY18 target for this indicator was 1.89%

Indicator 5 Percent of infants and toddlers Birth to 1 receiving early intervention services under IDEA, Part C, by Alaska compared to National Part C: 2015			
National and State	Number served Birth to 1 yr.	Number Birth to 1 yr. Population	Percentage Birth to 1 yr. Population
Alaska	182	10,665	1.71%
National	49,294	3,970,145	1.24%

Sources: GRADS 360

Alaska demonstrates an overall increase for the past ten years.

Indicator 5 Percent of Infants and Toddlers Enrolled Birth to One with IFSPs Statewide Progress Table										
Baseline FFY05 2005-2006	FFY09 (2009- 2010)	FFY10 (2010- 2011)	FFY11 (2011- 2012)	FFY12 (2012- 2013)	FFY13 (2013- 2014)	FFY14 (2014- 2015)	FFY15 (2015- 2016)	FFY16 (2016- 2017)	FFY17 (2017 – 2018)	FFY18 (2018 – 2019)

## What happens after your child turns 3?

Indicator 8: Transition

Early Intervention/Infant Learning Program (EI/ILP) programs assist enrolled children and their families prepare for other needed services after a child's third birthday. Transition planning can begin at any time during the child's enrollment, however a transition meeting is held at least 90 days prior to the child's third birthday. This meeting is held to discuss available resources and the type of services you wish to have for your child. As your child turns 3, he or she may transition from EI/ILP to Early Childhood Special Education, Head Start, childcare or other early childhood programs. EI/ILP is required to assist you with timely transition services. This planning includes:

- A. Developing an IFSP with transition steps and services
- B. Notifying the school district if a child is potentially eligible for Preschool Special Education Services and
- C. Holding a transition meeting

Alaska's FFY16 goal is 100% for all transition indicators.

Here are the monitoring results for the EI/ILP program in your area this past year:
