**PLEASE NOTE:** These rates are for the residential supported living (RSL) **services** provided to a resident in a state licensed, certified, enrolled assisted living home and the resident is individually enrolled in CHOICES for the Medicaid Waiver Programs. RSL service will be indicated in the resident's Medicaid waiver plan of care. Medicaid does not reimburse for basic board and room. Each assisted living provider must bill the client for room and board costs, and maintain financial records documenting client billings and payments. Basic room and board can be paid directly to the assisted living provider from a client's resources, by family and/or from other sources.

\*\* This rate includes the continuing of the 2% increase and a 1.5% increase approved for FY2010 and expires 6-30-2010.
