## About the data in this report

This report summarizes statistics for Initial Assessments (IA) of child Protective Service Reports (PSR) completed by Alaska's Office of Children's Services (OCS), including substantiation determination of allegations, and demographics of victims and perpetrators. PSRs are documented reports of alleged maltreatment of children.

For this report time periods are assigned based on administrative acceptance of IA substantiation outcomes. Some IAs may not be administratively finalized during the period their PSRs were received.

Initial Assessments may include one or more Protective Service Reports. Each PSR may report multiple alleged occurrences of maltreatment. Each allegation within a PSR matches one victim to one perpetrator for one maltreatment type. In this report Victims or Perpetrators included in substantiated counts are excluded from not-substantiated counts.

Counts of alleged victims and alleged perpetrators are unique; that is, alleged victims or alleged perpetrators are counted only once per category. Some individuals may be duplicated between allegations of a specific maltreatment type; maltreatments in this report are counted once per type per substantiation determination, and per region for regional breakouts. Due to this "uniquifying", figures within or between tables may not be additive.

Native Status is determined by reported race of either Alaskan Native or Native American.

To protect the privacy of individuals in low-count groups, screening status regional breakouts are not included for monthly reporting periods.

Age calculations are based on the time of Protective Service Report screening acceptance. Where multiple reports were received the earliest report of maltreatment is used for age calculation. Ages are grouped in three-year increments to protect the privacy of individuals in low-count groups.

Also to protect the privacy of individuals in low-count groups, regional breakouts are not included for monthly reporting periods due to low numbers.

Subsequent reports covering the same reporting periods will contain updated statistics.

## OCS Initial Assessment Web Report Field Definitions

**Allegation** - Child abuse statements and/or descriptions by a reporter that consist of one Alleged Perpetrator, one Alleged Victim, and one of the four types of Maltreatment.

**Alleged Perpetrator** - An Initial Assessment participant alleged of maltreating an Alleged Victim.

**Alleged Victim** - Child about whom a report regarding Maltreatment has been made.

**Case** - A household unit included in one or more Initial Assessments.

**Closed without a Finding** - Disposition that does not conclude with a specific finding because the Initial Assessment could not be completed for such reasons as the family moved out of the jurisdiction or the family could not be located.

**Initial Assessment (IA)** - An evaluation of child safety completed for each screened in PSR. The IA process consists of gathering sufficient information (via face-to-face interviews with the alleged victim, family members and collateral contacts) to determine if a child is safe or unsafe and determining the finding for each allegation (Substantiated or Not Substantiated). A determination is also made as to whether the children and/or other persons involved in the report of alleged maltreatment are in need of services. An IA may include multiple PSRs.

**Maltreatment** - An act or omission that results in circumstances in which there is reasonable cause to suspect that a child may be a child in need of aid, as described in Alaska Statute 47.10.011; an injury and/or damage to a child's physical or mental well-being. Alaska divides maltreatment into four types: Mental Injury, Neglect, Physical, or Sexual. Please refer to next page for elaboration on each type.

**Native Child** - Any mention of Alaska Native or American Indian race.

**Not Substantiated** - Initial Assessment disposition that determines there is not sufficient evidence under Alaska law or policy to conclude that the child has been maltreated or is at risk of being maltreated. Includes Closed without a Finding, which is a disposition that does not conclude with a specific finding because the Initial Assessment could not be completed for such reasons as: the family moved out of the jurisdiction or the family could not be located.

**Office of Children's Services (OCS)** - A division of Alaska's Department of Health and Social Services.

**ORCA** - Online Resources for the Children of Alaska, OCS's main database.

**Perpetrator** - A parent, guardian, or caregiver with Substantiated abuse against a child Victim; the person who has been determined to have caused or knowingly allowed the maltreatment of the child.

**Protective Service Report (PSR)** - A report of child Maltreatment. A PSR may contain multiple Allegations, each of which consists of one Alleged Victim/Alleged Perpetrator/Maltreatment combination.

**Region, as used in this Initial Assessment report** - One of areas of five Alaska, based on the office of the primary OCS worker responsible for the Initial Assessment. Because a Case can have more than one IA, occasionally a case may be represented in more than one Region.

**Reporting Period** – Complete month or calendar year, as specified in the report. Owing to Unique Counts, data reported on a monthly basis will not necessarily sum to annual figures.

**Safe** - Children are considered safe when there is no present danger or impending danger, or the caregivers' protective capacities control existing threats.

**Substantiated** - A type of Initial Assessment disposition which concludes that the allegation of maltreatment or risk of maltreatment was supported or founded by State law or policy. This is the highest level of finding by OCS.

**Screened In / Screened Out** - A decision as to whether the reporter's concerns within a PSR constitute a potential threat to child safety. If so, the PSR is Screened In and an Initial Assessment is completed. If not, the PSR is Screened Out and the Case is closed with no further action.

**Unique Count** – An unduplicated count within the Reporting Period; that is, each person, ID, or combination of person or ID with other factors is counted only once regardless of the number of times represented within the reported group during the Reporting Period. For example, a Victim of multiple instances of Neglect in the Anchorage region will be counted once in that maltreatment type and region, though the same Victim may be counted again for other types of Maltreatment, or in other Regions. A Victim-Maltreatment-Region combination counted in multiple monthly reporting periods within a calendar year will be counted only once for that combination in a report based on calendar year.

**Victim** - A child for whom Maltreatment has been substantiated or indicated by an Initial Assessment.

## **Maltreatment Types:**

- **Mental Injury** - An injury to the emotional well-being or intellectual or psychological capacity of a child, as evidenced by an observable and substantial impairment in the child's ability to function.
- **Neglect** - Failure by a Caregiver to provide necessary food, care, clothing, shelter, medical attention, or education for a child.
- **Physical:** Physical harm to a child is defined in AS 47.10.015 as conduct or conditions created by the Caregiver resulting in physical injury to, physical mistreatment of, or sexual contact with, the child. AS 47.10.015 also defines "substantial risk of physical harm" as a negligent act or omission by a child's Caregiver that creates a substantial risk of physical injury to the child.
- **Sexual:** the child has suffered sexual abuse, or is at substantial risk of suffering sexual abuse, as a result of conduct by or conditions created by the child's Caregiver or by the failure of the Caregiver to supervise the child adequately. If the Caregiver has actual notice that a person has been convicted of a sex offense against a minor within the past 15 years, is registered or required to register as a sex offender, or is under investigation for a sex offense against a minor, and the Caregiver subsequently allows a child to be left with that person, this alone may constitute sufficient evidence that the child is at substantial risk of being sexually abused.
