

Pre-Admission Screening and Resident Review (PASRR) Level I

To ensure an individual is placed in a long term care facility appropriately and receives needed services, federal regulations, 42 CFR 483.100 - 483.138 require a Pre-Admission Screening and Resident Review (PASRR) Level I screening for individuals who have or may have a diagnosis of mental illness, intellectual disabilities, and/or related conditions. The PASRR Level I Screening is required for all applicants to long term care Medicaid certified facilities, regardless of the individual's payment source, and for long term care Medicaid certified facility residents who have had a significant change in condition or diagnosis (resident review). All information requested on this form is required.

Submit complete form, with all required signatures and attachments, by direct secure messaging (DSM) to: dsds.ltcauthorizations@hss.soa.directak.net

Signatures and Contact Information

The State is responsible for the final determination regarding PASRR. If review of the Level I PASRR Screening indicates a need for a PASRR Level II evaluation, the State may require additional documentation, will complete the evaluation and make a determination regarding appropriate placement within 7-9 business days, and will notify all parties of the outcome.
