

Helping People Find Medicare-Approved Providers in Alaska

Use the Medicare website to find hospitals, nursing homes, home health services, dialysis facilities, doctors and other health professionals at:

<https://medicare.gov/forms-help-and-resources/find-doctors-hospitals-and-facilities/quality-care-finder.html> or Durable Medical Equipment (DME) or supplies at: <http://medicare.gov/supplierdirectory/search.html>

Find a Federally Qualified Health Center online:

http://findahealthcenter.hrsa.gov/Search_HCC.aspx?byCounty=1&unbrand=

Health centers care for you, even if you have no health insurance. You pay what you can afford, based on your income. Health centers provide:

- checkups when you're well
- treatment when you're sick
- complete care when you're pregnant
- immunizations and checkups for your children
- dental care and prescription drugs for your family
- mental health and substance abuse care if you need it

Find an urgent care center by looking online or in the phone book. Urgent care centers primarily treat walk-in patients for injuries or illnesses requiring immediate care, but not serious enough for an emergency room visit. Not all Urgent Care centers accept Medicare so make sure you ask.

Always check the information

In Original Medicare (Part A and Part B) you can go to any doctor, other health care provider, hospital or other facility that's enrolled in Medicare and is accepting new Medicare patients. Medicare does not require you to have a referral, which is a written order from your primary care doctor, to see a specialist; however a specialist or facility may have their own business practice which requires a referral.

Always contact the healthcare professional or facility to make appointments, confirm they accept Medicare, and if they are accepting new Medicare patients.
