Peter and Beulah Parisi papers, Archives and Special Collections, Consortium Library, University of Alaska Anchorage.

Leonhard Seppala (September 14, 1877 – January 28, 1967) was a Norwegian-born American sled dog musher who played a pivotal role in the 1925 serum run to Nome and is known as the greatest dog driver of all time.

Seppala had emigrated to Alaska during the Nome gold rush of 1900. A diphtheria outbreak struck Nome in the winter of 1925. The town's supply of diphtheria antitoxin serum was insufficient and of presumably low efficacy, having recently expired. The only practical way to deliver more serum to Nome in the middle of the coldest winter in 20 years was by dog sled.

Seppala's section of trail featured a dangerous shortcut across Norton Sound. Ice on Norton Sound was in constant motion due to currents from the sea and the unimpeded wind. Small cracks in the ice could suddenly widen, plunging driver and team into the freezing water. The wind could reach speeds as high as 70 mph, flipping over sleds, pushing the dogs off-course, and pushing the ice out to sea. A team suddenly caught on a drifting floe would find itself stranded on open water.

When the serum passed to Seppala, night was falling and a powerful low-pressure system was starting to move onto the trail from the Gulf of Alaska. Seppala decided to risk Norton Sound in high winds in the dark. While he raced to the roadhouse at Isaac's Point on the opposite shore, gale-force winds dropped the wind-chill to -85°F .

The next day, the gale had progressed into a severe blizzard, with blinding snow and winds of 65 mph. Conditions on the ice were perilous, with sudden soft spots in the ice underfoot, or outright open water only a few feet away. Only hours after they had crossed it, the ice had broken up altogether and drifted out to sea.

Seppala and his team were sleep-deprived and had already raced 260 miles over the previous 4.5 days. However, at 3 pm that day, Seppala and his team arrived at Golovin and handed off the serum to the next musher.

This emergency delivery, also known as the "Great Race of Mercy", is commemorated annually with the Iditarod Trail Sled Dog Race.

Introduction

The Alaska Department of Health & Social Services (DHSS) exists to promote and protect the health and well-being of Alaskans. In fulfilling this charge, we rely on the commitment and expertise of partner agencies across our state to provide a variety of health and social services to those in need. We strive to deliver the right care to the right person at the right time for the right cost. Through grant programs, Alaska's nonprofit, tribal entities and local municipalities help make this service philosophy a reality.

In Fiscal Year 2013, the department awarded over \$160 million through grants, with additional services supported through contracts and provider agreements. On an annual basis, the department manages over 600 operating grants awarded to roughly 227 agencies. This publication provides an overview of these grant programs, funding awarded by region and a glimpse of the partner agencies that help to carry out our mission at a community level.

We welcome input regarding the department's response to the needs of Alaskans and how we can enhance services through our grant programs. It is my hope that this summary will continue to serve as a useful resource as we work together to improve service delivery across Alaska and make the greatest impact on the health and well-being of our citizens.

Sincerely,

A handwritten signature in cursive script that reads "William J. Streur". The signature is written in black ink and is positioned above the printed name and title.

William J. Streur

Commissioner

Behavioral Health

Alcohol Safety Action Program (Adult and Juvenile)

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Priorities of the program are alcohol and substance abuse screening, referral, and monitoring education or treatment requirements of alcohol-related misdemeanor cases. Each program has an adult component and may have a juvenile component.

Target Group: Adult ASAP: Services are intended for clients who have a current or pending DUI misdemeanor criminal case. Most clients are referred directly from the court as a condition of their sentence, although they may be assigned prior to their conviction as a condition of release.

Juvenile ASAP: Services are intended for clients who are referred for adolescent assessment, referral, and treatment related to underage drinking and drug offenses. Juvenile ASAP serves clients aged 14-21 who have been convicted of a minor consuming, minor in possession, or tobacco violation. Most clients are referred directly from the court as a condition of their sentence, although they may be assigned prior to their conviction as a condition of release.

Resource Allocation: Criteria for allocation of funds for these services are 1) cost per case; 2) size of caseload and; 3) support of the local justice system. Geographic consideration is based on the number of cases in each court location. Award of Juvenile Alcohol Safety Action Program funding is made only to grantees that currently have an adult ASAP infrastructure in place. A 10% match is required.

Criteria: Eligible applicants will provide services in communities that is an Alaska Court System site with an approved alcohol and/or drug abuse treatment program. Criteria for awarding grants are derived from statute and regulation and include evaluation of component costs, budget summary and narrative, program narrative, and goals and objectives. Recommendations are made by an evaluation of statistical data reported from the courts and the information provided in applications.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health Provider Association

Authority: AS 47.30.520 - 620 Community Mental Health Services Act and AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: To enhance behavioral health services and quality of life for all Alaskans by providing leadership, which ensures high quality, affordable behavioral health services.

Target Group: This grant targets primary providers of behavioral health services in Alaska.

Resource Allocation: Funds for this grant are identified in the Division of Behavioral Health Federal Block Grant.

Criteria: The Alaska Behavioral Health Association is the only statewide association eligible under 7 AAC 78.030, whose members are the primary providers of behavioral health services in Alaska.

Appropriation: Grant funds are appropriated to the Division of Behavioral Health

RDU: Behavioral Health

Component: Svcs/Seriously Mentally Ill

Behavioral Health Provider Association

Behavioral Health

Bethel Community Service Patrol and Sobering Center

Authority: AS 47.30.475-477 Grant-in-aid Programs; AS 47.30.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act, and 7 AAC 71.010-300 Community Mental Health Services; 7 AAC 29 State Standards for Alcoholism Programs and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Community Service Patrol is an integral part of a multi-faceted service system designed to provide protection, identification, and referral for treatment for the targeted population. The Sobering Center will provide a more appropriate and preferable setting than the local correctional facility or emergency room. At the Sobering Center, these consumers will also be screened and will receive case management services to connect them to other services such as referrals for Substance Abuse assessments, Mental Health Assessments and referrals into substance abuse treatment and mental health treatment.

Target Group: The targeted population is chronic inebriates in need of detoxification services.

Resource Allocation: The Bethel region has been identified by the AMHTA as a target area for specialized chronic inebriate services due to the large number of Title 47 protective holds that result in people being taken to local correctional facilities or hospital emergency rooms.

Criteria: Available data documenting incarcerations associated with protective custody holds demonstrates that the City of Bethel has one of the highest incidences of protective holds in the State. Because of this, the Alaska Mental Health Trust Authority (AMHTA) and Division of Behavioral Health have identified the region as a priority for additional program efforts.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

RDU: Behavioral Health

Behavioral Health

Bridge Home

Authority: AS 37.14.041 and AS 47.30.056 Use of the Mental Health Trust Settlement Income Account; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The Alaska Mental Health Trust Authority allocated funding for grants to provide rental subsidies and related housing costs, as well as residential support services, for adult individuals. Participants will receive intensive, on-site residential support services and living skills development, as well as supportive employment training. 24-hour outreach services will be available to respond in time of need. This program provides funding to address a critical gap in our system for long-term housing assistance to a population that is excluded from current programs. Clients are offered a chance to demonstrate the ability to remain in stable housing and reestablish eligibility for the HUD Housing Choice Voucher program.

Target Group: The Bridge Home program targets adults who are exiting institutions with a serious, chronic mental illness and a history of cycling from the Department of Corrections, Alaska Psychiatric Institute and homelessness.

Resource Allocation: Services will be provided in the Anchorage area with a single grant to provide services to the highest density target population.

Criteria: Program goals include: ensuring public safety; reducing criminal and clinical recidivism; providing a supported housing alternative to corrections; assisting clients to achieve self-sufficiency by accessing mainstream resources, such as a social security benefits and federal housing subsidies; and demonstrating the overall cost savings to the State of Alaska for the use of supported housing versus institutionalization.

Appropriation: Funding is appropriated to the Division of Behavioral Health.

Bring the Kids Home

Authority: AS 18.08.010 Emergency Medical Services - Administration; AS 47.30.475 - 477 Grant-in-aid program; AS 47.30.520 - 620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; and 7 AAC 71.010 - 71.300 Community Mental Health Services; 7 AAC 29 Uniform Substance Abuse Treatment Standards for Facilities and Programs; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The program goal is to enhance or establish an array of services statewide through pilot projects to ensure that all children in out-of-state custody have appropriate treatment options within their community or close to their families. Having treatment options and family support within their own community enhances the child's likelihood of success for returning home. Pilot projects include enhancing in-home treatment services and resources for the prevention of crisis situations; crisis nursery/treatment preschool; individualized support services for transitional aged youth 16-21; mental health respite/stabilization homes; treatment resource homes; therapeutic group homes; and individualized high risk therapeutic group homes.

Target Group: The program serves children in out-of-state treatment care; children aged 1-10 in need of crisis treatment, and transitional aged youth, aged 16-21, in need of individualized support services. The program also provides in-state treatment facilities and programs to enable children currently in out-of-state treatment to return and to avoid further out-of-state placements due to the lack of appropriate programs.

Resource Allocation: Programs and funding have been allocated statewide.

Criteria: Eligibility criteria for this program includes the criteria found in 7 AAC 78.100, and requires the applicant have the ability to bill Medicaid. Applicants, as well as their proposed project partners must have prior experience providing similar services.

Appropriation: Division of Behavioral Health and the Alaska Mental Health Trust Authority.

Chemical Dependency Professionals Certification

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: This grant provides a certification process in Alaska for substance abuse counselors, clinical supervisors, and administrators. The grantee also reviews and approves all trainings required for the certification process.

Target Group: The grant serves individuals desiring certification for the provision of substance abuse services within the state of Alaska.

Resource Allocation: Resources are specifically directed for the support of the certification process.

Criteria: The grantee is the only entity in Alaska providing substance abuse certification services according to the standards set by the National Association of Addictions Professionals.

Appropriation: Grant funds are appropriated to the Division of Behavioral Health

RDU: Behavioral Health

Comprehensive Behavioral Health Prevention and Early Intervention Services

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; AS 47.37.045 Community Action Against Substance Abuse; AS 47.30.475 Grant-in-aid program; AS 47.30.470-AS 47.30.500 Alcoholism and Drug Abuse; Public Health Service Act, as amended, Section 501-05 (42 U.S.C. 290aa); and 7AAC 78 Department of Health and Social Services Grants

Priorities: The goal of this program is to provide comprehensive, integrated behavioral health prevention, and early intervention services related to substance use and abuse, suicide, fetal alcohol spectrum disorders, youth development and resiliency, and promotion of community, family, and individual wellness across Alaska. This program is representative of the new focus of Division of Behavioral Health on a broader behavioral health direction to integrate social and health services into intertwined holistic services that will lead to improvement in our suicide rates, family wellness, reduced drinking among teens and adults, healthy pregnancies free of alcohol-related disabilities, and stronger and healthier communities, families, and individuals.

Target Group: Services are provided statewide, focusing on prevention and early intervention services across the life span (all ages). Primary focus will be on the individuals we know are at higher risk, including children whose parents have a problem with alcohol and/or drug addiction and dependency. Attention will be given to regional location of grant programs, making sure there is a fair distribution of grant funds across the state and among rural and urban populations.

Resource Allocation: Funding is from a combination of federal funding, general funds and alcohol tax funds. A 10% match is required except where reduced by approved exemption.

Criteria: Eligible applicants include nonprofit organizations, municipalities and Regional Educational Attendance Areas or other political subdivisions of the state, other State agencies, Alaska Native Tribes, or a combination of these entities. Funding is issued through a statewide competitive solicitation process. Proposals are solicited that address the goal of promoting communities utilizing effective practices and partnerships.

Proposals are categorized in four (4) categories based on community size and program- type (Building Capacity or Implementation). Proposals must contain tangible evidence of participation in community coalitions, partnerships and/ or collaborative agreements that will enhance the applicants' ability to achieve program goals and desired outcomes.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health

Comprehensive Behavioral Health Treatment and Recovery Program

Authority: AS 47.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 71.010-71.300 Community Health Services; 7 AAC 29 State Standards for Alcoholism Programs; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Grants are intended to support integrated treatment through community coalitions of providers, across the spectrum of behavioral health services including: psychiatric emergency services, services to adults with serious mental illness, services to seriously emotionally disturbed youth, services for individuals with co-occurring mental health and substance use disorders, individuals with substance abuse disorders - including pregnant women, IV drug users, women with dependent children, youth, and other persons and families whose presenting problem is addiction to, dependency on, or chronic disabling use/abuse of alcohol and other drugs, including prescribed and over-the-counter medications and household/general use products that contain inhalant chemicals and substances.

Target Group: Services are provided statewide, focusing on treatment across the life span (all ages).

Resource Allocation: Programs and funding are allocated statewide.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 eligible local community entities.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health**Evidence Based Practices**

Authority: AS 47.30 Mental Health; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Evidence Based Practices (EBP) are those programs that are scientifically tested to demonstrate that they improve client outcomes. Integration of mental health and substance abuse treatment services, an EBP, was the first major step in developing a phased statewide behavioral health system. Projects under this program represent additional steps towards implementing program designs that current evidence suggest will be the most successful therapeutic and cost effective program models.

Target Group: Women and Children programs deliver services for addressing special treatment needs of women with children, for women with substance abuse problems: health services, mental health treatment, child care, transportation, safe housing and parenting skills training, as well as problems arising from histories of domestic violence and sexual assault.

Youth with Families programs deliver services for adolescents and their families, addressing unique treatment needs of adolescents and issues that play significant roles in their lives, such as cognitive, emotional, physical, social and moral development, and family and peer environment.

Illness Self-Management & Recovery refers to peer-facilitated services to help people cope with mental illness more effectively and facilitate their ability to care for themselves. Collaboration between consumer organizations and community mental health centers are encouraged to maximize resources, and share expertise.

Supported Employment - Competitive work in integrated work settings, consistent with the resources, priorities, abilities, and informed choice of individuals for whom competitive employment has not traditionally occurred, has been interrupted or intermittent as a result of a significant disability.

SED Children and Youth with FASD program promotes development of an Alaskan model, combining promising practices in wrap-around for children and youth with SED, with research contributing to the evidence base of best practices for treating children with FASD. This project is intended to provide needed individualized services and add to the evidence base for promising practices for children and youth with these multiple diagnoses.

Resource Allocation: Services are solicited statewide.

Criteria: Grantees provide independent project evaluation to assess the process and outcome of Evidence Based Practices delivered. Evidence Based Practices are those practices for which there is consistent scientific evidence showing that they improve client outcomes.

Appropriation: Grant funds are appropriated to the Division of Behavioral Health.

RDU: Behavioral Health

Component: Svcs/Seriously Mentally Ill

Behavioral Health**Family Wellness Warriors Initiative**

Authority: AS 47.30.470-500 Alcoholism and Drug Abuse; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Family Wellness Warriors Initiative (FWWI) seeks to address the devastating problems of domestic violence, abuse, and neglect in our Alaska Native communities. Its purpose is to equip organizations, communities, and individuals to effectively address the spiritual, emotional, mental, and physical effects of domestic violence, abuse, and neglect. FFWI's encourages wellness in each of these areas in the individual, the family, the community, and the world in where participants live:

- Families and Communities
- With hearts open to changes
- Working together with others through education and training
- Instilling hope for restoration and wellness

Target Group: Family Wellness Warriors Initiative targets the Alaska Native and American Indian populations of Alaska, but all individuals, regardless of race, gender, or religion can apply for services. The Family Wellness Warriors Initiative (FWWI) is a movement that brings together leaders of the Alaska Native Community, the faith community, regional corporations and agencies, health care providers, and many other interested people, in an effort to restore wellness to the Alaska Native Community. It specifically addresses all forms of violence that occur within the family. These include child abuse and neglect, sexual abuse, vulnerable adult abuse and neglect, domestic violence, and adult sexual assault.

Resource Allocation: Funds available for this grant are anticipated to total \$200,000 per year. The match requirement is 10% for this grant or \$20,000.

Criteria: The FWWI is currently providing services to the community of Bethel. Future communities may be selected based on community request for services and meeting the program guidelines and readiness to embrace the FWWI model of comprehensive service delivery.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health

Behavioral Health**Independent Case Management and Flexible Supports**

Authority: AS 47.30.520-620 Community Mental Health Services Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Independent Case Management offers an option, especially in larger communities, of case management services by independent entities as an alternative to services from local community mental health centers. This allows consumer choice for this crucial service, in turn promoting increased accountability in the system of care. Independent case managers help initiate and attain appropriate housing, and employment services, along with other community support services.

Flexible Support Services are linked with the Recovery by Choice concept, which was designed to reduce recidivism at the Alaska Psychiatric Institute. The intention is to bring intensive services in a community setting to people identified as at risk of re-hospitalization and is an adaptation of assertive community treatment models across the nation. Flexible Support Services are also designed to validate consumers' recognition of their need and understanding of necessary and effective services prior to the existence of an emergency situation. Funding for these services would be available only if other sources are not available in a timely manner. Eligible services could include medications, psychiatric care, counseling, peer support, medical care, housing or other emergent necessities.

Target Group: Serious mentally ill person means a person who is 18 years of age or older and who satisfies both of the following criteria:

1. Must be diagnosed as having a major Psychotic or Mood Disorder or another serious persistent mental disorder; and
2. Must have impaired role functioning, consisting of at least two of the following:
 - a. Social role: an inability to function independently in the role of worker, student, or homemaker;
 - b. Daily living skills: an inability to engage independently in personal care (grooming, personal hygiene, etc.) or community living activities (handling personal finances, using community resources, performing household chores, etc.); or
 - c. Social acceptability: an inability to exhibit appropriate social behavior, which results in demand for intervention by the mental health and/or judicial system.

Resource Allocation: Independent Case Management funds were initially provided for startup costs that transition to Medicaid billing as agencies establish operations.

Criteria: The intent of this project is prevention of institutionalization, promoting service effectiveness, choice, recovery, and accountability, all within a consumer-centric perspective.

Appropriation: Funds are appropriated to the Division of Behavioral Health.

Behavioral Health

Integrated Treatment of Children and Families with Trauma History

Authority: AS 47.30.520 - 620 Community Mental Health Services Act; 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program services will directly address trauma as the core issue for all presenting behavioral, learning, and emotional problems. All presenting problems, emotional disturbances, and diagnosed disorders including (but not limited to) substance abuse and dependence, delinquent activity and conduct disorders, shall be addressed wholly within an integrated treatment paradigm.

Target Group: The program services are for trauma specific screening, assessment, and treatment services to children and their families identified as having an immediate, recurring or past history of trauma experiences.

Resource Allocation: This program is open to providers statewide without regional allocations. The Division of Behavioral Health will fund one project.

Criteria: The provider's delivery strategies will be an innovative approach to service delivery.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health**Intensive Outpatient Substance Abuse Treatment Services**

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Grant Programs

Priorities: Provide intensive outpatient treatment services to individuals in the Anchorage Area. Outpatient Level II.5 (Intensive Outpatient) programs generally feature 20 or more hours of clinically intensive programming per week as specified in the client's treatment plan. While receiving services clients may choose to live with family/friends or in other supportive housing within the community. These services will form an important part of Alaska's effort to address its number one health problem and assist in the creation of an environment in which Alaskans can live free from the negative consequences of alcohol and other drug use. Services must promote Evidence-Based (EB) Best Practice, an Emerging/Promising Practice (EPP), or Alaska Values Based Practice. Services include training regarding fidelity to the EP/EPP or Alaska Values Based Practice models and include evaluation components.

Individuals cannot be treated in isolation and every effort must be made to include significant others in the treatment process. The grantee must include the individuals' families (parents, spouses, significant others, children, siblings, other family members) and employers in the treatment process, when possible, to maximize positive outcomes.

Target Group: Clients in the Anchorage area referred from API, Dept. of Corrections, Therapeutic Coords, and Public Assistance, with co-occurring mental health and substance use disorders.

Resource Allocation: \$188,550 for the remainder of the first year, and \$452,500 each year for the next two years (FY10 - FY12)

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 and AS 47.30.540.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Palmer Therapeutic Court

Authority: AS 47.30.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 71.010-71.300 Community Mental Health Services; 7 AAC 29.010-940 State Standards for Alcoholism in Programs and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: To provide intensive case management and timely access to appropriate treatment services in the Palmer-Wasilla area for Palmer Therapeutic Court participants who experience co-occurring disorders, and to promote wellness and reduce recidivism.

Target Group: Participants in the Palmer Therapeutic Court with co-occurring mental health and substance abuse disorders from the Mat-Su region, including Palmer, Wasilla and other communities in the catchment area.

Resource Allocation: The need to expand co-occurring substance abuse treatment capacity for therapeutic court participants has been identified by the Alaska Mental Health Trust Authority's Disability Justice Workgroup. This is a program funded through the Alaska Mental Health Trust Authority and the Division of Behavioral Health. Resources are allocated to the Palmer-Wasilla area based on data received from local treatment providers and the Palmer Therapeutic Court case management system.

Criteria: Proposed services are evaluated based on the criteria established in competitive solicitation, according to the criteria required in 7 AAC 78.100.

Appropriation: Division of Behavioral Health and the Alaska Mental Health Trust.

Behavioral Health**Residential Behavioral Rehabilitation Services for Children**

Authority: Program Services are authorized under 7 AAC 78, AS 47.30.520 - .620, AS 47.30.376, and AS 47.30.465.

Priorities: The program goal is to divert children at risk of entering Residential Psychiatric Therapeutic Centers (RPTC) or who have been in RPTC and to maintain these children in their families and community. Grantees will do this by effectively implementing Parenting with Love and Limits ® (PLL), an evidence-based program combining a 6-week parent education and group therapy program with 4 or more individual "coaching" (family therapy) sessions for adolescents and their parents. The services are designed for youth between 10 and 18 with extreme emotional or behavioral problems (running away, extreme disrespect, chronic truancy, depression, drug or alcohol abuse, etc.). Further information on PLL is located at (<http://www.gopll.com/>).

Target Group: Services will be provided to families with children and to children, aged 10-18 in the areas being solicited. Children in the target population will have or have had experienced a severe emotional disturbance and also meet one of the following two criteria, child is:

- 1) at risk of RPTC placement:
 - In community, not improving and has been referred to RPTC; or
 - Has been in acute care recently and is at risk of a return to acute care; or
 - Child has been in other residential placements and is not improving, etc.); or
- 2) currently in RTPC, requires intensive family therapy to return home successful, and has one of the following:
 - Demonstrates aggressive behaviors as a primary risk factor; or
 - Child has a co-occurring substance use disorder as a primary risk factor; or
 - The family is involved with multiple systems (adult behavioral health, adult justice, child protective services, juvenile justice, adult public assistance, adult or child developmental disabilities).

Resource Allocation: The Division will award one grant in each of the following described areas: 1) Juneau (Juneau Youth Services), 2) Ketchikan (Residential Youth Services), 3) the North Star Borough (Fairbanks) (Presbyterian Hospitality House) and 4) the Matanuska-Susitna Borough (Wasilla) (Alaska Family Services) for a total of 4 grant awards for FY12-FY13. Agencies awarded are RBRS (Residential Behavioral Health Services) with a current Provider Agreement in place with the department to provide Level II and Level III services.

Criteria: All applicant agencies must have a minimum of 3 years history in Alaska of providing residential behavioral health rehabilitation services to children and/or adolescents with a severe emotional disturbance. The agencies awarded must be current Residential Care for Children and Youth (RCCY) facilities and have current Residential Behavioral Rehabilitation Services (RBRS) Provider Agreements in place with the Alaska Department of Health and Social Services (DHSS). (DHSS) purchases residential care for children and youth (RCCY) services through grants governed by statute under AS 47.40.011 – 47.40.091 and under 7 AAC 53.900 – 7 AAC 53.999 for certain facilities required to be licensed under AS 47.32 and 7 AAC 50. Care required is Level II and Level III as defined in the Alaska Department of Health and Social Services' RBRS Handbook, page 9.

Behavioral Health**Rural Community Domestic Violence and Sexual Assault**

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; AS 47.30.470-500 Alcoholism and Drug Abuse; 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: In an effort to reduce domestic violence, sexual assault and substance abuse in rural Alaska, the intent of these grant funds are to establish rural community pilot projects to develop innovative, multi-disciplinary, collaborative approaches/strategies to domestic violence (DV) and sexual assault (SA) early intervention and prevention. The long-term goal is to build increased infrastructure and capacity across the state to intervene earlier, to prevent incidence of DV and SA, and to promote communities free of interpersonal violence of all kinds. The hope is that regions and/or communities will be creative, explore ideas beyond how DV and SA are usually addressed, and think about developing a seamless, holistic and inclusive approach to DV and SA that meets the unique regional and cultural needs of the identified service area.

Target Group: Only rural Alaska; defined as: All areas with the exception of the Municipality of Anchorage and Matanuska-Susitna, Kenai Peninsula, and the Fairbanks North Star and Juneau Boroughs. All other areas of Alaska are considered rural and are eligible to apply for these funds. Proposals can be made from a region, a sub-region or a community and/or group of communities that are regionally or culturally connected.

Resource Allocation: \$1.3 million in State General Funds

Criteria: The intent of this request for proposals is to generate regional or community-wide commitment to changing the current status of domestic violence and sexual assault; to think about DV and SA in a comprehensive, holistic and multi-disciplinary way. Applicants are encouraged to think bigger than a single program or agency and to look at all aspects of DV and SA; their origins, impact on the overall wellness of the region/community, and consequences on the region/community/families and individuals.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health**Rural Human Service System**

Authority: AS 47.30.470-500 Mental Health; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program was developed in response to the critical need for a stable system of behavioral health providers in rural Alaska by hiring, training, supporting, and supervising culturally competent village-based counselors, and counselors that serve relocated villagers. The program provides the opportunity for rural people to achieve their goal of helping their own people. Training is provided through the Rural Human Services Training Program in the University of Alaska Fairbanks, College of Rural and Community Development, Interior-Aleutians Campus.

Target Group: Eligible applicants include substance abuse programs, community mental health centers, and other human social service programs whose service areas include villages; usually with a predominantly Alaska Native population.

Resource Allocation: Resources are designated according to the following service priorities:

- 1) Programs currently funded and adequately performing;
- 2) Expansion to new regions of the state;
- 3) Expansion of existing grantees to allow for the addition of villages not currently serviced by RHS counselors; and
- 4) Funds to non-rural agencies for tuition, room/board, and travel costs related to attending training.

Criteria: Criteria for allocation of funds for these services are: 1) Those programs working to fulfill the goal of a counselor in every village of rural Alaska; 2) Those programs sending RHS graduates to the RHS II training program; 3) Those urban programs serving people relocated from rural Alaska.

Criteria for awarding grants are derived from statute and regulation. Evaluation of applications includes proposed costs, project description, and goals. Recommendations are based on evaluation of the information provided in applications.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Senior Outreach, Assessment and Referral Project (SOAR)

Authority: Under the authority of AS 47.30.520 – 620, the Community Mental Health Services Act, AS 47.376 Uniform Alcoholism and Intoxication Treatment Act and AS 47.30.465 Grant-in-Aid Program Alcoholism and Drug Abuse; 7 AAC 78 Grant Programs, and 7 AAC 29, State Standards for Alcoholism Programs

Priorities: This program will support neighborhood and community gatekeeper training and intervention programs to help identify seniors in need of mental health and/or substance abuse treatment services or other health care intervention. This project will assist Alaskan seniors to achieve or maintain the principles expressed in the Commission's vision of older Alaskans' quality of life. Agencies awarded funding will coordinate with allied service providers in their communities; local project staff will train community gatekeepers to identify vulnerable seniors and connect with them in non-traditional settings to provide assessment and referral to treatment resources. The agencies will also offer community education and outreach, and working with primary care providers to enhance behavioral health screening opportunities. The project will also collect data on client needs, services provided, individuals trained, and services that are needed but unavailable in their communities.

Target Group: Alaskans age 60+.

Resource Allocation: Program and funding are allocated statewide.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 eligible local community entities.

Specialized Detoxification and Residential Treatment

Authority: Authority: AS 47.05.010- Community Mental Health Services Act; AS 47.30.475 Grant-in-aid program; 47.37 Uniform Alcoholism and Intoxication Treatment Act, including AS 47.37.170 Treatment of Intoxicated Persons and AS 47.37.180-205 Voluntary and Involuntary Commitment; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Services are provided in a semi-secure facility to serve individuals who either meet the criteria for or are involuntarily committed under Title 47 for detoxification, substance abuse, and co-occurring treatment with the goal to make the transition from detoxification to residential substance abuse treatment as smooth as possible.

Target Group: The service delivery area is Anchorage and the target group are those at very high risk of harm due to substance dependence and frequently experiencing co-occurring mental illness and/or medical conditions and needing a secure and protective setting that is an alternative to incarceration.

Resource Allocation: Programs and funding are allocated to Anchorage.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 Eligible local community entities.

SSI/SSDI Outreach, Assessment & Recovery (SOAR) Training Services

Authority: Program Services are authorized under 7 AAC 78, AS 47.30.520 - .620, AS 47.376.

Priorities: Training is to increase and enable providers with the knowledge and information they need to help clients to navigate the Social Security Administration's forms, documents and processes, better increasing access to SSI/SSDI for homeless or at-risk adults eligible for benefits under Social Security Administration (SSA) rules.

Target Group: The intended target population are required to be Alaska agencies and providers who work with homeless or at-risk adults who may be mentally ill, have substance abuse or co-occurring issues, and may have been released from prison or jail, or are youth who have aged out of the foster care system, or are homeless or at-risk due to other circumstances.

Resource Allocation: Training and funding has been allocated state-wide.

Criteria: ACMHS will provide the standard, and nationally recognized, SOAR and the Stepping Stones to Recovery curriculum (developed for the Federal government by Policy Research Associates) to Alaska agencies and providers, state-wide, who assist homeless or at-risk adults with serious mental illnesses, or co-occurring disorders, with the application process for Social Security disability benefits.

Behavioral Health**Strategic Prevention Framework State Incentive Grant**

Authority: AS 47.37.030, Uniform Alcoholism and Intoxication Treatment Act, AS 47.30.470; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The Strategic Prevention Framework State Incentive Grant (SPF SIG) is a federally funded grant program whose focus is to prevent substance use, abuse and dependency efforts at the state/tribal, regional and community level. SPF SIG grantees will provide a comprehensive array of promotion, prevention and early intervention strategies, which are data-focused, community-designed and driven using locally identified risk and protective factors; based on concepts and strategies that are proven to be effective in prevention of behavioral health concerns; and with clearly defined and measurable outcomes. The focus is youth alcohol use and adult heavy and binge drinking as well as the consequences of these two consumption patterns including, but not limited to drinking and driving, minor consuming citations, alcohol-related deaths, suicide, sexual assault, domestic violence, and alcohol-related crashes/collisions.

Target Group: Youth alcohol use ages 12-20, and adult heavy and binge drinking ages 21-44.

Resource Allocation: Services are sought Statewide.

Criteria: Eligible applicants include nonprofit organizations, municipalities, and Regional Educational Attendance Areas or other political subdivisions of the State, other State agencies, and Alaska Native Tribes. A single agency must apply for the grant and take full responsibility of the administration of the grant it must be clear the planning, the proposal and the continuing work will be completed through a community coalition. In order for a proposal to meet this minimum responsiveness requirement, a list of coalition members and the agencies, businesses or sectors of the community they represent must be included. Funding is issued through a statewide competitive solicitation process.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Substance Abuse Treatment for the Office of Children's Services Engaged Families

Authority: AS 47.30.520 – 620, the Community Mental Health Services Act and AS 47.37, Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Grant Programs

Priorities: The Uniform Alcoholism and Intoxication Treatment Act provides for community-based substance abuse treatment to intervene in a person or family's current situation and addresses immediate and continuing needs until recovery is possible without ongoing program assistance. Services must be provided, either directly or by benefit of a collaborative agreement with allied providers, in a way that meets the individual needs of all persons admitted. While receiving services clients may choose to live with family/friends or in other supportive housing within the community. In support of the description of proposed service strategies, applicants must include a timeline for implementation of those strategies as an appendix to their proposal. Applicants must demonstrate a thorough understanding of the grant program goals and outcomes in the development and presentation of their strategies for service delivery.

Target Group: The grantee will provide case manager recovery support staff to work specifically with OCS referred families and "case manage clients through the treatment process".

Resource Allocation: Programs and funding are allocated for Anchorage and for Fairbanks.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 eligible local community entities.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Substance Abuse Treatment Services for Pregnant Women

Authority: Program Services are authorized under 7AAC 78 Grant Programs; AS 47.37 the Uniform Alcoholism and Intoxication Treatment Act; AS 47.30.465 Grant-in-Aid Program Alcoholism and Drug Abuse; and 7 AAC29 State Standards for Alcoholism Programs.

Priorities: To expand the capacity of substance abuse services outside of Anchorage and Fairbanks, which will target pregnant women and women with children, resulting in the increase of these people in substance abuse treatment. Intensive Outpatient programs.

Target Group: The target population for services in this Request for Proposal is pregnant women and women with children who have been determined appropriate for the intensive outpatient level of care. Admission to outpatient services will be based on the criteria delineated in the Substance-Related Disorder category as defined by the Diagnostic and Statistical Manual of Mental Disorders (DSM-IV-TR), and the relevant criteria as defined by the American Society of Addiction Medicine Patient Placement Criteria 2R (ASAM PPC-2R), adult and opioid maintenance therapy.

Resource Allocation: State of Alaska general funds.

Criteria: Applicants must provide for a continuum of care for each woman served. Applicants may operate several components of service; i.e. Residential Care, Outpatient Care, the required Aftercare/Continuing Care, etc. Each component of service should be designed to address the client's needs at a specific point in the progression of recovery and to facilitate growth, ultimately, toward self-sustained recovery. Programs will be expected to work with their partners to expand the concept of family-focused treatment and to create and maintain a family-focus, including parenting, as part of the recovery process.

Appropriation: State of Alaska general funds.

Supported Employment

Authority: AS 47.30.520 - 620 Community Mental Health Services Act; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Grants are intended to implement Supported Employment as an Evidence Based Practice which is defined as competitive work in integrated work settings, consistent with the strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the individuals. It is for individuals with the most significant disabilities for whom competitive employment has not traditionally occurred; or for whom competitive employment has been interrupted or intermittent as a result of a significant disability. The Department's goal is to implement Supported Employment pilot projects (SAMHSA/Evidenced Based Practices model), provide training in the model, and evaluate the effectiveness of the projects.

Target Group: Adults with a serious mental illness; many of the clients may also have a co-occurring disorder related to substance abuse.

Resource Allocation: This program funded through the federal CMHC block grant and the Alaska Mental Health Trust Authority and is an Evidenced Based Practice (EBP) that is outcome based on scientific evidence to promote recovery and self-sufficiency to this population.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 and AS 47.30.540.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Therapeutic Court

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 29.010-940 State Standards for Alcoholism in Programs and 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: Close coordination with the drug court team, timely provision of assessments that are age, gender, developmentally and educationally appropriate; referrals for families; provision of intensive outpatient and/or outpatient treatment utilizing evidence based best practices for defendants that are referred by the drug court; identification of family issues in clients' treatment plans; provision of evidence based parenting curriculum; assistance to family members in accessing treatment, education or self-help groups; ongoing communication with the drug court team and assurance that those completing treatment have adequate and appropriate levels of continuing services and support.

Target Group: Program will serve individuals residing in the Anchorage service area who are referred by the Anchorage Felony/DUI Court and focuses on a very high risk population of chemically dependent clients.

Resource Allocation: Resources are intended to support statewide services.

Criteria: Over a decade of research indicates that therapeutic court reduces crime by lowering re-arrest and conviction rates, improving substance abuse treatment outcomes, and reuniting families, and also producing measurable cost benefits. The Anchorage Therapeutic court caseload is high volume, referring 20 or more individuals per month for treatment services.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Therapeutic Justice Support

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Therapeutic courts seek to solve underlying problems that generate repeated encounters with the criminal justice and behavioral health systems. Combining behavioral health services with the coercion and structure of the justice system can break the pattern of recidivism that normally occurs for those offenders who end up being incarcerated.

Target Group: Services support therapeutic justice throughout Alaska's Criminal Justice System in developing, implementing and significantly expanding therapeutic court for substance abusing offenders throughout the state.

Resource Allocation: Statewide

Criteria: Provide support to both the therapeutic court teams as well as the participants by coordinating with other agencies to arrange training and provide scholarships to team members in order to maximize the use of available resources.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

RDU: Behavioral Health

Trauma Informed Training for Behavioral Health Providers

Authority: AS 47.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: This program will implement a specialized trauma informed curriculum to assure that the community based behavioral health providers integrate an understanding of trauma into their programs and approaches. The program will implement both a training, mentoring and ongoing coaching model that helps to imbed these newly learned skills into the "trainee agency" and supports them through their transition.

Target Group: Behavior health providers who serve clients with trauma.

Resource Allocation: Resources are intended to support statewide services.

Criteria: Must be a provider with more than four years of experience in the development and implementation of Trauma Informed Care and Treatment.

Appropriation:

Finance and Management Services**Community Initiative Matching Grants**

Authority: 7 AAC 78, Grant Programs

Priorities: This program provides for essential human services to be delivered in locales not eligible for the Human Services Community Matching Grants, i.e., Fairbanks North Star Borough, Matanuska-Susitna Borough, and the Municipality of Anchorage. AS 29.60.650 defines essential human services as social services (AS 47.75.060) which, if not available, would subject those in need to serious mental or physical hardship.

Target Group: The target population consists of families and individuals in need of essential human services.

Resource Allocation: Resources are allocated regionally in proportion to population, and excluding the communities and populations eligible for services through the Human Services Community Matching Grants. Regional allocations, based upon 2009 population data from the Department of Labor, are as follows:

DHSS Service Regions I and IV combined, 18.6%

DHSS Service Regions II and III combined, 9.6%

DHSS Service Region V, 28.1%

DHSS Service Regions VII and VIII combined, 12.7%

DHSS Service Region IX, 31.0%

Criteria: Grantees are community-based, qualified applicants able to provide direct services at minimal administrative cost. The FY12-14 program introduces two changes to this competitive program: A match requirement of 15% of the project total is applied. Projects to provide basic services (homeless shelters; soup kitchens; food banks; non-residential emergency shelters; homeless outreach/find programs; and distribution centers for such essential items as medical and transportation vouchers, cold weather outerwear, and sleeping bags and blankets) are favored.

Appropriation: Grant funds are appropriated to the Department of Health and Social Services.

Finance and Management Services

Human Services Community Matching Grants

Authority: Authority for these grants derives both from AS 29.60.600-650, Human Services Community Matching Grants and 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The provisions of AS 29.60.600 - 620 mandate that these grants be used for essential human services. AS 29.60.650 (1) defines essential human services as follows: Essential human services and services have the meaning given social services in AS 47.75.060 except that they include only services whose unavailability would subject persons needing the services to serious mental or physical hardship.

Target Group: The geographical areas that currently qualify under AS 29.60.600 are the Municipality of Anchorage, the Matanuska-Susitna Borough and the Fairbanks North Star Borough. Target groups are persons in need of essential human services.

Resource Allocation: The amount allocated for this program is appropriated annually by the Alaska Legislature and allocated according to the most recent population figures, certified annually by the Department of Commerce, Community & Economic Development.

Criteria: The Human Services Community Matching Grants are designated grants to municipalities with a population base minimum required for participation in this program. Applications are due from eligible municipalities prior to October 1st of the preceding year.

Appropriation: Grant funding is appropriated to Finance and Management Services.

Juvenile Justice

Enforcing Underage Drinking Laws

Authority: AS 47.05.010(7) Duties of the department - Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; AS 47.14.010(6) General Powers over Juvenile Institutions; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The program's priority is to support a reduction in underage drinking. The method of accomplishment is to educate and mobilize youth in addressing underage drinking; including training of youth on state and federal policy with respect to underage drinking, environmental prevention strategies, media literacy and advocacy; and peer mentoring.

Target Group: EUDL projects will target youth under the age of 21 with services to be delivered in Nome and on a statewide basis.

Resource Allocation: Resources are allocated based on a demonstration of need, program capacity, and level of youth-led involvement.

Criteria: Prior experience in youth education and mobilization specific to underage drinking is preferred. Mobilization plans are not limited to but consideration of services should include development of statewide media campaigns; in-school peer presentations, community presentations, and a cooperative working relationship with the Department of Public Safety, Alcohol Beverage Control Board investigators.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Juvenile Justice**Enforcing Underage Drinking Laws in Bethel**

Authority: AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The program's goal is the development of a program aimed at reducing underage drinking: Enforcing Underage Drinking Law (EUDL). The coordination and implementation of the EUDL program in Bethel will focus on support of the Bethel Community Diversion Panel.

Program services will focus on education and mobilization of youth to address underage drinking. Education will include training of youth on media literacy and advocacy, state and federal policy with respect to underage drinking, environmental prevention strategies, and peer mentoring. Mobilization of youth will include: 1) in-school peer presentations about the effects of alcohol and the risks youth take in soliciting adults for alcohol; 2) community presentations about the effects of alcohol on youth; and 3) the development of a media campaign emphasizing a) social responsibility and liability of parents/adults providing alcohol to minors and b) peer-directed advertising addressing risks youth take in accepting alcohol from adults.

EUDL Program services will provide for the management of minor consuming alcohol (MCA) and minor in possession (MIP) cases from referral to completion. This grant supports the Bethel Community Diversion Panel which receives referrals from District Court for youth who have MCA charges.

Target Group: The program's target population consists of Bethel-area youth under the age of 18.

Resource Allocation: A need for services was identified in Bethel by community members and more than 10 local agencies, resulting in services to be provided through a single local agency working directly with the Bethel Community Diversion Panel.

Criteria: The agency must have prior working knowledge of the current Bethel Community Diversion Panel. Additionally, all cases handled by youth courts must be congruent with statutory authority, specifically AS 04.16.050(b)(1) and AS 47.12.400.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Enforcing Underage Drinking Laws Pilot Project

Authority: AS 47.05.010(7) Duties of the Department - Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; AS 47.14.010(6) General Powers over Juvenile Institutions; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The program's priority is to support a reduction in underage drinking. The method of accomplishment is to educate and mobilize youth in addressing underage drinking; including training of youth on state and federal policy with respect to underage drinking, environmental prevention strategies, media literacy and advocacy, and peer mentoring.

Target Group: EUDL projects will target youth under the age of 21 with services to be delivered in Selawik and St. Michaels.

Resource Allocation: Resources are allocated based on a demonstration of need, program capacity, and level of youth-led involvement.

Criteria: The intent of this pilot project is based on community needs to combat underage drinking. The Department will work closely with the tribal governments through the process from the solicitation for applications to the closeout of the grant. Focus will be on education and mobilization of youth to address underage drinking through the development of innovative programs to prevent underage drinking in these communities. Examples include in-school peer presentations, community presentations and media campaigns.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Juvenile Justice

Federal Formula Native American Pass-Through Grants

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The Division of Juvenile Justice receives and administers the Formula Grant through the Juvenile Justice and Delinquency Prevention Act of 1974 (JJDP Act). The priority is compliance with the JJDP Act's four core mandates: de-institutionalization of status offenders; sight and sound separation of juvenile and adult offenders; removal of juveniles from adult jails and lockups; and addressing disproportionate minority contact with the juvenile justice system.

Target Group: The target group is delinquent youth offenders or youth at risk of becoming delinquent.

Resource Allocation: The proportion of funds to be made available to eligible tribes or Alaska Native non-profit corporations is based on the proportion of the state youth population under age 18 residing in the geographic area in which the tribe performs law enforcement functions.

Criteria: Eligibility for these non-competitive grants is limited to Alaska Native organizations that provide law enforcement functions. The organizations must be in compliance with the four core mandates of the JJDP Act and must identify the juvenile justice needs to be served by the funds.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Juvenile Justice**Federal Formula Non-Secure Attendant Care Shelter Program**

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The Division of Juvenile Justice receives and administers the Formula Grant through the Juvenile Justice and Delinquency Prevention Act of 1974 (JJDP Act). Formula Grant funds support a variety of grant programs that assist the State in maintaining compliance with the core requirements of the JJDP Act; i.e., de-institutionalization of status offenders, sight and sound separation of juvenile and adult offenders, removal of juveniles from adult jails and lockups, and addressing disproportionate minority contact with the juvenile justice system. Non-secure attendant care shelters assist the State in complying with the first three mandates by providing short-term staff-secure placement and facilities for youth who do not require secure detention. This provides an alternative to incarceration until a parent or legal guardian can be located or until the youth can be transported to another facility.

Target Group: The target group is youth who are in need of protective custody and/or youth who do not require secure detention.

Resource Allocation: Allocations are made to communities according to the service demand in each area.

Criteria: Whenever possible, applicants should be licensed youth centers. If a care facility is not available, applicants from other facilities that meet detailed service parameters established by DJJ may be acceptable.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Formula Title II Grant Program

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department; and 7 AAC 78, Grant Programs.

Priorities: The purpose of the grant is to collaborate and team with a single agency that has the cultural knowledge;community connections and expertise to enhance and strengthen the work of the Division of Juvenile Justice with Alaska Native youth, families, and communities. The grantee is to focus program services on a project that supports each participating community's unique resources and cultural values to reduce the disproportionate number of Alaska Native youth between the ages of 12-17 who come into contact with the juvenile justice system in Alaska. The grantee will also work with each participating community in the areas of program development, grant management and reporting requirements.

Target Group: This program is directed to Alaska Native youth ages 12-17 who make up a disproportionate number of youth who come into contact with the juvenile justice system.

Resource Allocation: This pilot project will be statewide with a grantee providing funds on a pass-through basis to rural communities.

Criteria: Applicants should be non-profit organizations that have the cultural knowledge, community connects and expertise to enhance and strengthen the work of the Division with Alaska Native youth, families, and communities.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Component: Delinquency Prevention

Rural Alaska Community Action Program, Inc.	Statewide	Statewide	99	Delinquency Prevention	Fed Rcpts	\$150,000
Grant Award 609-13-040 Total:						\$150,000
Program Total:						\$150,000

Juvenile Justice

Title V (Formula) Delinquency Prevention

Authority: AS 47.05.010(7), Duties of the department, services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The purpose of these grants is to support delinquency prevention and early intervention programs in communities that comply with the core mandates of the JJDP Act: de-institutionalization of status offenders; sight and sound separation of juvenile and adult offenders; removal of juveniles from adult jails and lockups; and addressing disproportionate minority contact with the juvenile justice system. This program encourages local governments and Indian tribes to perform multi-disciplinary assessments of risks and resources specific to their communities, then develop community-wide collaborative plans to prevent delinquency.

Target Group: The target group is at-risk youth.

Resource Allocation: Consideration is given for geographic distribution of services.

Criteria: Eligible entities are restricted to units of local government and to Indian tribes that perform law enforcement functions and are recognized by the Secretary of the Interior. Applicants must identify and work with the local Community Delinquency Prevention Committee and include a delinquency prevention plan that identifies the delinquency risk factors in the community. They must provide a 50% cash or in-kind match. Awards are granted based on a statewide competitive process utilizing the guidelines set out in the Request for Proposals and evaluated according to the criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Component: Delinquency Prevention

Juvenile Justice

Youth Courts/Community Panels

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The program's priorities are to prevent and control delinquent behavior, and to reduce further delinquent behavior. The means are through a broadened range of accountability-based services for youth who commit nonviolent first or second misdemeanor offenses.

Target Group: The target group is nonviolent juvenile offenders with no more than two misdemeanor offenses.

Resource Allocation: The Division seeks service delivery statewide. Resources are allocated based on demonstrated need and available data. Grant funding recommendations are made based on an equitable distribution of services throughout Alaska, taking into account the significant geographic and demographic extremes across the state. Allocations are made to communities with active youth courts/community panels, to communities developing youth courts/community panels, and to providers of training and technical assistance to existing and new youth courts/community panels programs.

Criteria: Existing providers of direct services to communities that identify a need for development of local youth courts, and community panels are eligible to submit applications. Direct services include screening, adjudication, disposition and case management. Grants to providers are awarded through competitive proposal solicitation. Project services must include the provision of training and technical assistance services, materials, and expertise on beginning and effectively maintaining a youth court or community panel.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Office of Children's Services**Alaska Transition Training Initiative**

Authority: U.S. Department of Education (DOE) funding is awarded to the Alaska Department of Education and Early Development and is passed through to the Department of Health & Social Services. Funds are awarded to a non-profit agency chosen by both Departments for the provision of services under AS 44.29 Department of Health and Social Services, AS 47.20 Special Services for Certain Children, and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The U.S. Department of Education provides funding for the training of providers who help families whose children have disabilities with transition from the home-based Early Intervention/Infant Learning Programs (EI/ILP) to the local school district or Head Start program at the age of three. Training occurs at the community level with the local school district, parent representatives, EI/ILP and other relevant health, social service and educational agencies present. The Governor's Council on Disabilities and Special Education has identified this transition as a major concern for families in Alaska.

Target Group: The target populations are children with disabilities and their families in school districts, Head Start and EI/ILP programs and other related agencies statewide. Trainings are held in communities with multiple community-based teams receiving training during the year. Follow-up and technical assistance is provided to communities trained in prior years on an as-needed basis.

Resource Allocation: A single agency is funded to provide training services statewide to all EI/ILP grantees and other local agencies on a rotating-basis.

Criteria: Funds are awarded to a single agency most capable of meeting the goals and objectives of the grant project. The grantee is chosen in a collaborative selection process by the Departments of Health and Social Services and Education and Early Development as the entity that best meets the needs of departments, the school districts, and the EI/ILP and Head Start programs for this very specific type of training.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Children's Advocacy Centers

Authority: Juvenile Justice and Delinquency Prevention Act of 1974, Public Law 93-415; AS 47.17 Child Protection, and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: This program targets Alaska's major communities for the operation of child-friendly advocacy centers to provide, using a multi-disciplinary team approach, comprehensive investigations for children suspected of having suffered abuse.

Target Group: The target group is children suspected of having suffered physical and sexual abuse.

Resource Allocation: Resource allocation will support existing child advocacy centers and provide operational funding for the formation of advocacy centers in those communities with fully-functioning multi-disciplinary teams.

Criteria: The competitive process includes evaluation based on criteria established to advance the model of a coordinated response to child sexual and physical abuse.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Early Intervention for Young Children

Authority: 9 AAC 78; 7 AAC 78 DHSS Grant Programs

Priorities: The primary program services consist of the establishment and/or continuation of early childhood mental health consultation systems to early care and learning programs and learning networks. Such systems will include consultation, professional development and technical assistance. Services will raise the level of competency within the system and improve service capacity to reach more children and families, improving long-term outcomes. Additionally, one grantee will provide the additional service of connecting and coordinating all grantees in a statewide network.

Target Group: The program's target population consists of mental health clinicians, social workers, family support workers, early interventionists, medical providers, and others working with young children at risk of severe emotional disturbances, and their families.

Resource Allocation: Resources will be evenly allocated among the program's the three service delivery areas, the regions of Anchorage, Fairbanks and Juneau, and up to three awards will be issued. Additionally, one grantee will be awarded additional funding to provide services connecting and coordinating all grantees in a statewide network.

Criteria: The competitive process is used to identify the most qualified and able proposer in each area in which services are sought.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Early Intervention/ Infant Learning Program

Authority: Federal Part C of Individuals with Disabilities Education Act (IDEA) (PL 105-17); 34 CFR Part 303 (Early Intervention Program for Infants & Toddlers with Disabilities); AS 47.20 Special Services for Certain Children; 7AAC 23 Programs for Children with Disabilities; and 7 AAC 78 DHSS Grant Programs

Priorities: The purpose of the Early Intervention / Infant Learning Program (EI/ILP) is to enhance the developmental potential of children from birth to three who experience developmental delays or are at risk for them. The program integrates the early intervention services that are crucial in the first three years of life for children with special needs.

Target Group: The program serves families of infants who experience disabilities or special needs as well as those who are at risk for developmental delays. Services are available statewide.

Resource Allocation: As required by IDEA (the Individuals with Disabilities Act), comprehensive early intervention services are to be available to eligible infants and toddlers (birth through age three) and their families in all areas of the state. The statewide Early Intervention / Infant Learning Program currently has designated 20 service areas within Alaska. Applicants base their requests for funding on the need for services in the region for which they are applying. Funding recommendations aim to promote the equitable allocation of all funds.

Criteria: Grant applications require measurable goals and objectives, the proximity of the applicant to the population to be served, and the applicant's ability to employ early intervention providers.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Emergency Shelter Services for Youth

Authority: AS 47.10.011 (Children in Need of Aid); AS 47.40.011 (Purchase of Services for Minors); AS 47.14.100 (Powers and Duties of Department Over Care of Child); 7 AAC 50.100 (Community Care Licensing); 7 AAC 50.615 (Emergency Shelter Care for Runaway Children) and 7 AAC 78 (Department of Health and Social Services Grant Programs).

Priorities: Emergency Shelter services are needed for homeless runaways and at-risk youth. Services provided will consist of basic needs and will offer help with education, employment, health services, counseling and family mediation.

Target Group: The target group is homeless runaways and at-risk youth, ages 13-20, in the Anchorage area.

Resource Allocation: The service delivery area is Anchorage.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Family Contact Services Center

Authority: AS 47.17 Child Protection; and Department of Health and Social Services Grant Regulations 7 AAC 78.

Priorities: To provide visitation and transportation services for families with children in an out-of-home placement. The visitation center provides a safe, secure and confidential supervised environment with services to enhance the child-parent relationship and support reunification.

Target Group: The target population is families in the Anchorage Region who have children in an out-of-home placement.

Resource Allocation: Due to limited resources for this program, funding is currently prioritized in the OCS Anchorage Region which has the highest concentration of children in an OCS out-of-home placement.

Criteria: Awards are funded through the competitive solicitation of Request for Proposals. Criteria includes a sound logic model and evaluation plan, qualified staffing levels, extended hours of operation and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Family Preservation

Authority: Under AS 47.10 Children in Need of Aid; AS 47.17 Child Protection; AS 47.05.010 Duties of Department (DHSS); Title IV-B Subpart 2 Sec. 430 [42.U.S.C. 629](a); 7 AAC 78 Department of Health & Social Services Grant Programs; Adoptions and Safe Families Act (ASFA 11/19/97) to protect children by preventing and remedying repeated abuse, neglect and exploitation.

Priorities: To preserve children in their homes. Services are provided to families where risk factors have been identified that could lead to the transition of children to out-of-home settings. Family Preservation Services also support the reunification process for families where there has been an out-of-home placement.

Target Group: Referrals will come exclusively from the Office of Children's Services, who will have a case open for in-home services. Services will be provided to families with children where there has been a determination of high risk or safety threats present. Each member of the family should be considered when coordinating services, with special attention given to young children ages birth to three years.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Family Support

Authority: Under AS 47.10 Children in Need of Aid; AS 47.17 Child Protection; AS 47.05.010 Duties of department (DHSS); and 7 AAC 78 Department of Health & Social Services Grant Programs; Federal Title IV-B Subpart 2 Sec. 430 [42.U.S.C. 629](a); Adoptions and Safe Families Act (ASFA 11/19/97) to support the development of community-based services that are prevention-oriented.

Priorities: Family Support services are community-based services that promote the safety and well being of children and families. The focus of the program is on primary and secondary prevention for young parents and families with children age birth to 12 years. Services will be provided to families with children where there have been allegations or concerns of child abuse or neglect that does not meet the safety threshold to require an Office of Children's Services' safety intervention, but the family needs supportive services to prevent future risks to child and family safety.

Target Group: The priority population is children referred by the Office of Children's Services who are at risk of child abuse or neglect and/or at possible risk of out-of-home placement.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Intensive Family Preservation Services for Youth at Risk of Experiencing SED

Authority: Under the authority of 7 AAC 78 and AS 47.05.011, AS 47.10 Children in Need of Aid; and AS 47.17 Child Protection. AS 47.05.010 Duties of Department (DHSS); Title IV-B Subpart 2 Sec. 430 [42.U.S.C. 629](a); 7 AAC 78 Department of Health & Social Services Grant Programs; Adoptions and Safe Families Act (ASFA 11/19/97) to protect children by preventing and remedying repeated abuse, neglect and exploitation.

Priorities: To keep children safe, enhance the parent's protective capacities, and achieve permanency and child well-being.

Target Group: Services to families with children who are at risk of or experiencing Severe Emotional Disturbance (SED). Referrals will come from the Office of Children's Services (OCS) or the Division of Juvenile Justice (DJJ), who may not have an open case of legal custody. Referrals may also come from a Behavioral Rehabilitative Services (BRS) provider or a Residential Psychiatric Treatment Center (RPTC) that is currently treating a child already placed in an out-of-home setting.

Resource Allocation: The intent is to fund one project in Juneau or Fairbanks.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100

Appropriation: Grant funding is from State Mental Health Trust funds

RDU: Children's Services

Mentorship for Independent Living

Authority: Independent Living program AS 47.18.300 and 7 AAC 53.350, 7 AAC 78

Priorities: The program's priority is to provide mentorship services by providing mentors for eligible youth. Mentors will work with foster youth both in and out of OCS custody, supporting their individual needs as described in their personalized case plans as they transition out of foster care.

Target Group: The program's target group are those foster youth throughout Alaska, ages 16 1/2 to 21, both in and out of OCS custody.

Resource Allocation: Resources will be allocated for a single award.

Criteria: The competitive process will identify the agency best able to provide mentorship services to the target population in a number of communities.

Appropriation: Grant funds are appropriated to the Office of Children's Services.

RDU: Children's Services

Authority: AS 25.23.100 - AS 25.23.150 (Adoption); AS 47.10.080 - AS 47.10.088 (Children in Need of Aid); and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The priority is to provide completed adoption and guardianship homestudies for children in the custody of the Office of Children's Services (OCS), as no adoption or guardianship can be finalized without an approved homestudy on the adoptive or guardianship family.

Target Group: The target group consists of children with permanency goals of adoption or guardianship.

Resource Allocation: Statewide service delivery is provided on a regional basis through each of the four OCS regions. Funding levels by region are based upon current utilization and need.

Criteria: Grantees have demonstrated coordination and collaboration with tribal agencies is a requirement given historically high numbers of adoption or guardianship referrals for children residing with relatives and/or tribal families.

Appropriation: Grant funds are appropriated to the Office of Children's Services.

Office of Children's Services**Residential Care for Children and Youth**

Authority: AS 47.40.011 (Purchase of Services for Minors); AS 47.14.100 (Powers and Duties of Department Over Care of Child); AS 47.10 (Children in Need of Aid); AS 47.12 (Delinquent Minors); 7 AAC 50.100 (Community Care Licensing); 7 AAC 78 (DHSS Grant Programs); and 7 AAC 81 (Grant Services for Individuals).

Priorities: The program's priority is to provide for the protection and treatment of children who are victims of child abuse and neglect, as well as to rehabilitate juvenile offenders. Priorities are achieved through programs that include emergency shelter services, 24/7 staffing and care specific to the needs of the child or youth, residential diagnostic treatment, and residential sex offender treatment. Services achieve immediate and long term interventions for the child, youth and family; promote the preservation, rehabilitation, and reunification of families to the extent possible; and promote independence and the use of least restrictive alternatives. A major emphasis is to provide Behavioral Rehabilitation Services (BRS) to children in their own communities whenever possible.

Target Group: The program's target group consists of children who are victims of child abuse and neglect, and also juvenile offenders.

Resource Allocation: Grant awards are allocated for foundational funding to ensure space availability for residential care for OCS, DJJ and BTKH clients in specific numbers in communities across the state. Grant funds are coupled with Provider Agreements with awarded agencies to provide Behavioral Rehabilitation Services on a fee-for-service basis, with fees paid based on the level of care provided (Level II - Emergency Shelter, Level III - Specified Residential Treatment, Level IV - Residential Diagnostic Treatment) and applying a geographic cost differential where applicable.

Criteria: Facilities operating under this grant program are required to be in compliance with the 2010 Behavioral Rehabilitation Services Handbook and State licensing requirements following AS 47.32 (Centralized Licensing and Related Administrative Procedures) and 7 AAC 50.005 - 7 AAC 50.990 (Community Care Licensing).

Appropriation: Grant funds are appropriated to the Office of Children's Services.

Residential Care for Children and Youth Training Program

Authority: AS 47.10 (Children in Need of Aid); AS 47.12 (Delinquent Minors); AS 47.14.100 (Powers and Duties of Department Over Care of Child); and 7 AAC 78 (DHSS Grant Programs).

Priorities: This program's priority is to provide training for statewide residential child care staff in order to increase skill and knowledge of front line staff. Priority components of the training include: 1) training specific to the needs of the provider including "core " training curriculum and specialized training as needed; 2) oversight of the web-based learning system (that provides at-will training in compliance issues, clinical issues, and general training associated with working with children and adolescents); 3) training in new and promising practices and 4) organization support for providers with specific issues.

Target Group: The program targets residential child care providers, with a particular emphasis on training to line staff providing direct services to children.

Resource Allocation: A single award will be issued following a competitive solicitation process.

Criteria: Criteria for award include a special expertise in the field of training for residential child care staff and an ability to deliver services statewide.

Appropriation: Grant funds are appropriated to the Office of Children's Services

Resource Family Training

Authority: Federal Title IV B, Sub-part II; Federal Title IV-E training; AS 47.32.030 (E) Powers and duties of the department, delegation to municipality; 7 AAC 50.250 Orientation and training; 7 AAC 78 DHSS Grant Programs

Priorities: The program's priority is to train and support a continuous pool of safe, trained, and culturally appropriate families with which to place children in OCS custody. The program provides accessibility to the minimum annual training required by 7 AAC 50.250(g).

Target Group: The program's target populations are Alaska's potential and current Resource Families; i.e., those providing foster care and/or pursuing adoption of children under OCS custody in out-of-home placement.

Resource Allocation: Resources allocated by way of a single award to a provider of statewide services.

Criteria: The competitive process will identify the eligible proposer most qualified to provide training to urban and rural resource families.

Appropriation: Grant funds are appropriated to the Office of Children's Services.

Rural Social Service Program

Authority: AS 47.05.010 (Duties of Department), AS 47.10 (Children in Need of Aid); and 7 ACC 78 Department of Health & Social Services Grant Programs

Priorities: The Rural Social Services Program is designed to help children and families living in rural Alaska who are at risk for out-of-home placement and children who have been removed from their home setting. The Rural Social Service Program provides child abuse prevention and support services to families at risk of entering into OCS custody and coordinated case management services to families and children who are involved in the OCS system.

Target Group: The priority population for services is families referred by Office of Children's Services (OCS) with children who are in an out-of-home placement. Services will be provided to families with children where there have been substantiated allegations of child abuse or neglect that require an OCS safety intervention and continued efforts to reunify.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Services for Adoption Support

Authority: Federal Title IV B; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program's priority is to provide pre- and post-adoption support to a continuous pool of safe and culturally appropriate families in which to place children in Office of Children's Services' custody. Services will provide a continuum of preparation and support for families who adopt or become the legal guardian of a child.

Target Group: The target population includes all referred pre- and post-adoptive or guardianship families residing in the state of Alaska, regardless of race, ethnicity, language, or disabilities.

Resource Allocation: Resources will be allocated to a single grantee providing services statewide.

Criteria: Through the competitive process, the grant will be awarded to the applicant agency best able to provide services to potential and current resource families pursuing adoption.

Appropriation: Grant funds are appropriated to the Office of Children's Services

Time Limited Family Reunification

Authority: AS 47.10 Children in Need of Aid; AS 47.17 Child Protection and 7 AAC 78 Department of Health & Social Services Grant Programs; Title IV-B Subpart 2 Sec. 430.[42.U.S.C. 629](a) to develop and establish, or expand and to operate a program of family preservation services, community-based family support services, time-limited family reunification services, and adoption promotion and support services. Adoptions and Safe Families Act (ASFA 11/19/97) ASFA amended Title IV-B subpart 2 by adding two new services: Time Limited Family Reunification Services and Adoption Promotion and Support Services.

Priorities: To support the transition of children from out-of-home settings; provide ongoing family contact and transportation services for families; and facilitate the reunification of the child with their biological parent(s).

Target Group: The priority population for services is families, referred by Office of Children's Services, with children who are in an out-of-home placement. Services will be provided to families with children where there have been substantiated allegations of child abuse or neglect that require an OCS safety intervention and continued efforts to reunify.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Awards are funded through the competitive solicitation of a Request for Proposals. Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Public Assistance**Alaska Affordable Heating Program**

Authority: State Authority: AS 47.25.621-625 Alaska Affordable Heating Program; AS 47.25.626 Regional Heating Assistance Program; 7 AAC 44 Heating Assistance Programs; and 7 AAC 78 DHSS Grant Programs. The program was renamed ALASKA AFFORDABLE HEATING PROGRAM in 2010. Prior to that time, the program was known as the Alaska Heating Assistance Program (AKHAP).

Priorities: The federally funded Low-Income Home Energy Assistance Program (LIHEAP) serves households with incomes up to 150% of the federal poverty level. The Alaska Affordable Heating Program (AKAHP) expands those services to include Alaskans with incomes up to 225% of the federal poverty level, and also supplements existing LIHEAP funding. AKAHP grants augment programs in those regions currently served by Alaska Native organizations that are operating a federally approved LIHEAP program. Families and individuals residing in areas not served by AKAHP grants may apply directly through the Division of Public Assistance.

Target Group: Funds are used to provide assistance to Alaskan residents who do not qualify for the Low-Income Home Energy Assistance Program (LIHEAP), with incomes of 150% to 225% of the federal poverty level. Funds may also be used to supplement existing LIHEAP funding.

Resource Allocation: Resources are allocated on the basis of the estimated cost of services per region, which are adjusted annually based on: the number of qualifying agencies and their successful delivery of benefits with the LIHEAP and AKAHP programs; the current available funding, and the eligible population in the areas served. Grantees distribute AKAHP funding in a manner that is consistent with their federal LIHEAP plan.

Criteria: The granting authority restricts eligible applicants to entities that are: 1. An Alaskan Native Organization, and 2. that currently administer a federal LIHEAP program. All eligible entries are invited to participate on an annual basis. If an eligible entity declines to participate, the Division of Public Assistance administers the program in the entity's service area.

Appropriation: Funding is appropriated by the Division of Public Assistance.

Public Assistance**Alaska Food Coalition Program**

Authority: State Authority: AS 47.27 Alaska Temporary Assistance Program and 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The Alaska Food Coalition provides Food Stamp, Senior Benefits and Alaska Temporary Assistance Program outreach. Outreach activities take place primarily at locations with emergency food distribution, grocery stores, and senior centers. Activities include providing information to potentially eligible, low income persons and families about the benefits of the Food Stamp, Senior Benefit, and Temporary Assistance Programs, screening for eligibility, providing assistance with completing applications, and providing materials to assist applicants with gathering eligibility documentation. The Coalition also procures food and other needed commodities for distribution through any qualified organization with 501(c)(3) status, and works directly with non-profit, faith based and state agencies to help feed hungry Alaskans in need. Efforts continue year-round, however a special effort is made during the holiday season to provide for the nutrition of needy Alaskan families begin with the "Thanksgiving Blessing" and continue through New Year's, providing for the purchase and distribution of food and commodities directly to support needy families during this special time of year. The Coalition is also partnering with University of Alaska Fairbanks, Cooperative Extension Services in supporting Food Stamp Nutrition Education efforts.

Target Group: The target group is low income individuals and families in need of emergency food programs. The National Center for Educational Statistics notes that 1 of every 7 children in Alaska lives in poverty. There are over 200 communities that benefit from the Alaska Food Coalition Campaign.

Resource Allocation: Funds are provided to a single statewide organization to deliver food and other commodities, as well as coordinate and perform Food Stamp, Senior Benefits and Alaska Temporary Assistance Program outreach activities. Food is distributed throughout the state by smaller food banks and food pantries as distribution centers, using population and poverty levels as a guideline to target those in need.

Criteria: The grantee must have an established infrastructure, and statewide networking capabilities that leverages resources already in place and substantially increases the effectiveness of the effort supported by available funds.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Priorities: Within their designated areas, these grantees verify and evaluate information supplied by child care providers and families seeking to participate in the Child Care Assistance Program. Services include: conducting program eligibility determinations, issuing child care authorizations, and monitoring compliance with program requirements.

Target Group: Services are provided for low income working families and child care providers interested in participating in the Child Care Assistance Program.

Resource Allocation: Allocation of funds is based on anticipated demand for services, projected costs of providing the services, and availability of funds.

Criteria: Grants are awarded statewide to eligible local government and nonprofit agency applicants.

Appropriation: Funding is appropriated to the Division of Public Assistance.

Child Care Licensing

Authority: State Authority: AS 47.32.010(b)(3) Centralized Child Care Facility Licensing; AS 47.32.030 Powers of the Department, Delegation to Municipality; 7 AAC 41 Child Care Assistance Program; 7 AAC 41.015 Responsibilities of Designees; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Within the Municipality of Anchorage, the grantee verifies and evaluates information supplied by child care providers seeking to obtain a child care license. Services include: processing licensing applications, coordinating orientation and training sessions for new providers, reviewing screening assessments, monitoring compliance with program requirements, issuing child care licenses, responding to complaints, and managing hearings.

Target Group: Child care providers within the Municipality of Anchorage.

Resource Allocation: Allocation of funds is based on anticipated demand for services, projected costs of providing services, and availability of funds.

Criteria: This grant is awarded to a municipality that has been delegated child care licensing authority in statute.

Appropriation: Funding is appropriated to the Division of Public Assistance.

Child Care Resource and Referral

Authority: Federal Authority: 42 USC 9801 Child Care Development Grants; PL 104 193 Personal Responsibility and Work Opportunity Reconciliation Act; 45 CFR Parts 98 and 99 Child Care Development Fund
State Authority: AS 47.25.001(b)(2) Delegation of Child Care Duties; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Grant program services are designed to improve the quality and availability of child care. They include support for families through the operation of child care referral and consumer education services; and support existing and prospective programs that care for and educate young children through professional development and assistance to child care providers.

Target Group: Services are provided for families seeking child care and child care providers.

Resource Allocation: Funds are allocated for a single statewide program to a single grantee supervising three regional offices in Anchorage, Fairbanks and Juneau; and serving a minimum of five additional outreach communities with local representatives; as well as creating and maintaining a statewide website, a statewide newsletter with regional inserts and a statewide database for child care referrals.

Criteria: Applicants for this grant program are required to substantiate a minimum of three (3) years successful experience with regional and statewide planning efforts in working on child care issues and program development. Required experience includes working collaboratively with existing child care programs, families, community organizations, businesses, universities, and health care providers; working with low-income families, families of children with special needs and with cultural minority populations. Required experience also includes providing training to adult learners from diverse backgrounds.

Appropriation: Funding is appropriated to the Division of Public Assistance.

Public Assistance**Commodity Supplemental Food Program**

Authority: Federal Authority: 7 CFR Part 247 Commodity Supplemental Food Program (CSFP)
State Authority: CSFP State Plan; and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: Commodity Supplemental Food Program (CSFP) grants fund local administration of the CSFP program, which increases the access to nutritious foods, increases food security, and provides nutrition education to low income women, infants, children and seniors. This goal is in compliance with federal and state regulations and policies. The relative need among geographic areas and populations for expanding or providing services is evaluated by determining the percentage of eligible women, infants, and children whose income is below 185% of federal poverty guidelines and seniors whose income is 130% of the federal poverty level.

Target Group: The population targeted are income-eligible pregnant, breast-feeding, and up to one year postpartum women; infants and children up to 6 years old; and seniors over the age of 60.

Resource Allocation: Because of the limited funding this program is restricted to the most heavily populated areas within the state. USDA provides funding to Alaska DHSS DPA to distribute among grantees. Grantees order, house, and package the commodity foods for local partner agencies throughout the state.

Criteria: Grantees must have the capability to warehouse commodity foods shipped directly from the USDA, package foods into individual monthly allotments, distribute foods to certified program participants, or box foods and transport to distribution sites. These grants are evaluated with the requirements of 7ACC 78.100.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Families First Work Services**

Authority: AS 47.27.005 Duties of the Department; AS 47.27.030 Family Self-Sufficiency Services; and 7 AAC 78 Grant Programs

Priorities: PROGRAM GOAL - The goal of the Alaska Temporary Assistance program is self-sufficient families.

OUTCOMES - Positive outcomes for families served by Families First Work Services include:

1. Close their ATAP case due to earned income and employment;
2. Successful move to Work First Services track and because they have become job-ready and are prepared to successfully look for and accept employment;
3. Getting a job and maintaining employment;
4. Increased hours of participation in countable work activities and activities that support family health, safety, and wellness;
5. Improved health, safety and stability for families with multiple DHSS agency involvement; and,
6. Removal of the parent from the ATAP case due to a disabled parent receiving Social Security benefits.

Target Group: The families targeted by Families First Work Services (FFWS) are those who don't fit into Work First Services, and include families who are exempted from work activity for more than three months, and/or have multiple agency involvement, and/or are unemployed and/or have received more than 48 months of assistance. Some families experience multiple and profound challenges to self-sufficiency that may be best addressed with more intensive services. Evidence and experience demonstrates that many ATAP families are involved with other state and local social services agencies, and who are at risk of long-term reliance on welfare due of the very circumstances that cause them to access multiple state and community resources for help. Additional research demonstrates that a parent's success in the workplace is heavily dependent on the overall health and stability of the entire family.

Resource Allocation: The program funds three grants in the Anchorage, Matanuska-Susitna, and Southeast Alaska regions, as defined by Division of Public Assistance Regional Map, with resources awarded proportionately to the size of the estimated eligible population. There are two federally recognized Native Alaskan Tribes in Anchorage and Southeast Alaska serving all qualified Native Alaskan clients separately under the Native Family Assistance program .

Criteria: The Federal Performance standards for Work Mandatory Families are 50% all Family participation and 90% Two-Parent participation. While DPA anticipates that some families will not engage in federally defined countable hours or full time hours, Families First Work Service grantees will support and engage clients in the highest level of appropriate activities that will result in reasonable progression towards success or achieve Family Self-Sufficiency. The grantee's internal case file review along with the DPA case file reviews and DPA's quarterly review process will be used to determine client progress toward self-sufficiency. Information is gathered for analysis through data that is entered into DPA's Case Management System (CMS).

Appropriation: Funds are appropriated to the Work Services component of the Division of Public Assistance.

Public Assistance

Gambell Job Center Child Care

Authority: Federal Authority: 42 U.S.C. 601 Grants to States for Aid and Services to Needy Families with Children and for Child Welfare Services; PL 104-193 Personal Responsibility and Work Opportunity Reconciliation Act.
State Authority: AS 47.27.005-990 Alaska Temporary Assistance Program; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The purpose of this grant is to provide short-term, safe, healthy, and developmentally appropriate child care services to families using the services of the Gambell Job Center. The program also provides parenting information and an environment where quality child care practices can be modeled for parents who use the facility. Additional services include providing parents with consumer information that promotes informed early care and education choices, and a connection to the local child care resource and referral office for additional child care referral services.

Target Group: The target group includes children of Alaska Temporary Assistance Program (ATAP) recipients, ATAP applicants, and others using the services of the Gambell Job Center in Anchorage.

Resource Allocation: Allocation is based on the availability of funds, the projected child care needs at the Job Center, and the anticipated costs of providing this service.

Criteria: Applicants were required to submit specific documentation as evidence of their ability to provide the requested services. Grant proposals are evaluated by the criteria contained in 7 AAC 78.100 and by compliance with service standards.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Native Employment Work Services**

Authority: Federal Authority: 45 CFR 286.5 Tribal TANF Indian, Indian Tribe and Tribal Organizations
State Authority: AS 47.27.005 Duties of the Department; AS 47.27.030 Family Self-Sufficiency Services; and 7 AAC 78 DHSS Grant Programs

Priorities: While families who receive ATAP benefits are required to plan for self-sufficiency and participate in work experience opportunities, families living in remote villages outside the central hub communities do not have access to work and work experience opportunities due to high unemployment in villages and a lack of non-profit or other venues for potential work experience placements and other “countable” activities.

To provide Native Employment Work Services, this partnership will increase opportunities for Alaska Temporary Assistance Program (ATAP) participants in remote villages of Alaska by developing work and work experience opportunities. Native Employment Work Services will provide the supports and supervision needed for participants to be successful. Native Employment Work Services staff will also provide verification of “countable” hours of activity completed by participants to ATAP Work Services case managers so they can document and report countable hours of participation to DPA. The grantee may also help facilitate getting supportive services needed by ATAP Parents to participate.

Target Group: Needy families in some areas are predominantly Alaska Native. In communities where there is not a Native Family Assistance Program (Tribal TANF) provider, the state is responsible for providing effective Work Services to needy families. This grant targets families living in remote villages without access to the necessary work and work experience opportunities.

Resource Allocation: Only Native Organizations currently operating a Native Employment Works (NEW) Program under their federally approved NEW Plan (described in 45 CFR 287) are eligible to provide these work experience services to ATAP clients and meet ACF requirements. Nome and the surrounding villages have the highest number of two-parent families in remote rural villages receiving Temporary Assistance who are not also accessing NEW Services in the state

Criteria: Eligible grant recipients must currently operate a federally approved Native Employment Works Program.

Appropriation: Funds are appropriated to the Division of Public Assistance.

Native Family Assistance Program

Authority: Federal Authority: 42 U.S.C. 601 and 612, PL 104-193; State Authority: AS 47.27.005-990 Alaska Temporary Assistance Program; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: These grantees are authorized by the federal government to administer Native Family Assistance Programs as defined by PL 104-193. Grantees receive direct funding from the federal government in the form of a Tribal Family Assistance Grant. This grant program supplements federal funds and is used by grantees to pay benefits directly to eligible Native families to assist them in moving from reliance on welfare to self-sufficiency through employment.

Target Group: The target population includes all families within the service area defined by the boundaries of each of the Alaska Native Regional Non-Profit Corporations responsible for the administration of the Program. In some areas, grantee will operate a regional program that includes all families eligible for assistance, regardless of race, when this is the most efficient approach and there is agreement between the State and the Native Organization.

Resource Allocation: Resources are allocated based on the projections of how much the division would expend in Temporary Assistance benefits for the service population covered by each Native Family Assistance Program.

Criteria: The criteria for the award of funds is that the grantee administers a Native Family Assistance Program, approved and authorized by the federal government.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Senior Farmers Market Nutrition**

Authority: Federal Authority: 15 U.S.C. 714c(e) Sec. 5(e)
State Authority: 7 AAC 78 DHSS Grant Regulations.

Priorities: Senior citizens in Alaska and the United States do not consume enough fresh fruits and vegetables. The United States Department of Agriculture's (USDA) Commodity Credit Corporation awards grant funds to provide coupons to low-income seniors that they may exchange for eligible foods at farmers' markets and roadside stands. Eligible foods are fresh, nutritious, and unprocessed locally grown fruits, vegetables, and herbs.

The Seniors Farmers' Market Nutrition Program helps to increase consumption of agricultural commodities by providing coupons worth \$25-\$50 to low-income seniors; thereby increasing consumption of agricultural commodities and expanding or aiding in the expansion or development of domestic farmers' markets, roadside stands, and individual farmers participating in the program.

Target Group: Target group and geographic areas include senior citizens, aged 60 and older, with incomes at or below 185% of poverty level, in the Fairbanks, Anchorage, and Mat-Su Valley areas. Disabled adults, under age 60 and qualified for Medicaid, are also eligible to participate in the Senior Farmers Market Nutrition Program.

Resource Allocation: This program is restricted to the portion of the state that farms fresh produce: Anchorage, Mat-Su Valley, Kenai, Fairbanks, and other areas that have access to these local farm resources. Funding for these awards is based on the anticipated coupon redemption by participating senior citizens and payment is made to grantees on a reimbursement basis.

Criteria: Grantees are awarded grants to pay farmers involved in this program for redeemed coupons. No administrative funding is provided. Grantees are limited to those agencies willing to provide personnel and outreach for the program. Funding is dependent upon award to the department from the United States Department of Agriculture, Commodity Credit Corporation.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Special Supplemental Nutrition Program for Women, Infants and Children (WIC)**

Authority: Federal Regulations - 7 CFR Part 246; Annual WIC State Plan; and 7AAC 78 DHSS Grant Regulations

Priorities: Women, Infants and Children (WIC) grants fund local WIC programs, which provide supplemental nutritious foods to alleviate specific health problems to low income women, infants and children. The relative need among geographic areas and populations for expanding or providing services is evaluated by determining: 1) the incidence of low birth weight among newborn infants; 2) the rate of infant mortality; 3) the percentages of births to women under 19 years of age; 4) the rate of participation in the Food Stamp Program; 5) the rate of employment; and 6) the percentage of people whose income is below 185% of federal poverty guidelines. Families enrolled in Denali Kid Care with incomes above 185% of the federal poverty level are adjunctively WIC income-eligible.

Breast Feeding Peer Counseling services are funded as secondary grants through the WIC program to support Peer Counselors recruited, trained and hired from WIC's target population of low-income women to help reinforce breastfeeding recommendations in a socially and culturally appropriate context, and promote breastfeeding as an important element in the healthy development of the mother and baby. Peer counselors address the barriers to breastfeeding through breastfeeding education, support and role modeling.

Target Group: WIC programs statewide serve pregnant women, breast-feeding women, and postpartum women, and infants and children up to 5 years old at nutritional risk. Participation data is collected and reports are generated and maintained on the number of women, infants and children served.

Resource Allocation: The first priority for funding is for the continuation of services to enrolled families. Criteria include: staff needed to provide program services; number of satellite clinics; other program expenditures; and in-kind contribution/resources available to the local agency. Budgets are calculated through a funding formula based on caseload and considered individually in order to ensure equity.

Criteria: Grant applications for both the primary WIC grants and the Breast Feeding Peer Counseling grants are evaluated for organizational capacity to provide the services to the intended population, appropriate and reasonable budgeted costs, a program plan with measurable goals and objectives, previous applicable agency experience and the qualifications of staff, and documentation of community support.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance

Transportation Services

Authority: Federal Authority: 42 U.S.C. 601, PL 104-193;
State Authority: AS 47.27.005-900 Alaska Temporary Assistance Program; and 7 AAC 78 DHSS Grant Regulations

Priorities: Accessible, reliable transportation remains out of reach for many of Alaska's Temporary Assistance Program (ATAP) clients. The Transportation Services Grant Program is designed to provide transportation supports to ATAP clients and low-income families at risk of being on assistance who need the service to pursue work and other activities that help them toward self-sufficiency. The intent of these federal grants is to promote more systematic approaches to alleviate transportation barriers by the expansion of existing, or the creation of new transportation systems.

Target Group: Alaska Temporary Assistance families who live in the Matanuska-Susitna Borough and Kenai Peninsula areas.

Resource Allocation: The division supports local transportation initiatives to meet the needs of Temporary Assistance clients for reliable transportation to access job opportunities. Resources are allocated to provide supports in the Mat-Su Borough and Kenai Peninsula areas where communities have limited resources to devote toward public transportation.

Criteria: Grant funding under this program will help to support clients in communities for which the Division of Public Assistance has determined that there is a need for affordable transportation for families unable to afford a vehicle for personal use.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

RDU: Public Assistance

Public Health

Alaska Trauma Registry

Authority: AS 18.08 Emergency Medical Services; 7AAC 26.745 Trauma Registry; 7 AAC 78 Department of Health and Social Services Grant Program

Priorities: The Alaska Trauma Registry is used for the development of injury prevention strategies statewide, injury prevention education, program planning, quality improvement efforts in hospitals and ambulance services, and to review the quality and effectiveness of the statewide trauma care system. The grantee is required to focus on recording data on injured patients admitted to a hospital and to use the data to review quality of trauma care in hospitals and ambulance services. Grant activities are administered by a single grantee.

Target Group: Grant activities are statewide, including the abstracting of trauma data at all acute care hospitals in the state. Approximately 5,000 records of hospitalized injuries are abstracted yearly.

Resource Allocation: Statewide services are provided by a single coordinating agency to include trauma data at more than 20 acute care hospitals in the state.

Criteria: The grantee must have the technology, knowledge and expertise to effectively accomplish the goals of the project.

Appropriation: Grant funding is appropriated to the Division of Public Health.

RDU: Public Health

Anchorage Project Access

Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Provides for free health care for the medically underserved in Anchorage through the creation of a comprehensive coordinated network of community partners and health care providers that donate health care services, products or funding. Patients are carefully screened for income eligibility, and cannot be eligible for other programs.

Target Group: Uninsured and underinsured healthcare patients who reside within the Municipality of Anchorage. Additionally, 10% of the specialty-care patients served by APA may be residents of other Alaskan communities where primary care physicians are to be participating in Project Access or a similar program.

Resource Allocation: A single award will be made.

Criteria: Only a single potential grantee has the knowledge, capability, or expertise to accomplish the goals of the grant project.

Appropriation: Grant funding is appropriated to the Division of Public Health.

RDU: Health Care Services

Component: Community Health Grants

Public Health**Autism Evaluation and Diagnostic Services**

Authority: 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: This program provides for the delivery of statewide pediatric neurodevelopmental evaluation and diagnostic services for autism and co-occurring neurodevelopmental and other medical needs using an interdisciplinary team model of care from an already established in-state health care agency. Specifically, the grantee will provide expanded diagnostic services through a pediatric or family nurse practitioner who will receive training in autism evaluation, diagnosis, and service delivery as part of the grant award. In addition, the grant will provide for expanded pediatric neurodevelopmental physician services for complex autism diagnoses; the addition of pediatric psychology diagnostic testing and evaluation services; the addition of occupational, physical, and speech-language assessment and evaluation services; and parent navigation services for families and children with an autism spectrum diagnoses and other co-occurring neurodevelopmental diagnoses. This project was initiated by families who currently have children with autism who participate as an autism subcommittee for the Governor's Council on Disabilities and Special Education, and in response to feedback collected as part of the Maternal and Child Health (MCH) Title V Block grant needs assessment. This project will assist in meeting the 6 core national performance measures for children with special health care needs required by the Maternal, Child and Family Health Bureau.

Target Group: Children ages newborn to five years throughout the State of Alaska. Families who experience developmental delays associated with autism spectrum disorders and other co-occurring neurodevelopmental disorders.

Resource Allocation: Available funding is provided to one agency to respond to the need for autism evaluation and diagnostic services statewide.

Criteria: To maximize the use of limited resources and efficiency of services, funds will be awarded to a single entity in the State that has established and delivered pediatric neurodevelopmental services to children using a medical model and other disciplines; and is an effective change agent/system-builder collaborating with various agencies around Alaska to assist in developing family-centered systems of care for children with disabilities and their families.

Appropriation: Grant funding is appropriated to the Division of Public Health

Children's Health Improvement Program Reauthorization Act (CHIPRA) Quality Demonstration Grant

Authority: 7 AAC 78 Grant Programs

Priorities: The State of Alaska is participating in a tri-state collaborative effort with Oregon and West Virginia on the Children's Health Improvement Program and Reauthorization Act Quality Demonstration Project. The project goals are (A) testing of federal government proposed measures of quality of children's care; (B) promoting the use of Health Information Technology (HIT) and Health Information Exchanges (HIE); (C) improving Medical Home Approaches to Child Care.

Target Group: Eligible applicants are providers serving children and adolescents (ages 0 - 21) enrolled in Medicaid and Denali Kid Care.

Resource Allocation: The service delivery area is statewide, with efforts to include participating practices representative of urban and rural, Tribal and non-tribal areas and providers.

Criteria: The Department will issue a non-competitive solicitation to this agency under 7 AAC 78.095 (a) (2) to an agency that is the most remote community health center in Alaska with both a comprehensive care model and an existing electronic health record. This agency serves as a unique opportunity to accomplish the intent of the federal grant in such a rural setting. A competitive solicitation under 7 AAC 78.050 will be issued to seek additional demonstration sites to participate in all three goals.

Appropriation: Grant funding is appropriated to the Division of Public Health.

RDU: Public Health

Public Health**Clinical Family Planning Services (Title X)**

Authority: Title X, Family Planning; AS 44.29.020 Duties of department (1) Maternal & Child Health; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Provision of clinical family planning and related preventive health services to low-income women and men in compliance with Title X policies and procedures, including determination of client eligibility and enrollment. The low cost, confidential services provided include: clinical breast examinations, Pap smear screening and pelvic examination, counseling and screening for sexually transmitted infections, and screening, counseling and provision of FDA-approved contraceptive methods and supplies. In addition to clinical services, service sites must provide counseling and education on reproductive and preventive health topics, including preconception health, use of Natural Family Planning methods, abstinence education, parental involvement in the family planning decisions of minor clients, STI/HIV prevention and risk reduction, and infertility prevention.

Target Group: Low-income women and men residing in communities with high unintended pregnancy rates; based on Alaska Pregnancy Risk Assessment Monitoring data, the Fairbanks and Kenai Peninsula borough census areas have the second and third highest numbers of unintended births in the state, respectively. Although the incidence of unintended births is higher in the Anchorage census area, non-profit and government providers in that area identify and utilize other funding sources to serve the low income population. The target group in the Kenai Peninsula Borough is further narrowed to the lower Kenai Peninsula for funding under this grant program, as communities of the upper Peninsula are served through another non-profit agency with a clinic in Soldotna (not part of this grant program).

Resource Allocation: Family planning funds are awarded to a single agency serving the target group in each area identified above.

Criteria: The family planning services provider will offer low cost, high quality clinical family planning and related preventive health services to the identified target population. The agencies will demonstrate their ability to meet all federal and state requirements for the administration of Title X Family Planning Services, while meeting program objectives as determined annually by state and federal priorities, federal legislative mandates, and key issues outlined by the Office of Population Affairs (OPA).

Appropriation: Grant funding is appropriated to the Division of Public Health.

Community Health Aide Training and Supervision

Authority: AS 44.29 Department of Health & Social Services; AS 18.28.010 Community Health Aide Grants; and 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: Services are for the training and supervision of Community Health Aides (CHAs) and Community Health Practitioners (CHPs). The training is established by and monitored by the Academic Review Committee and the Review and Approval Committee; committees established by and under the direction of the Community Health Aide Director's Association.

Target Group: CHA/Ps are located predominantly in the rural areas where more advanced medical personnel are unavailable. These grants target the CHA/Ps themselves and the rural population they serve. All regional and local health organizations that receive contract funds from the federal government for a community health aide program are eligible for funding through this program. The program provides funding for CHAs to complete approximately 2,500 training courses, including CHA training, ETT/EMT training, and continuing medical education. Additionally, CHA supervisors are expected to make over 15,000 contacts with CHAs as part of training and supervision. Finally, CHAs are expected to have close to 300,000 patient encounters during each fiscal year. These projections are based on required self-reporting.

Resource Allocation: The funding level is derived from a formula established during the 1985 legislative session. It is adjusted based on the amount of funding appropriated.

Criteria: The potential grantee must have a contract with the Indian Health Service for community health aide services.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Community Health Centers - Senior Access Program

Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The goal of the Community Health Centers Senior Access Program (CHC-SAP) is to increase the delivery of primary care to seniors (persons age 65 years & older) as provided by Alaska's Community Health Center (CHC) agencies. The funding is intended to help alleviate the strain on CHCs resulting from their provision of medical homes for seniors who have been refused care by physicians in private practice due to low Medicare reimbursement rates.

Target Group: Alaskan seniors (persons age 65 years & older) who need primary healthcare services. The proposed service delivery area is statewide, as determined by the catchment areas of participating Section 330 CHCs. Only those CHCs that receive US Public Health Service, Section 330 funds from HRSA-Bureau of Primary Health Care are eligible to receive state funding from the CHC Senior Access Program.

Resource Allocation: Funding distribution is to Alaska Community Health Centers currently receiving federal funds via the US Public Health Services Act, Section 330.

Criteria: Grantees must propose strategies to increase delivery of direct services to persons age 65 years & older, and describe the connection between their proposed activities and the increase in the delivery of direct-care services to seniors. These funds are intended to increase patient direct-services; they are not intended to increase general organizational capacity per se.

Appropriation: Funds are appropriated to the Division of Public Health.

Diabetes Prevention and Control

Authority: AS 44.29.020 Department of Health & Social Services; 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: Required services include: 1) Facilitate the development, implementation, and evaluation of evidence-based community diabetes or pre-diabetes project; 2) Support community interventions to prevent or postpone the onset of diabetes; 3) Facilitate culturally appropriate interventions to reduce the health disparities among the racial/ethnic minorities at higher risk for development of diabetes and its complications; and 4) Provide ongoing monitoring of diabetes, its risk factors, and complications.

Target Group: People with diagnosed diabetes and people at high risk of developing diabetes. Geographic areas and project boundaries are specified in the grant agreements. The potential service area is Anchorage. It is estimated that we will annually serve approximately 1,500 Alaskan adults with diabetes and another 5,000 Alaskan adults at increased risk for diabetes.

Resource Allocation: Funding levels are based on the needs experienced by, or projected for an area, federal priorities, and the amount of federal funds received.

Criteria: Applicants for grants are asked to demonstrate a history of: 1) involvement in developing/implementing community-based diabetes intervention projects; 2) providing diabetes services to minorities, medically underserved and/or elderly known to be at high risk for developing diabetes and its complications; and 3) monitoring health outcomes.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Public Health**Emergency Medical Services**

Authority: AS 18.08 Emergency Medical Services; 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The EMS grant program helps accomplish the goals and objectives of the EMS system. Services received through the grants include: 1) planning, development and coordination of regional EMS systems; 2) training and testing for EMS personnel; 3) identifying and prioritizing equipment needs; 4) assisting in EMS data collection training and activities; 5) providing injury prevention services. The seven Regional EMS Councils provide direct input regarding the needs and abilities of each respective community and region. Because the EMS system is highly complex, involving many disciplines, the EMS Regions traditionally are comprised of knowledgeable people in many different fields, from physicians and nurses to pre-hospital EMS providers and communications experts.

Target Group: Services are delivered to the state through the EMS Regions. Whenever a life-threatening injury or sudden illness occurs, the EMS system serves to stabilize and transport the patient to the most appropriate treatment facility as quickly as possible. The EMS program also provides specialized emergency medical training to physicians, mid-level practitioners, and nurses in the pre-hospital, rural clinic, and hospital settings. EMS grants train and certify approximately 4,000 pre-hospital EMS providers. These providers transport an estimated 50,000 patients to hospitals by ground ambulance and perform several thousand emergency air ambulance transports. Approximately 2,000 people are provided Emergency Trauma Technician, Cardiopulmonary Resuscitation, and first aid training each year. The EMS Regions work with local communities to identify, prioritize and seek funding for essential equipment. Finally, the EMS Regions operate injury prevention programs which provide information and materials regarding injury prevention activities to thousands of Alaskans.

Resource Allocation: Resources are allocated statewide through the Regional EMS Councils.

Criteria: Grantees are required to address nationally and state recognized components of an EMS system in terms of goals, objectives, and methodology for achieving those goals.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Healthy Start**

Authority: 7 AAC 78.050 and the Federal Public Health Service Act III, Part D, Section 330H (42 U.S.C. 254 c-8). This federal grant awarded for five years was not authorized under the Affordable Care Act of 2010.

Priorities: Women and infants in many rural areas of Alaska, where most residents are Alaska native, experience a disproportionate burden of perinatal health problems. Alaska Native women, especially those living in the northern and southwest regions of the state, are more likely to have babies that die before their first birthdays, are born preterm, or are born with FASD or a major birth defect. These women are less likely to get early and adequate prenatal care and are more likely to use tobacco (including smokeless tobacco) and alcohol during and after pregnancy, including binge drinking. They are more likely to be overweight or obese, report postpartum depression, smoke postpartum, and experience physical abuse by a husband or partner. These women and families are mostly poor and many women lack a high school education or supportive partner.

Target Group: Target populations include women and infants in the rural areas of the Yukon-Koyukuk census area, the Nome census area, the Yukon-Kuskokwim census area, and the Wade Hampton census area. The Alaska Healthy Start Program will provide outreach and home visiting services using an enhanced case management model to conduct group health education sessions, establish a consortium of local stakeholders to assure required community input and develop a local health area action plan.

Resource Allocation: Funding levels are based on and contingent upon the availability of federal grant funding and ongoing grantee performance.

Criteria: Services are provided by an agency working in one of the three communities determined to be eligible for services based on Health Start criteria including: infant mortality rate, percentage of pregnant women with anemia, percentage of pregnant women entering prenatal care in the first trimester less than 80%, and the percentage of children under 18 years with family incomes below the Federal Poverty Level exceeding 19.9% for 2000.

Appropriation: Grant funds are appropriated to the Division of Public Health

Public Health**HIV/AIDS Care/Ryan White**

Authority: Public Health Service Act, Section 317 Preventative Health Services; AS 44.29. Dept. of Health & Social Services; 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The following are required: 1) Provide case management services to persons living with HIV and their families; 2) Purchase high priority outpatient medical/dental and supportive services as well as health insurance for eligible HIV positive individuals, and purchase FDA approved medications for eligible individuals not covered by the AIDS Drug Assistance Program (ADAP); 3) Assist the States ADAP contractor with eligibility determination for the AIDS Drug Assistance Program; 4) Establish/maintain HIV Care Consortia in areas most heavily affected by HIV to determine priority services to be purchased with HIV Care funds and to facilitate access to comprehensive outpatient health and support services. Priority services are established annually, based on federal requirements and state/local needs.

Target Group: Target populations include HIV positive individuals and their families. Geographic areas and project boundaries may be specified based on morbidity and/or other needs. The potential service area is statewide. It is estimated that these funds will serve 300-375 HIV positive individuals annually.

Resource Allocation: Funding levels are determined based upon the relative number of HIV positive people projected to be served in each area, federal priorities, and the amount of federal HIV Care funds received by the State.

Criteria: Potential grantees must: demonstrate a history of providing services to persons with HIV and AIDS; identify services to be provided/purchased; specify objectives, activities, and timelines for implementation; identify evaluation mechanisms; and provide an itemized budget to address the area(s) identified in the Request for Proposals. Grantees provide quarterly progress, data and financial reports; complete federal data forms annually; and provide any specified deliverables. The Division may require changes in project activities based on project evaluation, and will develop methodologies for implementing such changes in consultation with the grantee.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Public Health**HIV/AIDS Prevention**

Authority: Public Health Service Act, Section 301, 42 U.S.C. 241 Chronic Disease Research, Control & Prevention; 2007-2009 Alaska HIV Prevention Plan; AS 44.29 Dept. of Health & Social Services Duties of the department ; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Required services include one or more of the following, depending upon the populations for which they are proposed: 1) partner notification services for newly reported cases of HIV, AIDS and STDs; 2) targeted street and community outreach; 3) community-level interventions; 4) single session group health education/risk reduction interventions in connection with HIV counseling and testing; 5) multiple session group health education/risk reduction based on curricula shown to be effective; 6) individual health education/risk reduction counseling; 7) rapid HIV testing in non-clinical settings; 8) prevention with HIV positive persons; and 9) health communications/public information activities. Priorities are established every three years by the Division of Public Health in conjunction with the Alaska HIV Prevention Planning Group, based on federal requirements and state needs.

Target Group: Priority target populations are specified in the 2010-2012 Alaska HIV Prevention Plan and include HIV positive persons, men who have sex with men, injection drug users, and heterosexual women and men. The potential service area is statewide. An estimated 10,000 Alaskans will be served through these funds annually.

Resource Allocation: Funding levels are determined based on priorities established collaboratively with the Alaska HIV Prevention and Planning Group, federal funding agency requirements, state needs, the quality of the proposed interventions, and the amount of federal funds available.

Criteria: Grantees are required to demonstrate capacity to reach the target population and carry out the activities proposed; to specify objectives, activities, and timelines for implementing interventions likely to be effective; to specify evaluation mechanisms; and provide an itemized budget to address the area(s) identified in the Request for Proposals. Quarterly progress, data, and financial reports are required along with any specified deliverables. The Division may require changes in project activities based on project evaluation, and will develop methodologies for implementing such changes in consultation with the grantee.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Public Health**Hospital Clinical Data Program**

Authority: AS 44.29.020 Department of Health & Social Services, Duties of Department, 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Funds from the Hospital Clinical Data Program support the implementation of a voluntary hospital discharge, outpatient, and emergency room data reporting system for the twenty-four acute care hospitals throughout Alaska. Data is used by the Department to assess health status and needs of the population. The grant provides the framework for establishing work plan, reporting expectations, and performance objectives.

Target Group: Twenty-four acute care hospitals that serve over 360 communities throughout Alaska.

Resource Allocation: The service delivery is statewide and will affect health care agencies, professional, and clients statewide.

Criteria: As the single statewide association of hospitals, the Alaska State Hospital and Nursing Home Association represents the state's hospitals and is uniquely situated to accomplish the goals of the grant program. The grantee's active participation in coordinating with Alaska's hospitals to encourage timely data submission and management of the contract with the data clearing house is crucial to the success of the program in Alaska.

Appropriation: Grant funding is appropriated to the Division of Public Health.

K-12 Tobacco Prevention

Authority: AS 44.29 Department of Health & Social Services; 7AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The primary objective of the K-12 Tobacco Prevention grant program is the creation, implementation, and enforcement of strong tobacco-free school policies. A comprehensive tobacco-free school policy does more than deter individual tobacco use. It benefits everyone by reducing exposure to secondhand smoke and reinforcing tobacco-free norms and attitudes. Research on youth-directed education efforts has shown that they are most successful when used in conjunction with community-wide tobacco prevention efforts such as tobacco taxation or smoke-free policies. Successful school-based tobacco prevention programs incorporate key components adapted from the Center for Disease Control (CDC) Guidelines for School Health Programs to Prevent Tobacco Use and Addictions.

Target Group: Alaska Public School Districts serving K-12 students, statewide

Resource Allocation: K-12 Tobacco Prevention grants are funded through State of Alaska Tobacco Use Education and Cessation funds.

Criteria: Grantees limited to public school districts in Alaska, with a primary program objective to 1) implement a program that incorporates the key components, adapted by the Tobacco Prevention & Control program, of the CDC's Guidelines for School Health Programs to Prevent Tobacco Use and Addiction; and 2) coordinate with the Tobacco Prevention and Control, Community Grantee in the same community as the school district, who are working on tobacco prevention in the community.

Appropriation: Grant funding is appropriated to the Division of Public Health

Medicare Rural Hospital Flexibility Program

Authority: 42 U.S.C. 1395i-45, SEC. 1820 Medicare Rural Hospital Flexibility Program, AS 44.29 Department of Health & Social Services; and 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: To provide support for the Medicare Rural Hospital Flexibility Program, specifically the program goals related to support for (1) quality improvement; (2) operational and financial improvement; and (3) health system development and community engagement. The overarching purpose of the program is to stabilize and strengthen small, rural hospitals and the health care systems in which they play a primary role.

Target Group: Hospitals and communities in rural Alaska, which serve the approximately 250,000 Alaskans who live outside of Anchorage, Fairbanks, and Juneau.

Resource Allocation: The State receives the grant from the Federal Office of Rural Health Policy, and sub grants a portion of the funds for this program.

Criteria: There is a single entity in the state that represents the state's hospitals. The grantee's active participation is identified in the federal grant criteria and in Alaska's grant application as crucial to the success of the Medicare Rural Hospital Flexibility program in Alaska.

Appropriation: Grant funding is appropriated to the Division of Health Care Services.

Public Health

Non-Marital Pregnancy Prevention

Authority: 7 AAC 78, funding is through the Division of Public Assistance, Temporary Assistance for Needy Families. Funding is not authorized through the Patient Protection and Affordable Care Act.

Priorities: In choosing their intervention, grantees considered external factors that potentially impacted non-marital pregnancy in young women, such as intimate partner violence, substance abuse and lack of services. Grantees chose from a variety of possible project implementation strategies such as abstinence primary messaging, youth leadership, substance abuse prevention, or domestic violence prevention. The intervention chosen must be sensitive to the cultural needs of the participants.

Target Group: The target audience is young women aged 15-29 years, at risk of non-marital pregnancies living in regions of the state with high percentages of numbers of non-marital births (based on Bureau of Vital Statistics data), and their parents.

Resource Allocation: Funding levels are contingent upon the availability of funding and on-going grantee performance.

Criteria: Services will be provided by partner agencies: non-profit service providers, federally designated tribal entities in Alaska, or political subdivisions of the state to implement non-marital pregnancy prevention projects working in regions of the state with high percentages or numbers of non-marital births.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Parent Navigation

Authority: 7 AAC 78 DHSS Grant Programs

Priorities: Parent Navigation services are designed to provide support and assistance to families of newborns and young children with cleft lip/palate, hearing loss or deafness, or autism and other co-occurring neurodevelopmental disorders. Services support families from the initial screening at the hospital or birthing center or a health care provider office, through the diagnostic evaluation, to assisting with treatment and payment options, as well as providing information about early intervention and available short and long term resources. Parent Navigation services ensure that: 1) all children with special health care needs have medical homes; 2) families are involved as decision-makers and partners in their child's care; 3) families are satisfied with services received; and 4) the necessary linkages with other services and resources are facilitated as needed.

Target Group: Parent Navigation Program serves Alaska families of children ages 0 to 21 years who experience a cleft lip and/or palate, hearing loss or deafness, or autism, and other co-occurring neurodevelopmental disorders. Services are available statewide through clinics held in Anchorage, Bethel, Fairbanks, and Juneau.

Resource Allocation: Available funding is provided to one agency to provide services statewide.

Criteria: To maximize the use of limited resources and efficiency of services, funds are awarded to a single entity in the state that has developed and delivered a statewide Parent Navigation Service model exclusively for medical settings; and is an effective change agent/system-builder collaborating with various agencies around Alaska to assist in developing family-centered systems of care for children with disabilities and their families.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Peer Education to High Risk Youth - Promoting Health Among Teens

Authority: 7 AAC 78 Grant Programs and Consolidated Appropriations Act of 2010 through the Patient Protection and Affordable Care Act, and the DHHS Federal Program Teenage Pregnancy Prevention (TPP): Research and Demonstration Programs and Personal Responsibility Education Program through the Office of Adolescent Health in the Office of Public Health and Science

Priorities: Peer education projects focus on teen pregnancy prevention using an abstinence primary curriculum. The projects are designed to teach high risk youth about abstinence, pregnancy prevention and STD/HIV prevention.

Target Group: Teen pregnancy risks include several adverse outcomes affecting both mother and infant. Infants born to teen mothers have a low birth weight incidence 2 times higher than adult mothers and a neonatal mortality rate 3 times higher than adult females. Teen pregnancy is also associated with several critical social issues including poverty and income.

Resource Allocation: The priority for funding is to establish partnerships with youth services providers/agencies or federally recognized tribal entities in Alaska to implement peer education for high risk youth focused on teen pregnancy prevention using an abstinence primary curriculum.

Criteria: Grant applications require description of organization, details of budget, population to be served, a pilot program plan with measurable goals and objectives, previous experience with high risk youth, and documentation of community support.

Appropriation: Grant funding is appropriated to the Division of Public Health

Public Health**Primary Prevention of Sexual Violence Grant Program**

Authority: 7AAC 78 Department of Health and Social Services Grant Program

Priorities: The Centers for Disease Control and Prevention is working to build a cadre of evidence-based practices that prevent sexual violence from ever occurring. Some examples that have proven to be effective include engaging high school students in skill-based activities that address healthy sexuality and dating relationships, helping parents to identify and address violent attitudes and behaviors in their children, creating policies at work, in schools and throughout communities that promote healthy gender roles and relationships, and using mass media messages to promote norms and shared beliefs about healthy sexual relationships. Alaska's strategic plan, adopted in June 2009, incorporates our best knowledge of the extent of the problem, as well as builds on the best evidence to date on how to address sexual violence. The program's focus is on primary prevention.

Target Group: Target populations include Alaskan youth, statewide, promoting leadership and prevention of sexual violence.

Resource Allocation: Funding is used in conjunction with other state, federal, and non-governmental sources to implement projects are contingent upon the availability of funding and ongoing grantee performance.

Criteria: The grant program provides for the delivery of statewide sexual violence primary prevention activities aligned with the statewide strategic plan under the federal Rape Prevention and Education program. The service delivery for this grant is statewide, with services provided through media, the internet, print, and centralized training venues. Specifically, this grant provides supplemental resources to increasing youth leadership opportunities through the LeadOn program, support of the multi-media campaign, Stand Up, Speak Up, training school personnel for the 4th R curriculum, and Coaching Boys to Men to Choose Respect programs.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Public Health**Public Health Nursing**

Authority: AS 44.29.020 and 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The grantees are expected to provide a range of public health nursing services to area residents with emphasis given to the areas of vaccine preventable diseases, infectious disease control, maternal child health services, and community mobilization/interagency coordination on public health emergency preparedness and response activities. Services include: infectious and chronic disease prevention and control; childhood immunizations; tuberculosis prevention and control services; sexually transmitted disease services; health risk reduction education; teen pregnancy prevention; health & development screening of high-risk children; support and case management for high risk pregnant women and children; family planning education and services; public health emergency preparedness planning and response activities; and continuous assessment and evaluation of population-based public health needs and concerns.

Target Group: Public nursing services are available to residents with medically underserved and/or high-risk populations in the following communities: Anchorage, Eagle River, Chugiak, Barrow, Kotzebue, Nome, and Unalakleet. Public nursing services are available on an itinerant basis to the villages of Atkasuk, Kaktovik, Nuiqsut, Point Lay, Wainwright, Ambler, Buckland, Deering, Kiana, Kivalina, Kobuk, Noatak, Noorvik, Selawick, Point Hope, Shungnak, Wales, White Mountain, Little Diomedede, Savoonga, Gambell, Unalakleet, Elim, Koyuk, St. Michael, Stebbins, Shaktoolik, Teller, Brevig Mission, Golovin, and Shishmaref.

Resource Allocation: Funds are awarded based on the amount of funds available from State and Federal sources. Historical allocations, division priorities, as well as the grantees request are also considered.

Criteria: These grants are awarded under 7 AAC 78.095(a). Proposals must include a detailed project description of their projects including goals, objectives, work plans, evaluation plans, as well as detailed budgets.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Public Health Preparedness and Response for Bioterrorism**

Authority: AS 44.29.020 (Department Authority); 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Organizations receiving grants will participate in development of a statewide assessment of needs, communication plans and targeted communication strategies. Services provided will increase preparedness for and response to bioterrorism, outbreaks of infectious disease, and other public health threats and emergencies with three specific areas of focus.

The Alaska Native health system focus will develop a plan describing the role of the Alaska Native health system in a bioterrorist attack; ensure Native health system issues and resources are identified in and coordinated with the State of Alaska plans; promote participation of the Native health system organizations and personnel in preparedness training, and federal drills and exercises; and surveil for key infectious disease syndromes.

The greater Anchorage area focus will enhance direct surveillance activities; increase capacity for planning and coordinating activities, including pharmaceutical caches; coordinate testing the Emergency Response Plan of the Municipality Health Department; participate in development and implementation of the Health Alert Network; and develop a training plan for public health staff and assist in continued participation in the Alaska Public Health Training Network.

The healthcare facilities focus will develop and implement regional preparedness plans and protocols for hospitals, outpatient facilities, EMS systems and poison control centers in collaborative statewide or regional models. Preparedness services will also address non-terrorist epidemics of rare diseases, exposure to chemical toxins and radiological materials, and mass casualties due to explosions.

Target Group: Target groups, respective to the areas of program focus are: Alaska Native healthcare facilities and those they serve; Municipality of Anchorage health department staff and other healthcare professionals in Anchorage, as well as the population in and around the Municipality of Anchorage; hospitals; emergency medical systems; poison control centers; community health centers; rural health clinics; federally qualified health centers; tribally-owned health care facilities; and other outpatient facilities known to be vital points of entry into the health care system.

Resource Allocation: Funding levels are based on federal priorities and the amount of federal funds available to the State.

Criteria: Awarded proposals must provide a work plan for enhancing public health infrastructure and coordinate planning, exercises, and response efforts with the State of Alaska, Division of Public Health. The work plan must specify goals, objectives, activities, and timelines for implementation.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Tobacco Cessation Interventions**

Authority: AS 44.29.020; AS 47.05.010; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: As a means to reduce death, disability and the economic burden caused by tobacco use, evidence-based tobacco control programs are needed that respond to the four goal areas of the State of Alaska Tobacco Prevention and Control (SOA-TPC) Program, and the current Centers for Disease Control and Prevention's (CDC) Best Practices for Comprehensive Tobacco Control Programs. The goal areas are: 1) prevent the initiation of tobacco use among youth; 2) promote cessation for tobacco users; 3) eliminate exposure to secondhand smoke, and; 4) identify and eliminate tobacco use disparities. The long term goal of this grant program is to reduce the prevalence of tobacco use in health care center patient populations and to reduce the death, disability and economic burden related to tobacco use and/or exposure to tobacco smoke. This grant program focuses on the goal area: 2) promote cessation for tobacco users; and is formed by the evidence-based strategies for cessation outlined in the CDC Best Practices for Comprehensive Tobacco Control Programs.

Target Group: All Alaskans affected or potentially affected by tobacco use.

Resource Allocation: Proposed service delivery is statewide. Eligible applicants include nonprofit health care centers, municipal health care centers, federally qualified health care centers, or federally designated community health centers. Service areas must include at least 2,000 people. Applicants must meet the eligibility requirements of 7 AAC 78. This program is funded through Tobacco Use Education and Cessation Funds, appropriated annually by the State legislature.

Criteria: Grantees must: 1) adhere to the CDC Best Practices for Comprehensive Tobacco Control Programs; 2) implement a State approved Action Plan and Action Plan Narrative; 3) implement a State approved Health System Summary and Health System Summary Narrative, 4) implement a State approved Tobacco Cessation Interventions Sustainability Plan; 5) collaborate with the Alaska Tobacco Quit Line.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Tobacco Prevention and Control (Community Based Grants)**

Authority: AS 44.29; AS 47.050.010; 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: The mission of the Tobacco Prevention and Control (TPC) Program is to improve the health of all Alaskans by decreasing death, disability and economic burden caused by tobacco use and exposure to second hand smoke. Tobacco use continues to be Alaska's number-one public health problem. This grant program provides funding to communities that are actively involved in population-based, policy-focused tobacco prevention and control strategies.

The Alaska TPC Program has developed four major public health goals:

- (1) to prevent initiation of tobacco use among young people;
- (2) to promote quitting among adults and young people;
- (3) to identify and eliminate tobacco-related disparities in specific populations identified as of special vulnerability or with above-norm tobacco use patterns; and
- (4) to eliminate exposure to secondhand smoke.

The structure of Alaska's tobacco program is based on recommendations from the CDC's Best Practices for Comprehensive Tobacco Control Programs. The statewide program is organized, funded, and managed as program components designed to accomplish and measure the TPC Program goals. The program components include:

- (1) community-based programs to reduce tobacco use;
- (2) enforcement (in Division of Behavioral Health);
- (3) statewide programs that increase the capacity of local programs by providing technical assistance on evaluating programs, promoting media advocacy, implementing smoke free policies, and reducing minors' access to tobacco;
- (4) cessation programs;
- (5) media/counter-marketing;
- (6) surveillance and evaluation; and
- (7) administration and management.

Target Group: Alaskans who are affected by tobacco use.

Resource Allocation: Tobacco prevention and control community-based grants are funded through State of Alaska Tobacco Use Education and Cessation funds.

Criteria: Community based grantees that demonstrate broad-based community involvement in their local tobacco control alliance, and submit an action plan that includes long-term policy interventions.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health

Youth Pregnancy and Violence Prevention Projects

Authority: 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: Promising practices/screened programs that are centered on empowering youth for positive growth and experiences for healthy relationships, and preventing teen pregnancy. Partner organization will choose mini-grantees who work in regions that have a high incidence of early sexual onset, high rates of teen births or high rates of intimate partner violence, as demonstrated by data and/or knowledge of community and population behaviors.

Target Group: A partnership with a youth serving organization to administer mini-grants to youth groups. Intent is for mini-grant projects designed to strengthen and increase positive experiences that prevent teen pregnancies, promote healthy relationships, and empower young Alaskans to develop into healthy, respectful, caring, and responsible citizens. Population to reach is intended for rural Alaskan youth ages 10-20. Projects will replicate a promising practice/screened program, centered on the themes of intimate partner violence prevention and/or pregnancy prevention.

Resource Allocation: Program funding will be to a single entity, with sub-grants to youth groups.

Criteria: Eligible applicants include nonprofit organizations, municipalities and Regional Educational Attendance Areas or other political subdivisions of the state, other State agencies, Alaska Native Tribes, or a combination of these entities. Funding is issued through a statewide competitive solicitation process.

Appropriation: Grant funding is by RSA from Division of Public Assistance to the Division of Public Health.

RDU: Public Health

Component: Women, Children and Family Health

Senior and Disabilities Services

Acquired and Traumatic Brain Injury Case Management

Authority: State Authority: AS 47.80.500-529 Acquired and Traumatic Brain Injury Case Management; and 7 AAC 78 Grant Programs.

Priorities: Case management is a person centered, goal-oriented process in which the case manager and client work together to find, develop, and utilize a comprehensive range of services and supports. ATBI Case Management grants will allow community-based agencies to assist people with ATBI and their families in achieving short-term and overall life goals, and will help to minimizing the severity of disabilities through interventions and compensatory strategies. The ATBI case manager will be responsible for coordinating services to assure that people have access to a full array of needed community services including, medical, rehabilitative, social, educational, in-home supports, and other needed services.

Target Group: These services are meant to support individuals living with traumatic brain injury, with the definition for traumatic or acquired brain injury found in the statute at AS 47.80.529.

Resource Allocation: Services are provided through grants in two major population centers, with the intent for serving two sites to provide accessibility to services to as many discrete populations of Alaskans with Acquired Traumatic Brain Injury as is possible with the limited funds available.

Criteria: Grants are meant to provide targeted case management services, with outcomes based on improvements for individuals in securing personal supports, specialized services and other community resources. The goal of the program is to ensure that individuals living with ATBI succeed in community re-integration, community living and return to an independent and productive lifestyle. Grantees must be able to demonstrate an understanding of the program goals and anticipated outcomes and must meet or exceed anticipated service minimums.

Appropriation: Funds are appropriated to the Division of Senior and Disabilities Services.

RDU: Senior and Disabilities Svcs

Acquired and Traumatic Brain Injury Mini-Grants Program

Authority: State Authority: AS 47.80.500 – Acquired and Traumatic Brain Injury Program, and 7 AAC 78 Grant Programs

Priorities: The Acquired and Traumatic Brain Injury (ATBI) Mini Grant Program, begun in FY 2010, is a SDS-administered program that serves adult survivors of ATBI with case management services, designed to promote stability and independent community living. In addition, the 2010 Alaska Legislature passed SB 219, a bill mandating a comprehensive state-sponsored ATBI program. The bill authorized “targeted case management” services for people with ATBI as an optional Medicaid service. Mini grants will allow the individual to access medical, dental and behavioral training services needed to diagnose and treat ATBI and associated conditions, (if not covered by Medicaid), and to purchase adaptive equipment and other items needed to implement compensatory strategies for cognitive disabilities.

Target Group: This program is designed to serve adult survivors of traumatic brain injury, who are receiving case management services through either the Senior and Disabilities Services Acquired and Traumatic Brain Injury Case Management Program or through the new Medicaid targeted case management service.

Resource Allocation: Mini Grants will be made available statewide through a single administrator.

Criteria: This program was designed to be flexible and intended to respond immediately to meet the needs of clients by providing necessary supports not funded by other programs. It addresses the type of needs of the designated beneficiary group intended by the Mental Health Trust Authority. Applicants to administer this program are evaluated for their ability to effectively administer the program.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Adult Day Services**

Authority: 45 CFR Part 1321, Title III, The Older Americans Act ; AS 47.65 Service Programs for Older Alaskans & Other Adults; and 7 AAC 78 Department of Health & Social Services Grant Programs; and the provisions of Adult Day Services standards adopted by the Division of Senior and Disabilities Services.

Priorities: Adult Day Services programs provide an organized program of services during the day in a community group setting, for the purpose of supporting adults personal independence and promoting their social, physical, and emotional well-being. Services include a variety of program activities designed to meet the individual needs and interests of the participants, and referral to and assistance in using appropriate community resources. The provision of these services allow families and other caregivers to continue caring for individuals so they can continue to live at home. Adult Day Services often help stabilize individuals after a health crisis, and by providing assistance in daily living activities help clients remain in their communities. For persons with Alzheimers Disease and Related Disorders (ARD), these programs provide an environment that helps individuals maintain function even while the disease progresses. Adult Day programs in Alaska strive to promote the individuals level of functioning and independence in a therapeutic setting; provide support, respite, and education for families and other caregivers; provide opportunities for social interaction; and serve as an integral part of the community service network.

Target Group: The target group are individuals who require assistance with supervision due to physical, emotional, or cognitive impairments who are 60 years or older, 55 years or older who are at risk for institutional placement, persons of any age with Alzheimers Disease or Related Disorders, or adults 18 years or older with similar disabilities and service needs as Older Alaskans.

Resource Allocation: The service area is statewide. The funding methodology takes into account basic costs of operation and performance. Each site is given the same base grant and a percentage of remaining funds based upon an average of hours of service provided over a four-year period.

Criteria: Grantees must be a certified Adult Day Care provider under the most current DSDS Medicaid Waiver regulations. In addition, all Adult Day Care providers must meet and maintain standards as set forth in the Division of Senior and Disabilities Services Adult Day Program Standards.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Aging and Disability Resource Centers**

Authority: State Authority: AS 47.24 Protection of Vulnerable Adults; AS 47.65 Service Programs for Older Alaskans and Other Adults; AS 47.80 Persons with Disabilities; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The goal of Alaska's Aging and Disability Resource Centers (ADRCs) is to provide for individuals of any age with a disability and their caregivers, a visible and trusted place to go for comprehensive information about long term care services available in their communities. The ADRCs help to streamline a consumer's ability to access sufficient long-term care services by consolidating information, providing referrals, and assisting the consumer in accessing services specific to their needs. ADRCs provide long-term care options counseling that provides information about housing, in-home services, Medicaid, Medicare Part D, home modifications, informal supports, transportation, disability determination, behavioral health services, Social Security Disability Insurance, Social Security Insurance, Adult Public Assistance, case management, Personal Care Attendants, and other home and community based services. The Aging and Disability Resource Centers work in concert with the department's Rural Long Term Care Coordinator and other care providers to develop and improve access to long-term care services for Alaska Mental Health Trust beneficiaries and their families, so that they do not have to leave their homes and communities. The Centers are partners with local hospitals in a Care Transitions initiative to improve the health outcomes and self-management skills of patients discharged from the hospital to their homes. The Aging and Disability Resource Centers are Local Contact Agencies for Section Q in working with nursing facilities and Senior and Disabilities Services to transition residents wishing to return to their home.

Target Group: There are no income, geographic or age restrictions for ADRC services. The target population for this grant is Older Alaskans (as defined in AS 47.65.290) or Persons with a Disability (as defined in AS 47.80.900), and their families or caregivers.

Resource Allocation: The ADRCs in operation serve Southeast Alaska; Bristol Bay and Kodiak; Kenai Peninsula, Valdez, Cordova, and the MatSu; and Anchorage.

Criteria: ADRCs improve the long term support service system by minimizing confusion, enhancing individual choice, supporting informed decision-making and increasing the cost effectiveness of long term support systems.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services

Alaska Mental Health Trust Authority (AMHTA) Developmental Disabilities Mini-Grants

Authority: AS 47.80 Persons with Disabilities, 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Mini-Grants are one-time awards not to exceed \$2,500 per recipient for basic living needs not covered by other grants or funding sources. Services and supplies purchased through Mini-Grants are designed to help beneficiaries attain and maintain healthy and productive lifestyles. The kinds of supplies or services the Mental Health Trust considers appropriate for Mini-Grants include, but are not limited to: therapeutic devices, access to medical, dental and vision care, or special health care needs. Assistance with basic living needs necessary to avert a crisis that is not covered by another funding source is also allowable (e.g., medical transportation, heating oil, and winter clothing). Mini-Grant applications for services or equipment that are covered by other public benefits, a person's private insurance, Medicaid, or Indian Health Service are not approved.

Target Group: Mini-Grants are available to individuals determined eligible for Developmental Services per AS 47.80.900(6) or currently enrolled in an Early Intervention/Infant Learning Program. Applications may be submitted through Developmental Disabilities agencies, Short-Term Assistance and Referral (STAR) Programs or Infant Learning Programs.

Resource Allocation: Funds are allocated by geographic census area according to the percentage of population in the each designated area, and distributed by a single Statewide grantee.

Criteria: This program was designed to be flexible and to respond immediately to meet the needs of consumers, and has been an effective way to provide necessary supports not funded by other programs. It addresses the type of needs of the designated beneficiary group intended by the Mental Health Trust Authority.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Alzheimer's Disease and Related Disorders - Education and Support Services**

Authority: State Authority: AS 47.65 Service Programs for Older Alaskans & Other Adults; and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The Alzheimer's Disease & Related Disorders (ADRD) Education and Support Services program provides statewide education and support services to people with Alzheimer's Disease and Related Disorders and their caregivers; as well as providing education about ADRD to the general public, healthcare professionals, professional caregivers, agencies, and organizations.

The Scope of the project includes:

Support to families, which assists them to maintain the ADRD client at home, forestalling or preventing institutionalization;

Dissemination of information to families and the general public regarding the process, prevalence and research findings of ADRD;

Promotion of general awareness statewide of ADRD and the impact on families and communities; and

Advocacy for services for persons with ADRD.

ADRD also includes, but is not limited to, Vascular Dementia, Parkinson's Disease, Pick's disease, Huntington's disease, Lewy Bodies, HIV, alcohol related dementia, and others.

Target Group: The target Group for ADRD Education and Support is individuals with Alzheimer's Disease and Related Disorders, their caregivers, health care professionals, professional caregivers, agencies, organizations, and the general public.

Resource Allocation: Resource allocation is based on the federally approved State Plan for Services and the Alaska Mental Health Trust Authority beneficiary group definition. Services are provided statewide by a single agency with regional offices.

Criteria: The grantee must meet requirements as stated in the Request for Proposals and have demonstrated knowledge and expertise in providing education, training and support to caregivers, individuals, services providers, and the community at large about Alzheimer's Disease and Related Disorders. Regional outreach offices must be maintained in Anchorage, Fairbanks, and Juneau.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Behavioral Risk Management**

Authority: Programmatic: AS 47.80 Persons With Disabilities; 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: As required by AS 47.80.100, the Department must, within the limits of appropriation, implement a comprehensive system of services and facilities dispersed throughout the state. The services required under this statute are specialized and directed towards addressing minimal habilitation and crisis needs of people with developmental disabilities (DD) who display high risk behaviors. This program addresses the severe statewide shortage of qualified direct care staff and professionals with critical expertise necessary to deliver services to people with DD.

Target Group: Statewide services are targeted for individuals with developmental disabilities (DD) who display high risk or inappropriate behaviors and are at risk of institutionalization in corrections facilities, as well as individuals who, because of their disability, are more vulnerable to abuse. Training or support provided by this program must be accessible to direct service staff, school paraprofessionals, family members of people with disabilities, and other interested students, in their home communities.

Resource Allocation: Funds are allocated to provide services statewide through a single provider with specialized expertise and capability.

Criteria: To receive a grant under this program, the organization must demonstrate that they have the required infrastructure and necessary expertise to accomplish the goals for each grant. Additionally, the grantee must incorporate and make maximum use of other federal, state, and private funds to advance to goals for each project. Under the federal Developmental Disabilities Act, the Center for Human Development/UCED receives federal funds to connect specifically to research information from other states and adapt it for optimal delivery of services and training in Alaska.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

					Program Total:	\$327,990

Senior and Disabilities Services**Community Developmental Disabilities Grants**

Authority: AS 47.80 Persons with Disabilities; and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The Community Developmental Disabilities Grant (CDDG) programs provide funding for services to and enhance the quality of life for consumers impacted by developmental disabilities. The CDD grants address the needs of individuals with developmental disabilities (DD) for “habilitation” which is the acquisition and maintenance of skills to live with independence and improved capacity, and to minimize institutionalization and provide care in the local community.

The needs of individuals receiving services through the CDDG are assessed and a plan of care is developed and reviewed annually. Each individual plan of care varies depending upon the person’s age, unique needs, and existing supports. Services provided to individuals include supported employment, respite care, care coordination, day habilitation, case management, and Core services. Successful applicants receiving CDD grants must assure that individuals have a choice when selecting from an array of service providers dispersed throughout the state and their community.

Community DD Providers link individuals to services that will assist them until they are enrolled in more comprehensive services under grant funds or a Home and Community Based Waiver. These grants assist with purchasing units of services earmarked for eligible individuals waiting for comprehensive services.

Target Group: Under AS 47.80.100 the Department provides people with developmental disabilities specialized services directed towards their social, personal, physical, or economic habilitation. Applying a national prevalence factor (1.8%) for the occurrence of developmental disability to the Alaskan population, it is estimated that there are 12,000 to 13,000 Alaskans with developmental disabilities. Only about 3,547 people receive services funded by a CDD grant or Medicaid Waiver. Currently, there is a registration of 851 people awaiting selection for a Medicaid Waiver or who do not meet the criteria for Medicaid waivers and are in need of various CDD direct services.

Resource Allocation: Resources will be distributed based upon a census of current recipients of services per CDD Applicant Agency. Annually, this census is reconciled with each provider and funds are allocated upon the necessary capacity to sustain services to eligible individuals and to provide for the target populations.

Criteria: Standards of care are expressed as Service Principles stated in AS 47.80.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services

Health Promotion & Disease Prevention

Authority: Federal Title III Older Americans Act (OAA); AS 47.05.010 (16) and (17) Duties of the Department of Health and Social Services; AS 47.65 Service Programs for Older Alaskans and Other Adults; 7AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The goal of Health Promotion, Disease Prevention, funded through AOA, Title III-D, is to improve health and wellbeing of older Alaskan populations and to reduce cost of acute and long term care. Alaska has an increasing population of adults aged 65 and older. Most older adults have at least one chronic condition and many have multiple conditions. Adults over age 65 are increasingly likely to fall, which can result in loss of independence and entry into institutional care. Prevention activities, including self-management of chronic conditions, falls prevention, physical activity, and medication education have been proven to improve emotional and physical health, wellbeing and to sustain ability to carry out activities of daily living and instrumental activities of daily living, so the person is able to remain at home.

Target Group: Older Alaskan populations, aged 65 and older, having at least one chronic condition or multiple conditions.

Resource Allocation: Service delivery area is statewide. Resources will be allocated to support existing evidence based Health Promotion/Disease Prevention programs (i.e. Falls Prevention and/or Chronic Disease Self Management) that demonstrate successful outcomes for participants. In addition to supporting existing programs, resources may be used to initiate new evidence based or other programs aimed at reducing the risk of disease, disability, and injury among older adults.

Criteria: Grantees must have demonstrated knowledge and experience in providing services to the target population. A 10% match is required.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

RDU: Senior and Disabilities Svcs

Component: Senior Community Based Grants

Senior and Disabilities Services

Medicare Counseling and Outreach

Authority: Federal Authority: PL 101-508 codified at 42 USC 1395 b-4, Section 4360 of Omnibus Budget Reconciliation Act of 1990; and State Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Services provided through this program include personalized counseling, education and outreach to assist current Medicare beneficiaries and persons eligible for Medicare benefits with their Medicare questions. Funds support a network of local programs, staff and volunteers that provide accurate and objective information to help beneficiaries understand and utilize their Medicare benefits including preventive benefits. This grant supplements outreach efforts to the targeted populations.

Target Group: Alaska has 65,000 Medicare beneficiaries of which approximately 26,000 live in the Anchorage Bowl, 9,000 live in the Mat-Su Borough, 8,500 live in the Fairbanks area, 7,400 in the Kenai Peninsula, and 3,500 in the Juneau area, with other beneficiaries spread throughout the smaller communities of Alaska.

Resource Allocation: Funds support part-time Medicare information/outreach counselors located in the most populated areas of the state, beginning with Anchorage and the Mat-Su area. Additional sites may be awarded grants as funding becomes available.

Criteria: To maximize the benefit of the available resources, eligibility for grant award is limited to agencies with existing infrastructure already providing services to seniors, and/or agencies that provide culturally based activities or services to the targeted communities. Applicants must also demonstrate adequate accessibility to services by potential recipients, and have staff with current training in Medicare counseling and outreach services.

Appropriation: Grant funds are appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services

National Family Caregiver Support Program

Authority: Federal Title III-e of the reauthorized Older American Act; AS 47.05.010 (16) and (17) Duties of the Department; the Older Americans Act; AS 47.65 Service Programs for Older Alaskans and Other Adults; and 7AAC 78 DHSS Grant Regulations.

Priorities: The Older Americans Act programs have long recognized caregivers as key players in meeting the needs of the Older Persons in the community. The creation of the National Family Caregiver Support Program (NFCSP) in the 2000 Reauthorized Older Americans Act for the first time requires all State units on aging to focus on the caregiver rather than the Older Consumer, and to provide service primarily for the benefit of the caregivers themselves. The program includes five basic services: 1) Information to caregivers about available services; 2) Assistance to caregivers in gaining access to supportive services; 3) Individual counseling, organization of support groups, and caregiver training to assist caregivers in making decisions and solving problems relating to their caregiver roles; 4) Respite care to enable caregivers to be temporarily relieved from their caregiver responsibilities; and 5) Supplemental services up to a maximum of \$500 a year toward items and services that complement care.

Target Group: Caregivers eligible for services are caregivers of individuals with Alzheimer's Disease (of any age); caregivers of older adults (60 years of age or older) and grandparents or older relative caregivers (55 years of age or older) caring for a child related by blood, marriage or adoption.

Resource Allocation: Allocation of resources is based on the Federally approved State Plan for Senior Services and funding limitations as indicated in Title III-e.

Criteria: Grantees must have demonstrated knowledge and experience in providing services to the target population.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Nursing Facility Transition Program**

Authority: Federal Authority: Americans with Disabilities Act; Olmstead Decision; and the New Freedom Initiative
State Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Nursing Facility Transition Program provides services for people with disabilities or the elderly to move from nursing facilities into the community in order that they might live in the least restrictive setting possible and integrate into and participate in their community. Grantee Transition Coordinators work closely with nursing facility social workers and discharge planners and the DSDS-LTCU staff for timely and efficient discharge and transition. Funds from these grants may provide services as diverse as security deposits (no rent payments), groceries, trial visits to home or to an Assisted Living Home, or transportation, room and board for a caregiver from a rural area to an urban area for training in the care of the recipient. Services to be provided may include: outreach and counseling, assessment of the consumer for appropriateness of transition, peer counseling, home assessment for safety, transition planning, and implementation of the plan. Needed items or services may be approved by the State Program Coordinator, such as funding for: home or environmental modifications, Travel/Room/Board for rural caregivers to receive client specific training, trial trips to the home or assisted living home, short-term payment for an appropriate worker of a skill level needed, security deposits, one-time initial cleaning of the home, basic furnishings necessary to set up a livable home, transportation to a new home, ongoing follow-up and counseling as needed, evaluation of effectiveness of services, and evaluation of continuing quality of life for the consumer.

Target Group: The Nursing Facility Transition Program targets any Alaska resident over the age of 21 who resides in a nursing facility and who wants to transition back into the community. Clients must have, or be expected to have, Medicaid Waiver approval within six months. This program is available to any resident of a nursing facility in Alaska. Alaska residents residing in a facility outside the state will be considered on a case-by-case basis.

Resource Allocation: Priority is given to applicants who document that they can provide staff time as matching in-kind funds and/or other resources necessary to deliver and coordinate services statewide.

Criteria: Proposers must have a statewide network specific to the type of services requested and the capability to coordinate activities with satellite agencies or through agreements with like agencies. Applicants must submit a map showing the location of satellite offices or agreement agencies. The description of proposed services through satellite agencies and/or coordination with like agencies must be fully supported by written agreements.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Nutrition, Transportation and Support Services**

Authority: Federal Title III Older Americans Act; AS 47.05.010 Duties of the Department of Health and Social Services; AS 47.65.010 Service Programs for Older Alaskans and Other Adults; 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The Nutrition, Transportation and Support Services (NTS) Program, authorized under the Title III of the Older Americans Act, provides grants to local community organizations such as senior centers, non-profit agencies, and tribal or local governments in order to meet the needs of Alaska's aging population. NTS program provides services to Seniors age 60 and over, helping them to remain independent and healthy in their communities. Services are targeted to those with the greatest economic and social need through a State Plan funding formula developed by the Alaska Commission on Aging in collaboration with the Department of Health and Social Services. Services provided through this program include:

- Congregate and Home Delivered Meals
- Assisted and Unassisted Transportation
- Homemaker Services
- Outreach, Information and Assistance
- Nutrition Education to groups and Counseling to individuals
- Health Education to groups and Services to individuals
- Medication Management
- Legal Services
- Media Services (provides partial funding for the Senior Voice)
- Community Services; Senior Companion, Foster Grandparent/Elder Mentor, and Retired Senior Volunteer Programs

Target Group: These services are available to Alaskans 60 years of age and over. These individuals are those with the greatest economic and social need with particular attention to older persons that are low income, minorities, live in rural areas, and are frail. Applicants for grants identify the population to be served and provide assurance that preference will be given to serving the target population defined by Older Americans Act.

Resource Allocation: Funding is allocated through the Intra State Funding Formula approved in the State Plan for Senior Services using the most current U.S. Census data. Each of nine regions in the state receive an allocation of funds based on the number of individuals 60 years old and over, and the target populations stated above with specific weighting factors.

Criteria: Applicants must meet the requirements for program delivery. Proposals are evaluated based on the criteria in the Request for Proposals and prior year performance.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Protection and Advocacy**

Authority: Programmatic: Public Law 106-402 DD Act; Americans with Disabilities Act; AS 47.80 Persons with Disabilities and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Protection of Rights & Investigation of Abuse program provides people with developmental disabilities (DD) and their families training and assistance in methods to resolve grievances they may have with providers of community developmental disability services. Services funded by the program range from information and referral, negotiation, and mediation, various interventions in line with administrative recourse and, as a last resort, legal consultation and remedies. Under the Federal DD Act, the state must have a system of protection and advocacy that has the capacity to provide administrative and legal remedies to civil rights concerns for people with developmental disabilities. The program exists to assist eligible individuals, sometimes through their families and guardians, to engage in their own advocacy. In collaboration with the Division of Senior and Disabilities Services, this grant has been used to emphasize training to recipients in such areas as special education, social security, and the Americans with Disabilities Act.

Target Group: In order to receive this grant, an organization must have the capacity to provide the Department with an immediate statewide response to complaints of abuse and neglect by persons meeting the definition developmentally disabled as described in AS 47.80.900.

Resource Allocation: A single agency provides statewide Protection and Advocacy Services. This award incorporates and makes maximum use of other federal, state, and private funds, which are awarded directly to the sole provider to establish and maintain protection and advocacy services to Alaskans with mental illness and other unique populations with concerns similar to those of persons with developmental disabilities. The Disability Law Center has continuously performed these unique services for 25 years.

Criteria: The grantee must have the unique legal authority under state and federal law to investigate complaints by vulnerable people with developmental disabilities, of abuse and neglect in institutions. Additionally, the grantee must assist and train the target population statewide in identifying and obtaining needed services from generic public benefits and entitlement programs, and special education for adolescents with developmental disabilities. The Disability Law Center (DLC) was created in 1977 to meet the requirements of Alaska Statute 47.80.020 to have a system of protection and advocacy for people experiencing developmental disabilities (DD).

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

RDU: Senior and Disabilities Svcs

Component: Community DD Grants

Senior and Disabilities Services**Senior In-Home Services**

Authority: AS 47.05.010 (17) Duties of the Department of Health and Social Services; AS 47.65.010 Service Programs for Older Alaskans and Other Adults; 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: Senior In-Home Services provide care coordination and in-home services to eligible seniors who do not qualify for Medicaid Waiver services and need assistance with activities of daily living. The goal of the program is to support Alaskan seniors so that they may remain in their homes and communities for as long as possible thereby forestalling or eliminating more costly institutional care. Services include Care Coordination, Chore, Respite, Extended Respite and Supplemental Services (up to \$500 per household per year) for items or services that support the “low-income” senior in avoiding a crisis that would jeopardize their ability to remain independently in their home.

Target Group: These services offer a safety net for low income seniors who do not meet the level of care for the HCB Medicaid Waiver program especially those with Alzheimer’s Disease and related disorders. By providing care coordination and in-home assistance, the Senior In-Home program is able to extend the time an individual can live independently in their own home and communities, reducing need for costly institutional care. This continues to be very important as Alaska’s senior population is now the fastest growing per capita in the U.S.

Resource Allocation: Resource allocation is based on the funding formula in the Alaska State Plan on Aging. Service area is statewide.

Criteria: Grantees must be a certified Care Coordination, Respite and/or Chore provider agency under the most current DSDS Medicaid Waiver regulations. In addition, all Care Coordination and Respite providers must meet Care Coordination and Respite standards adopted by the Division of Senior and Disabilities Services.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services

Senior and Disabilities Services

Senior Residential Services

Authority: AS 47.65 Service Programs for Older Alaskans; AS 47.33 & 7 AAC 75 Assisted Living Homes; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The intent of the SRS program is to provide support in a residential setting to rural elders so that they can remain in their communities of choice as they age; recognizing the importance of community, family and culture for one's well being, while avoiding the need to leave familiar surroundings for institutionalization in large urban settings. SDS monitors and licenses the residences as Assisted Living Facilities. Residents receive individual support in a residential setting for assistance with activities of daily living; personal care, and instrumental activities of daily living. The Division of Senior and Disabilities Services (SDS) oversees grants that help to support the assisted living facilities for elders in rural Alaska; and make funds available for additional grants to plan for the development of new rural Senior Residential Service programs through Supported Housing, or an Assisted Living Homes in communities and/ or regions currently without these services, but with a demonstrated need.

Target Group: The Senior Residential Services (SRS) grant provides essential grant funds to rural-remote providers for supported residential living services to frail elders who do not have access to Pioneer Homes or other Long Term Care facilities in their community or region.

Resource Allocation: Funds are allocated to support existing facilities as well as to support development of new facilities .

Criteria: Grantees must meet the standards for assisted living facilities licensed and monitored by the Department.

Appropriation: Grant funding is appropriated to the Division of Senior & Disabilities Services.

Senior and Disabilities Services**Short-Term Assistance and Referral Programs STAR**

Authority: AS 47.80 Persons with Disabilities and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Short-Term Assistance and Referral program (STAR) exists to assist individuals with developmental disabilities (DD) and their families by providing short-term assistance to ameliorate a crisis before it occurs. The STAR program also acts as the conduit to services by assisting with DD applications, as well as resource identification and referral to other applicable community-based and natural supports. Many individuals who are on the DD waitlist access STAR programs while waiting for more comprehensive services. STAR is designed as a “stand-alone” program within a grantee agency due to its unique functions and ability to quickly provide time-limited supports in a private, unobtrusive fashion.

In addition to funding a full-time STAR Coordinator, each STAR program has an allocation of \$15,000 in discretionary funds to assist recipients. Each recipient may apply for a maximum of \$2,500 per year. Allowable costs under the STAR program include, but are not limited to: respite, transportation, adaptive equipment, and services that assist the family, such as behavioral training or counseling, or for Medical appointments not funded by another source.

Assistance with basic living needs necessary to avert a crisis that are not covered by another public or private program, such as emergency medical transportation and clothing may be approved on a limited basis. Rent and utilities expenses may be approved as a one-time payment if necessary to keep the family in the home and while other resources are being secured.

Target Group: People with developmental disabilities and their families may access STAR services.

Resource Allocation: STAR grants are allocated geographically and provide funding for personnel and operating costs to enable grantees to serve people within their census area.

Criteria: The STAR program is designed to assist eligible individuals and their families on a short-term basis (90 days or less) prior to the occurrence of a crisis. Services are varied and community based in order to meet the needs of each individual family. Natural supports and strategies are developed to assist the family in achieving stability and independence.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Student Living Center Services for the Deaf and Hard of Hearing**

Authority: AS 47.80 Persons with Disabilities; 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The program provides residential services and daily support to students from outside the Anchorage area while they are attending the Alaska State School for the Deaf and Hard of Hearing, within two licensed board and care homes and one foster care placement home. Individuals participate in life skills training, community activities, and after school sports or clubs. Services are provided 24 hours a day, seven days a week during the academic year. During summer, when students do not occupy the living center, the residences may be used as temporary housing for families of developmentally disabled children who are in Anchorage for medical treatment or evaluation.

Target Group: Services are provided statewide to persons who meet specific criteria outlined in the State of Alaska's definition of developmental disabilities (AS 47.80.900) in need of educational services at the Alaska State School for Deaf and Hard of Hearing. Priority placement is given to children from outside the Anchorage area.

Resource Allocation: Services are provided in Anchorage where the Alaska State School for Deaf and Hard of Hearing is located. Funding is provided to DHSS through a Reimbursable Services Agreement with the Alaska Department of Education and Early Development.

Criteria: Grant funds are distributed through the Department's grant process. Each grantee is required to be reviewed regularly by the Division's Quality Assurance review team, and by an independent financial auditor. A Division-approved action plan is required from the grantee, responding to any recommendations made by the review team. Standards of care are expressed as Service Principles stated in AS 47.80.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.
